That Neighbor Kid Daniel Miyares, 2017-05-09 Acclaimed author/illustrator Daniel Miyares returns to the sweet, nostalgic tone of his beloved illustrated book, *Float*, in this gorgeous, spare picture book about making a new friend. There's a new boy in the neighborhood, and he's up to something very curious. His next door neighbor, a girl his age with two long braids, peeps around corners and watches as he scavenges wood from the fence between their houses, drags around a hammer and a bucket of nails, and reads a book about living in trees. When she finally works up the courage to say "hi," she finds herself invited to help build the private getaway every child has dreamed of: a tree house. She also finds herself with a new best friend. Calling back to his critically-acclaimed work *Float*, Daniel Miyares wordlessly creates a beautiful story of friendship through his meaningful and warm illustrations that awaken imaginations of young readers.

Above the Rim Jen Bryant, 2020-10-06 The story of Elgin Baylor, basketball icon and civil rights advocate, from an all-star team Hall-of-famer Elgin Baylor was one of basketball's all-time-greatest players—an innovative athlete, team player, and quiet force for change. One of the first professional African-American players, he inspired others on and off the court. But when traveling for away games, many hotels and restaurants turned Elgin away because he was black. One night, Elgin had enough and staged a one-man protest that captured the attention of the press, the public, and the NBA. *Above the Rim* is a poetic, exquisitely illustrated telling of the life of an underrecognized athlete and a celebration of standing up for what is right.

Resilience of Informal Areas in Megacities – Magnitude, Challenges, and Policies Mohsen M. Aboulnaga, Mona F. Badran, Mai M. Barakat, 2021-12-16 This book focuses on the socio-economic and sustainability challenges facing megacities in dealing with the dramatic population increases of informal areas and settlements (or slums), especially when coupled with the impacts and risks of climate change. The authors examine informal urban areas globally and in developing countries utilizing strategic environmental assessment (SEA) as a tool to solve the sequence of upgrading steps concerning slums and shanty towns, and also establish essential guidelines for local governments and stakeholders to create a balance and quality of life for slums dwellers, particularly in the age of the COVID-19 pandemic, through applying sustainability indicators that enhance the upgrading process. Coverage includes recent statistics and mapping of informal areas worldwide and assessment of the GIZ and Sir Norman Foster models in terms of energy demands and consequential emission of CO₂ and air pollution from slums. Three models of Maspero's Triangle are also studied and assessed. The book is essential reading for a wide range of researchers,

students, policymakers, governments, and professionals as well as a good source for research centers and academicians working in energy, climate change, urban environments, and sustainable urban development.

Rectangle Time Pamela Paul,2021-02-16 Perfect for story time, New York Times Book Review editor Pamela Paul's funny and charming story about books, pets, and reading together will enchant readers of all ages. This spunky, self-assured cat has always loved Rectangle Time--when the boy and the man he lives with curl up with their rectangle and read aloud from it. The cat knows how helpful he is during Rectangle Time, of course--his presence is vital to the very ritual! But when the rectangle starts to get smaller, the stories start to get quieter, and worst of all, the boy no longer needs the cat's help, the cat must find a way to reclaim his part in Rectangle Time, even if slightly different from before. One day, Norman would grow up and use his knowledge of agriculture to save the lives of two billion people. Two billion! Norman changed the world! Or was it Henry Wallace who changed the world? Or maybe it was George Washington Carver? This engaging story reveals the incredible truth that everything we do matters! Based on *The Butterfly Effect*, Andy's timeless tale shows children that even the smallest of our actions can affect all of humanity. The book is beautifully illustrated and shares the stories of Nobel Laureate Norman Borlaug, Vice President Henry Wallace, Inventor George Washington Carver, and Farmer Moses Carver. The Book with No Pictures B. J. Novak, 2014-09-30 A #1 New York Times bestseller, this innovative and wildly funny read-aloud by award-winning humorist/actor B.J. Novak will turn any reader into a comedian—a perfect gift for any special occasion! You might think a book with no pictures seems boring and serious. Except . . . here's

how books work. Everything written on the page has to be said by the person reading it aloud. Even if the words say . . . BLORK. Or BLUURF. Even if the words are a preposterous song about eating ants for breakfast, or just a list of astonishingly goofy sounds like BLAGGITY BLAGGITY and GLIBBITY GLOBBITY. Cleverly irreverent and irresistibly silly, The Book with No Pictures is one that kids will beg to hear again and again. (And parents will be happy to oblige.)
