LIFE 50 Years of James Bond The Editors of LIFE Books,2012-10-02 Fifty years (and five billion dollars in ticket sales) ago, the dashing Scottish actor Sean Connery declared suavely that he was Bond, James Bond. Thus began a cinematic series unlike any other. In November 2012, Skyfall, the 23rd movie in what is seen as the authorized line of Bond films, will be released, with Daniel Craig (the sixth Bond) again in the lead role. The world will once more stream to the theaters for another dose of Bond. LIFE was on the scene in the swinging '60s when James Bond became a cultural icon (in fact, when we put the gold-painted actress Shirley Eaton on the cover in 1964, we helped him along), and now LIFE tells the whole story in this commemorative book. Ian Fleming, a high-ranking officer in British Naval Intelligence of World War II, dreamt up his MI6 spy, code number 007, in 1953, and a decade later, with Dr. No, From Russia With Love and then the smash Goldfinger, saw his creation take on a life entirely his own. All the fun of Bond is here: The movies; the reminiscences by the stars; the LIFE photo shoots; the knockoffs and spoofs (The Man from U.N.C.L.E.; Get Smart; I Spy; the first Casino Royale); the artifacts (a model of Bond's Aston Martin DB5 was one of the best-selling toy of 1965); the trivia and inside information on M, Q and Moneypenny-anything a Bond fan would want, packed into one book and then shaken, not stirred. James Bond was, back in the day, one of those cultural phenomena tailor-made for LIFE: It was bright and colorful and vibrant. Today, it still is. Happy birthday, and welcome back, Commander Bond.

**Java I/O** Elliotte Rusty Harold,2006-05-16 All of Java's Input/Output (I/O) facilities are based on streams, which provide simple ways to read and write data of different types. Java provides many different kinds of streams, each with its own application. The universe of streams is divided into four largecategories: input streams and output streams, for reading and writing binary data; and readers and writers, for reading and writing textual (character) data. You're almost certainly familiar with the basic kinds of streams--but did you know that there's a CipherInputStream for reading encrypted data? And a ZipOutputStream for automaticallycompressing data? Do you know how to use buffered streams effectively to make your I/O operations more efficient? Java I/O, 2nd Edition has been updated for Java 5.0 APIs and tells you all you ever need to know about streams--and probably more. A discussion of I/O wouldn't be complete without treatment of character sets and formatting. Java supports the Unicode standard, which provides definitions for the character sets of most written languages. Consequently, Java is the first programming language that lets you do I/O in virtually any language. Java also provides a sophisticated model for formatting textual and numeric data. Java I/O, 2nd Edition shows you how to control number formatting, use characters aside from the standard (but outdated) ASCII character set, and get a head start on writing truly multilingual software. Java I/O, 2nd Edition includes: Coverage of all I/O classes and related classes In-depth coverage of Java's number formatting facilities and its support for international character sets

He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. Bond, Beauties and Villains Terry O'Neill,2020-07 - Iconic portraits and contact sheets from Goldfinger, Diamonds are Forever, Live and Let Die, Golden Eye and the Bond spoof, Casino Royale- The new James Bond film, No Time to Die, releases world-wide in April 2020- Documented by one of the world's greatest photographers: Terry O'Neill- Contributions from actors including Honor Blackman, George Lazenby and Jane Seymour- Includes rare and unseen images- The perfect gift for fans of James BondTerry O'Neill was given his first chance to photograph Sean Connery as James Bond in the film Goldfinger. From that moment, O'Neill's association with Bond was made: an enduring legacy that has carried through to the era of Daniel Craig. It was O'Neill who captured gritty and roguish pictures of Connery on set, and it was O'Neill who framed the super-suave Roger Moore in Live and Let Die. His images of Honor Blackman as Pussy Galore are also important, celebrating the vital role of women in the James Bond world. But it is Terry O'Neill's casual, on-set photographs of a mischievous Connery walking around the casinos of Las Vegas or Roger Moore dancing on a bed with co-star Madeline

Smith that show the other side of the world's most recognizable spy. Terry O'Neill opens his archive to give readers - and viewers - the chance to enter the dazzling world of James Bond. Lavish color and black and white images are complemented by insights from O'Neill, alongside a series of original essays on the world of James Bond by BAFTA-longlisted film writer, James Clarke; and newly-conducted interviews with a number of actors featured in O'Neill's photographs.

**Fashioning James Bond** Llewella Chapman,2021-09-23 Fashioning James Bond is the first book to study the costumes and fashions of the James Bond movie franchise, from Sean Connery in 1962's Dr No to Daniel Craig in Spectre (2015). Llewella Chapman draws on original archival research, close analysis of the costumes and fashion brands featured in the Bond films, interviews with families of tailors and shirt-makers who assisted in creating the 'look' of James Bond, and considers marketing strategies for the films and tie-in merchandise that promoted the idea of an aspirational 'James Bond lifestyle'. Addressing each Bond film in turn, Chapman questions why costumes are an important tool for analysing and evaluating film, both in terms of the development of gender and identity in the James Bond film franchise in relation to character, and how it evokes the desire in audiences to become part of a specific lifestyle construct through the wearing of fashions as seen on screen. She researches the agency of the costume department, director, producer and actor in creating the look and characterisation of James Bond, the villains, the Bond girls and the henchmen who inhibit the world of 007. Alongside this, she analyses trends and their impact on the Bond films, how the different costume designers have individually and creatively approached costuming them, and how the costumes were designed and developed from novel to script and screen. In doing so, this book contributes to the emerging critical literature surrounding the combined areas of film, fashion, gender and James Bond.
