Ford M8 and M20 David Doyle,2021-04-28 Developed to provide the US military with a fast-moving reconnaissance vehicle sufficiently armed to knock out WWII-era armored vehicles. The M8 Armored Car and its sibling, the M20 Armored Utility Vehicles, were the most widely used armored vehicles built by Ford. These vehicles saw use with the US Army as well as Allied nations during WWII and well into the 1960s. This book chronicles the development and use of the vehicle from concept to combat. Through dozens of archival photos, many never before published, as well as detailed photographs of some of the finest existent examples of these vehicles, this iconic tank is explored, and its history is explained.
