Antibiotics and Bacterial Resistance
Wiley, 2013-01-14 The need for novel antibiotics is greater now than perhaps anytime since the pre-antibiotic era. Indeed, the recent collapse of many pharmaceutical antibacterial groups, combined with the emergence of hypervirulent and pan-antibiotic-resistant bacteria has severely compromised infection treatment options and led to dramatic increases in the incidence and severity of bacterial infections. This collection of reviews and laboratory protocols gives the reader an introduction to the causes of antibiotic resistance, the bacterial strains that pose the largest danger to humans (i.e., streptococci, pneumococci and enterococci) and the antimicrobial agents used to combat infections with these organisms. Some new avenues that are being investigated for antibiotic development are also discussed. Such developments include the discovery of agents that inhibit bacterial RNA degradation, the bacterial ribosome, and structure-based approaches to antibiotic drug discovery. Two laboratory protocols are provided to illustrate different strategies for discovering new antibiotics. One is a bacterial growth inhibition assay to identify inhibitors of bacterial growth that specifically target conditionally essential enzymes in the pathway of interest. The other protocol is used to identify inhibitors of bacterial cell-to-cell signaling. This e-book – a

curated collection from eLS, WIREs, and Current Protocols – offers a fantastic introduction to the field of antibiotics and antibiotic resistance for students or interdisciplinary collaborators. Destiny is irrefutable. And Syra, Morei, and Cyrus all have something in common: death. The Demon Killer, once responsible for the Diyrällian Massacre, has been found after being lost for centuries. Millions of lives fell victim to this treacherous relic . . . and now Syra holds it. Torn from the sanctuary of her home, she must learn to live on the run in search for freedom, hunted by forces known and unknown. Fate can be cruel, and Morei Geral knows this firsthand. As the king and sole heir to his bloodline, Morei must hide the twisted truth of who he is becoming. But as the king slips further into his curse, war becomes inevitable, and he will have to make a choice that could undo everything he's worked for. Meanwhile, as chaos rages and fear grips the heart of all, attention is turned on the first Dragon Rider to rise in nearly eight centuries. Cyrus wants nothing to do with prophecies and war. But he will protect his dragon, Sozar, above all else. His only choice is to cast aside the life he once knew and traverse the mysterious Releuthian Mountains, said to be the home of the God of Darkness himself. Everyone has a destiny. Newton's Wake Ken MacLeod,2007-04-01 With visionary epics like *The Stone Canal*, *The Cassini Division*, and *Cosmonaut Keep*, award-winning Scottish author Ken MacLeod has led a revolution in contemporary science fiction, blending cutting edge science and razor-sharp political insights with pure, over-the-top interstellar adventure. Now MacLeod takes this heady mix to a new level with a stunning new SF masterwork--*Newton's Wake*. In the aftermath of the *Hard Rapture*--a cataclysmic war sparked by the explosive evolution of Earth's artificial intelligences into godlike beings--a few remnants of humanity managed to survive. Some even prospered. Lucinda Carlyle, head of an ambitious clan of galactic entrepreneurs, had carved out a profitable niche for herself and her kin by taking control of the Skein, a chain of interplanetary star-gates left behind by the posthumans. But on a world called Eurydice, a remote planet at the farthest rim of the galaxy, Lucinda stumbled upon a forgotten relic of the past that could threaten her way of life. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Canada Mike Myers,2018-10-30 Comedy superstar Mike Myers writes from the (true patriot) heart

about his relationship with his beloved Canada. Mike Myers is a world-renowned actor, director and writer, and the man behind some of the most memorable comic characters of our time. But as he says: no description of me is truly complete without saying I'm a Canadian. He has often winked and nodded to Canada in his outrageously accomplished body of work, but now he turns the spotlight full-beam on his homeland. His hilarious and heartfelt new book is part memoir, part history and pure entertainment. It is Mike Myers' funny and thoughtful analysis of what makes Canada Canada, Canadians Canadians and what being Canadian has always meant to him. His relationship with his home and native land continues to deepen and grow, he says. In fact, American friends have actually accused him of enjoying being Canadian--and he's happy to plead guilty as charged. A true patriot who happens to be an expatriate, Myers is in a unique position to explore Canada from within and without. With this, his first book, Mike brings his love for Canada to the fore at a time when the country is once again looking ahead with hope and national pride. Canada is a wholly subjective account of Mike's Canadian experience. Mike writes, Some might say, 'Why didn't you include this or that?' I say there are 35 million stories waiting to be told in this country, and my book is only one of them. This beautifully designed book is illustrated in colour (and not color) throughout, and its visual treasures include personal photographs and Canadiana from the author's own collection.

The Fifth Elephant Terry Pratchett, 2014-04-29
Everyone knows that the world is flat and supported on the backs of four elephants. But weren't there supposed to be five? Indeed there were. So where is it? When duty calls, Commander Vimes of the Ankh-Morpork constabulary answers—even if he doesn't want to. Now, he's been invited to attend a royal function as both detective and diplomat. The one role he relishes; the other requires, well, ruby tights. Of course, where cops (even those clad in tights) go, alas, crime follows. An attempted assassination and a theft soon lead to a desperate chase from the low halls of Discworld royalty to the legendary fat mines of Uberwald, where lard is found in underground seams along with tusks and teeth and other precious ivory artifacts. It's up to the

dauntless Vimes—bothered as usual by a familiar cast of Discworld inhabitants (you know, trolls, dwarfs, werewolves, vampires, and such)—to solve the puzzle of the missing pachyderm. Which, of course, he will . . . after all, solving mysteries is his job.
