Karen Chance

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Mighty Fitz Michael Schumacher,2008-12-01 The disappearance of the Edmund Fitzgerald remains one of the great unsolved mysteries in maritime history. Michael Schumacher relays in vivid detail the story of the Edmund Fitzgerald, its many productive years on the waters of the Great Lakes, its tragic demise, the search effort and investigation, as well as the speculation and the controversy that followed in the wake of the disaster. Michael Schumacher is the author of six books. He has written 25 documentaries on Great Lakes shipwrecks, including three about the Edmund Fitzgerald. In his ballad, Mr. Lightfoot sang about the Fitz's final tense moments, when the waves turn minutes to hours: Now the hours have lengthened into years and years into decades-but the allure of this doomed ship and its missing men remains as strong as ever.-Wall Street Journal

Performance Standards New Standards (Organization),1999
Embrace the Night Karen Chance,2008-04-01 View our feature on Karen Chance's Embrace the Night. Cassandra Palmer may be the world's chief clairvoyant, but she's still magically bound to a master vampire. Only an ancient book called the Codex Merlini possesses the incantation to free Cassie-but harnessing its limitless power could endanger the world... Read Karen Chance's posts on the Penguin Blog.

Practical Finite Element Analysis Nitin S. Gokhale,2008 Highlights of the book: Discussion about all the fields of Computer Aided Engineering, Finite Element Analysis Sharing of worldwide experience by more than 10 working professionals Emphasis on Practical usage and minimum mathematics Simple language, more than 1000 colour images International quality printing on specially imported paper Why this book has been written ... FEA is gaining popularity day by day & is a sought after dream career for mechanical engineers. Enthusiastic engineers and managers who want to refresh or update the knowledge on FEA are encountered with volume of published books. Often professionals realize that they are not in touch with theoretical concepts as being pre-requisite and find it too mathematical and Hi-Fi. Many a times these books just end up being decoration in their book shelves ... All the authors of this book are from IITs & IISc and after joining the industry realized gap between university education and the practical FEA. Over the years they learned it via interaction with experts from international community, sharing experience with each other and hard route of trial & error method. The basic aim of this book is to share the knowledge & practices used in the industry with experienced and in particular beginners so as to reduce the learning curve & avoid reinvention of the cycle. Emphasis is on simple language, practical usage, minimum mathematics & no pre-requisites. All basic concepts of engineering are included as & where it is required. It is hoped that this book would be helpful to beginners, experienced users, managers, group leaders and as additional reading material for university courses.

Haiti Ron Haviv,Simon Winchester,2010-06 A unique, arresting and versatile document of the traumatic earthquake which hit Haiti in 2010 and its aftermath. Encased in a cardboard box, the project comprises 16 unbound posters and a map page which draws attention to the epicentre and its rippling impact on the population of the island. The unique format allows the viewer to absorb each page individually or to hang the entire project. The visual testimony to the events of the the first days after the event are provided by award-winning photographer Ron Haviv and the essay by esteemed writer Simon Winchester.

One Peaceful World Michio Kushi,Alex Jack,2017-01-25 Originally published in 1987 by St. Martin's Press.
Let's Learn Japanese Picture Dictionary Marlene Goodman,2003-02-21 Created by leading educators, these colorful, large-size dictionaries introduce beginning language learners to more than 1,550 commonly taught basic words. Each Let's Learn Language Picture Dictionary in the series boasts 30 delightful two-page spreads that vividly illustrate the meanings of words. Fun-filled panoramas focus on scenes familiar to children aged three through eight, such as home life, the classroom, city life, sports, the zoo, and even outer space! Learners will love to revisit these detailed depictions of people, places, actions, and objects, each time improving their recall. Featured words are set off with individual illustrations and definitions to help learners at various levels build vocabulary. Includes an index and glossary of all the individually illustrated words. An ideal selection of first word books for parents and teachers who want to encourage second language acquisition.

A Holiday Roundelay ,2013-09 Joyous noels resound in this bright, festive holiday celebration from gifted composer Victor Johnson. Contrasting legato sections add to the musical interest and help to spell success in this excellent programming choice for young and developing choirs.

Bargain-CC ,
International Law Lori Fisler Damrosch,2001 Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion. Cases and Materials on International Law offers a treatment of the subject for introductory and advanced classes and detailed readings and reference materials for those who wish to pursue topics in depth. The fourth edition enriches every chapter with new information on institutions contributing to the sources and enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a chapter of its own, and the casebook gives expanded treatment to human rights, environmental law, and economic law.

Average Is Over Tyler Cowen,2013-09-12 Renowned economist and author of Big Business Tyler Cowen brings a groundbreaking analysis of capitalism, the job market, and the growing gap between the one percent and minimum wage workers in this follow-up to the New York Times bestseller The Great Stagnation. The United States continues to mint more millionaires and billionaires than any country ever. Yet, since the great recession, three quarters of the jobs created here pay only marginally more than minimum wage. Why is there growth only at the top and the bottom? Economist and bestselling author Tyler Cowen explains that high earners are taking ever more advantage of machine intelligence and achieving ever-better results. Meanwhile, nearly every business sector relies less and less on manual labor, and that means a steady, secure life somewhere in the middle—average—is over. In Average is Over, Cowen lays out how the new economy works and identifies what workers and entrepreneurs young and old must do to thrive in this radically new economic landscape.
