Positive Lightning Laurie Salzler,2014-12-15 Kate Winter teaches dog owners how to train their canine companions. During her spare time, accompanied by her Lab, Dakota, she explores the woods and beaches on foot or horseback. She's worried that something's happening in her relationship, but she can't get her girlfriend Trish to talk to her about it. Faith Hutchins recently lost her sight after a terrible outdoor accident. She's dealt with her anger, depression, and blindness primarily on her own. A seeing-eye dog would help alleviate her reliance on anyone else, but the guide dog school has been unsuccessful in providing her with one. On a mission to find someone who will train a dog specifically for her, she ultimately zeroes in on Kate. They say lightning never strikes the same place twice. But positive lightning is notoriously unpredictable and can ignite a fire when and where least expected . . . no matter who's in its path.

All-in Fighting W. E. Fairbairn,2021-05-06 The author of this concise guide to unarmed combat and self-defence is a legend. W. E. Fairbairn (1885-1960) spent over thirty years in the tough environment of the Riot Squads of China's Shanghai Municipal Police. In order to lower levels of Police mortality at the hands of Chinese Tongs, he studied ancient Chinese and Japanese martial arts, including Ju-jitsu, and was the first foreigner to be awarded a black belt in the discipline. He developed his own system which he called 'Defendu'. At the outbreak of the Second World War, he was recruited by Britain's Special Operations Executive as an Instructor in unarmed combat and expounded the deadly mysteries of attack and defence to scores of trainee agents about to be dropped into occupied Europe. His methods were approved and officially adopted throughout the British army. Fairbairn also developed weapons and defence aids such as bullet proof vests. He is best known as the co-inventor of the famous Sykes-Fairbairn knife. In this book he expounds his distilled experience of unarmed combat. Fully illustrated, it shows how to deliver deadly blows with hand, fist, knee and boot; wrist, bear- and strangle holds (and how to break them); how to throw an enemy, and how to break their backs; how to disarm a pistol-wielding attacker; and securing a prisoner. The book also contains a chapter on the use of the rifle in close combat by Captain P. N. Walbridge.
