Icarus Down James Bow, 2016 Earth's survivors cling to life on an unforgiving, distant planet, next to the sun! Three generations after the crash of the colony ship Icarus, Iapix is barely hanging on: one of thirteen cities suspended halfway down deep chasms. The sun on the diamond lands above will kill a man in less than five minutes. The ticktock monsters in the fog forest below are a little slower -- but quite a bit smarter. An electromagnetic wash has disabled the computers, the radios, even the lightbulbs. It's the steam and clockwork age reborn: a careful society, rationed and stratified. Which suits Simon Daud just fine. Simon likes the rules, and knows his place -- in the shadow of his older brother, Isaac. All he wants is to earn his wings as an ornithopter pilot and get to work in the flight bays. But on his final test flight, something goes wrong. Isaac is killed. Simon is burned; his body will never be the same. Neither will his world. Not everything in Iapix is quite as it seems, and through his rehabilitation Simon falls into the middle of a conspiracy that will bring everything he's ever known to the ground. Down in the fog forest, monsters await -- but so does the truth . . . if Simon can survive long enough to find it.

Failed Images Ernst van Alphen, 2018 'Failed Images' attempts to understand the divergence between photography and the reality it portrays, analysing the various ways the photograph transforms that which exists before the camera. Because the photographic medium enables very different practices, which in turn results in many kinds of images, it must also be examined from a perspective outside of the dominant approach to the medium, generally called the 'snapshot.' This book therefore explores the photographic image by focusing on practices which refuse this conventional approach, namely staged, blurred, under- and overexposed, and archival photography.

The Girls of Atomic City Denise Kiernan, 2014-03-11 Looks at the contributions of the thousands of women who worked at a secret uranium-enriching facility in Oak Ridge, Tennessee during World War II.

African Americans of Chesterfield County Felicia Flemming-McCall, 2008 For generations, African Americans have enriched South Carolina's history, and the black families of Chesterfield County are no different. During slavery, many African Americans in Chesterfield County were forced to provide domestic services and labor to build the towns in which they were never considered citizens. Many slaves mastered their crafts and used those skills to start a new life for their families after the Civil War. The images in African Americans of Chesterfield County are a testament to the contributions of black families who lived in the county from the 1800s to the mid-1900s, including entrepreneurs, educators, entertainers, farmers, ministers, and other individuals who assisted in making their county a better place to live. Most of the photographs were provided by private collections and archives in hope of preserving the black history of Chesterfield County.

Argentina and the United States David M. K. Sheinin, 2010-06-02 In the first English-language survey of Argentine-U.S. relations to appear in more than a decade, David M. K. Sheinin challenges the accepted view that confrontation has been the characteristic state of affairs between the two countries. Sheinin draws on both Spanish- and English-language sources in the United States, Argentina, Canada, and Great Britain to provide a broad perspective on the two centuries of shared U.S.-Argentine history with fresh focus in particular on cultural ties, nuclear politics in the cold war era, the politics of human rights, and Argentina's exit in 1991 from the nonaligned movement. From the perspectives of both countries, Sheinin discusses such topics as Pan-Americanism, petroleum, communism and fascism, and foreign debt. Although the general trajectory of the two countries' relationship has been one of cooperative interaction based on generally strong and improving commercial and financial ties, shared strategic interests, and vital cultural contacts, Sheinin also emphasizes episodes of strained ties. These include the Cuban Revolution, the Dirty War of the late 1970s and early 1980s, and the Falklands/Malvinas War. In his epilogue, Sheinin examines Argentina's monetary crash of December 2001, when the United States-in a major policy shift-refused to come to Argentina's rescue.

Buffalo Music Tracey Fern, 2008-05-19 Once, a long, long ago, buffalo roamed the West, filling the plains and canyons with the music of their thundering hooves and huffing breath. Then hunters came and destroyed nearly all of them. But buffalo are stubborn, ornery creatures, and though the herds were gone, a few lone calves lingered. If the buffalo were to survive as a species, however, they needed the help of someone just as feisty as they were. Inspired by the work of Mary Ann Goodnight, a pioneer credited with forming one of the first captive buffalo herds in the 1800s, this is the beautifully told and warmly illustrated tale of one woman's quest to save what otherwise would have been lost forever.

The Boss Baby Marla Frazee, 2012-07-03 From the moment the baby arrived, it was obvious that he was the boss. The boss baby is used to getting his way - drinks made to order 24/7, his private jet plane, and meetings around the clock. San Francisco's West Portal Neighborhoods Richard Brandi, 2005 When you're in West Portal and the adjacent Forest Hill and St. Francis Wood, it's hard to believe you're still in San Francisco. These quiet and picturesque neighborhoods are decidedly non-urban, yet they are connected by a streetcar tunnel that leads under Twin Peaks to the bustling downtown area, two miles through the city's mountainous core. In fact, West Portal is named for the western end of this tunnel, which opened in 1917 to bring residents from the city center to what were new garden suburbs. Originally West Portal was sandy and scruffy, while Forest Hill and St. Francis Wood were heavily forested. The neighborhoods grew rapidly in the 1920s, and today West Portal is a popular shopping and entertainment district, while St. Francis Wood and Forest Hill boast some of the city's finest architecture and landscaping.

Miss Julia Speaks Her Mind Ann B. Ross,2009-10-20 Miss Julia, a recently bereaved and newly wealthy widow, is only slightly bemused when one

Hazel Marie Puckett appears at her door with a youngster in tow and unceremoniously announces that the child is the bastard son of Miss Julia's late husband. Suddenly, this longtime church member and pillar of her small Southern community finds herself in the center of an unseemly scandal-and the guardian of a wan nine-year-old whose mere presence turns her life upside down. With razor-sharp wit and perfect Steel Magnolia poise, Miss Julia speaks her mind indeed-about a robbery, a kidnapping, and the other disgraceful events precipitated by her husband's death. Author Luciano Ramalho takes you through Python's core language features and libraries, and shows you how to make your code shorter, faster, and more readable at the same time. With this book, those Python programmers will thoroughly learn how to become proficient in Python 3. This book covers: Python data model: understand how special methods are the key to the consistent behavior of objects Data structures: take full advantage of built-in types, and understand the text vs bytes duality in the Unicode age Functions as objects: view Python functions as first-class objects, and understand how this affects popular design patterns Object-oriented idioms: build classes by learning about references, mutability, interfaces, operator overloading, and multiple inheritance Control flow: leverage context managers, generators, coroutines, and concurrency with the concurrent.futures and asyncio packages Metaprogramming: understand how properties, attribute descriptors, class decorators, and metaclasses work

1493 for Young People Charles Mann,2016-01-26 1493 for Young People by Charles C. Mann tells the gripping story of globalization through travel, trade, colonization, and migration from its beginnings in the fifteenth century to the present. How did the lowly potato plant feed the poor across Europe and then cause the deaths of millions? How did the rubber plant enable industrialization? What is the connection between malaria, slavery, and the outcome of the American Revolution? How did the fabled silver mountain of sixteenth-century Bolivia fund economic development in the flood-prone plains of rural China and the wars of the Spanish Empire? Here is the story of how sometimes the greatest leaps also posed the greatest threats to human advancement. Mann's language is as plainspoken and clear as it is provocative, his research and erudition vast, his conclusions ones that will stimulate the critical thinking of young people. 1493 for Young People provides tools for wrestling with the most pressing issues of today, and will empower young people as they struggle with a changing world.
