**Introduction to Gunpla & Gundam Models** Chak Tin Yu,Hobbypress Hobbypress,2020-05-15 Gundam is a metaseries of Japanese anime, created by Sunrise studios which got started in 1979 as a serial TV show called Mobile Suit Gundam. That first TV series has since spawned a franchise that has come to include models and toys in the world marketplace. Bandai is the primary licensee of the Gundam trademark that makes a variety of hobby products for the Gundam fan. Gundam Models are those plastic and non-plastic model kits depicting the mechas, vehicles and characters of the fictional Mobile Suit Gundam universe. These kits have become highly popular in many Asian countries since the early 80s. Through this book we'll talk about everything on the topic of Gundam modeling, from market intelligence to the many different facets of practical modeling know-how. So, are you ready to enter the world of Gundam Modeling?

**Gundam Capture** Noboru Kimura,2010-03 The novelization of the hit anime series! The year is 2307 A.D. Although fossil fuels have been depleted, humanity has obtained a new source of energy to replace them in the form of a large-scale solar power generation system based on three huge, orbital elevators. However, the benefits of this system are available only to a handful of major powers and their allies. These are the Union, led by the United States of America; the Human Reform League, led by China, Russia, and India; and the AEU, led by Europe. These superpower blocs continue to play a grand zero-sum game for the sake of their own prestige and prosperity. In this world of never-ending conflict, a private armed organization appears, dedicated to the elimination of war through armed force. Its name is Celestial Being, and it is in possession of Gundam mobile suits. With these Gundams, it begins armed intervention into all acts of war.
