Advanced CAD Modeling Nikola Vukašinović, Jože Duhovnik, 2018-11-02 The book discusses the theoretical fundamentals of CAD graphics to enhance readers' understanding of surface modeling and free-form design by demonstrating how to use mathematical equations to define curves and surfaces in CAD modelers. Additionally, it explains and describes the main approaches to creating CAD models out of 3D scans of physical objects. All CAD approaches are demonstrated with guided examples and supported with comprehensive engineering explanations. Furthermore, each approach includes exercises for independent consolidation of advanced CAD skills. This book is intended for engineers and designers who are already familiar with the basics of modern CAD tools, e.g. feature based and solid based modeling in 3D space, and would like to improve and expand their knowledge and experience. It is also an easy-to-use guide and excellent teaching and research aid for academics and practitioners alike.

Passionflowers Ronald Boender, 2019-01-14
Pictorial Guide is a new and comprehensive

photographic atlas with nearly 1000 new color photographs illustrating most of the wild species of *Passiflora* known to science. Bursting with a wealth of images of exotic species taken in the wild as well as those that most gardeners are likely to encounter in the horticultural trade, this book showcases elegant blossoms of these fantastic tropical vines, shrubs, and trees and captures the imagination with spectacular colors, dramatic forms, and amazing variations. Comprehensive and scientifically accurate, this survey of the genus *Passiflora* is the first reference book on passionflowers published in more than 15 years and the only pictorial reference guide of its kind. The splendor of more than 280 wild passionflower species as they appear in nature, as well as 11 hybrids, represents the culmination of the author's 30-year fascination with this exotic genus and his more than 120 trips to Costa Rica and Ecuador observing and collecting the vines. Simple to use, the species are arranged alphabetically. The geographic range is given for every species, based on the latest verified identifications from world databases. At least one flower is shown for each entry, and very importantly, unlike other guides, a photograph of a leaf or often a fruit is shown. The author's special accumulated knowledge of which specific butterfly feeds on which kind of plant is shared through notes under the respective host plants. A colorful appendix to the coevolved *Heliconius* butterflies rounds out the volume. The author Ronald Boender is an expert on passionflower butterflies and a pioneer in breeding and

exhibiting butterflies. In 1988 he developed and opened the first commercial butterfly farm and public exhibition in the Americas, called Butterfly World, in Coconut Creek, near Fort Lauderdale, Florida. Quickly becoming a renowned expert on growing passionflowers, he developed the largest collection of species and has contributed much knowledge, not only to horticulture, but also the scientific understanding of the relationship between the vines and the butterflies. In 1990 he founded the Passiflora Society International (PSI), and until recent years was president and prime mover. Through his lifelong interest in nature photography, he started a collection of passionflower photos which has grown now into this pictorial atlas. Completed by renowned Passiflora authority, Ronald Boender, together with John MacDougal, Ph.D., and John Vanderplank, Ph.D. comprehensively highlights the breadth and beauty of the species occurring in the wild. Lavish contributions by 27 other photographers expand the photographic atlas to other climates, including cool-loving Andean species. Readers will delight in exploring page after page of amazing and intricate flowers and leaves of every color and form. This beautiful informational guide will be instructive and engaging to all readers -- gardeners, hobbyists, and scientists alike. This is a wonderful gift for any nature lover or gardener or anyone interested in tropical plants or nature photography.

Tools and Algorithms for the Construction and Analysis of Systems Armin Biere,David Parker,2020-04-17 This open access two-volume set constitutes the proceedings of the 26th International Conference on Tools and Algorithms for the Construction and Analysis of Systems,

TACAS 2020, which took place in Dublin, Ireland, in April 2020, and was held as Part of the European Joint Conferences on Theory and Practice of Software, ETAPS 2020. The total of 60 regular papers presented in these volumes was carefully reviewed and selected from 155 submissions. The papers are organized in topical sections as follows: Part I: Program verification; SAT and SMT; Timed and Dynamical Systems; Verifying Concurrent Systems; Probabilistic Systems; Model Checking and Reachability; and Timed and Probabilistic Systems. Part II: Bisimulation; Verification and Efficiency; Logic and Proof; Tools and Case Studies; Games and Automata; and SV-COMP 2020.

North American Rockwell T-2 Buckeye Steve Ginter, 1987-01-01 The photos in this edition are black and white. First published in 1987, the T-2 Buckeye book covers the development of this all-purpose jet trainer from the Navy's solicitation to industry in 1956 through its operations and squadron usage with the US Navy, Marines, Venezuela and Greece. It was originally built as a single engine jet, the T2J-1/T-2A, but had inadequate power. A second engine was added and it became the over-powered T-2B. It was a tremendously over-designed and robust aircraft, perfect for students and virtually impervious to excess Gs. Late in life it was used as a spin trainer for fleet Tomcat pilots. 137 photos and 33 illustrations.

The Boba Book Andrew Chau, Bin Chen, 2020-04-07 A beautifully photographed and designed cookbook and guide to the cultural phenomenon that is boba, or bubble tea--featuring recipes and reflections from The Boba Guys tea shops. Andrew Chau and Bin Chen realized in 2011 that boba--the milk teas and fruit juices laced with chewy tapioca balls from Taiwan that were exploding in popularity in the States--was still made from powders and mixes. No one in the U.S. was making boba with the careful attention it deserved, or using responsible, high-quality ingredients and global, artisanal inspiration. So they founded The Boba Guys: a chic, modern boba tea shop that has now grown to include fourteen locations across the country, bringing bubble tea to the forefront of modern drinks and bridging cultures along the way. Now, with *The Boba Book*, the Boba Guys will show fans and novices alike how they can make their (new) favorite drink at home through clear step-by-step guides. Here are the recipes that people line up for--from the classics like Hong Kong Milk Tea, to signatures like the Strawberry Matcha Latte and

the coffee-laced Dirty Horchata. For the Boba Guys, boba is Taiwanese, it's Japanese, it's Mexican, it's all that and more--which means it's all-American.
