IMPORTANT: watercolor and marker pages have black-backed pages to minimize bleed-through. The paper in this book (depending on where it was printed) is fairly tough, but obviously thinner than watercolor paper. Colors can look splotchy until completely dry. We recommend using a sheet of card stock or plastic to help protect the pages underneath from colors bleeding through as well as potential rub-through of pencil pigments while swatching. You can make PERSONAL COPIES of the charts you plan to use onto your favorite paper or card stock if the paper in this book feels too thin for your needs, or, if you just want to put those pages of the charts you are using into a ring binder for safe keeping. You can also deconstruct this book for ease of use, so feel free to take it apart, keep the pages you are using in one binder, and store the rest in case you need them later. Many office supply stores (and FedEx service centers) will remove the spine and even spiral-bind or punch holes in the book for you for a small fee. If you choose to do it yourself, I have a step-by-step tutorial using another book (Creative Companion Book Binding DIY) on my blog at rubycharmcolors.com. Or keep it as is--the choice is yours! It is meant to be a book that grows along with you and your artistic needs! Happy color swatching!
