Serpentine Mark Laita,2013-02-26 Photographer Mark Laita unveils a pantheon of spectacular snakes in this electrifying collection. Inciting both allure and alarm, shining pastel pythons and vibrant green vipers slither across the pages. An illuminating essay by William T. Vollmann accompanies the images, delving into the associations with snakes that haunt our collective imagination. From the iridescent blue Malaysian coral snake to the candy-cane-striped albino Honduran milk snake, the aptly named beautiful pit viper, and the gleaming black mamba, the world's most dangerous and gorgeous snakes are pictured in *Serpentine*, showing off their fascinating colors and textures--as well as the sensual forms their movement creates. Through Laita's lens, there is nothing they can do, no position they can take, that fails to be anything but mesmerizing.

Creative Confluence Johan F. Hoorn,2014-05-15 Creative Confluence is a highly original work, building bridges between physics, biology, technology, economy, organizations, neuropsychology, literature, arts, and cultural history. It is an attempt to explain the process of creativity as a universal principle of nature, cutting through the composition of atoms as well as human design of novel combinations. Creative Confluence is yet another impressive book and a sequel to *Epistemics of the Virtual*, indicating that perception and imagination operate in close contact. In a clear and light tone, the work holds that rational problem-solving strategies are most relevant in deterministic problem spaces whereas creativity is pertinent in more probabilistic situations. Theories of creativity and innovation are explored by means of computer simulations. Conditionals that favor creativity such as diversity, tolerance, and openness are discussed, forwarding a compelling vision of creative leadership.

Duckworth, the Difficult Child Michael Sussman,2019-06-18 Duckworth's parents think he is a difficult child, so when a snake slides right up and swallows him whole, his parents don't believe him! What's poor Duckworth to do? Duckworth is a difficult child. At least that's what his parents think. So when Duckworth tries to explain that a gigantic snake slithered out of his closet, his parents insist it's all in his head—he is far too old to be imagining such nonsense. (And will he please do his chores?) But even when the cobra slides right up and swallows Duckworth whole, his parents remain unconvinced! (Where did he find that snake costume, and will he please put it away?) What's poor Duckworth to do when his parents just won't listen? With nods to the deliciously dark humor of Edward Gorey, Florence Parry Heide, and Jon Klassen, Michael Sussman and Júlia Sardà empathize with children everywhere who must find ways to deal with their difficult parents.

Shelby and AC Cobra Brian Laban,2015-08-31 In the new edition of this classic text, Brian Laban brings the story of the AC Cobra up to date. In the early 1960s, a flamboyant Texan, Carroll Shelby, dreamed of a special kind of sports car, a marriage of European style with lusty, affordable American V8 power. He took his dream forward and he persuaded British sports car specialist AC Cars to build his car, and US industry giant the Ford Motor Co to fund it. Its name also came to him in a dream - Cobra. The original production of the Cobra lasted just five years and encompassed barely a thousand cars built within the original framework. But it was only the beginning of a story that is still very much alive, encompassing 'continuations', spin-offs, and a massive worldwide replica industry. Shelby and AC Cobra details the man behind the cars, the story of their development and engineering, racing pedigree and owning and driving these powerful, iconic cars today. Fully illustrated with 250 archive colour photographs.

Shelby Cobra Fifty Years Colin Comer,

The Book of Snakes Mark O'Shea,2024-01-02 Updated to reflect the most recent species classifications, a second edition of the beautifully illustrated and beloved guide to 600 members of the suborder Serpentes. For millennia, humans have regarded snakes with an exceptional combination of fascination and revulsion. Some people recoil in fear at the very suggestion of these creatures, while others happily keep them as pets. Snakes can convey both beauty and menace in a single tongue flick, and so these creatures have held a special place in our cultures. Yet, for as many meanings as we attribute to snakes—from fertility and birth to sin and death—the real-life species represent an even wider array of wonders. Now in a new edition, reflecting the most recent species classifications, *The Book of Snakes* presents 600 species of snakes from around the world, covering roughly one in seven of all snake species. It will bring greater understanding of a group of reptiles that have existed for more than 160 million years and that now inhabit every continent except Antarctica, as well as two of the great oceans. This volume pairs spectacular photos with easy-to-digest text. It is the first book on these creatures that combines a broad, worldwide sample with full-color, life-size accounts. Entries include close-ups of the snake's head and a section of the snake at actual size. The detailed images allow readers to examine the intricate scale patterns and rainbow of colors as well as special features like a cobra's hood or a rattlesnake's rattle. The text is written for laypeople and includes a glossary of frequently used terms. Herpetologists and herpetoculturists alike will delight in this collection, and even those with a more cautious stance on snakes will find themselves drawn in by the wild diversity of the suborder Serpentes.

The Photo Ark Joel Sartore,2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

Cobra II Michael R. Gordon,Bernard E. Trainor,2006-03-14 Written by the chief military correspondent of the New York Times and a prominent retired Marine general, this is the definitive account of the invasion of Iraq. A stunning work of investigative journalism, *Cobra II* describes in riveting detail how the American rush to Baghdad provided the opportunity for the virulent insurgency that followed. As Gordon and Trainor show, the brutal aftermath was not inevitable and was a surprise to the generals on both sides. Based on access to unseen documents

and exclusive interviews with the men and women at the heart of the war, *Cobra II* provides firsthand accounts of the fighting on the ground and the high-level planning behind the scenes. Now with a new afterword that addresses what transpired after the fateful events of the summer of 2003, this is a peerless re-creation and analysis of the central event of our times.

King Cobras Davy Sweazey, 2014 Engaging images accompany information about king cobras. The combination of high-interest subject matter and light text is intended for students in grades 2 through 7--

The Cobra Event Richard Preston, 2007-04-10 The *Cobra Event* is set in motion one spring morning in New York City, when a seventeen-year-old student wakes up feeling vaguely ill. Hours later she is having violent seizures, blood is pouring out of her nose, and she has begun a hideous process of self-cannibalization. Soon, other gruesome deaths of a similar nature have been discovered, and the Centers for Disease Control sends a forensic pathologist to investigate. What she finds precipitates a federal crisis. The details of this story are fictional, but they are based on a scrupulously thorough inquiry into the history of biological weapons and their use by civilian and military terrorists. Richard Preston's sources include members of the FBI and the United States military, public health officials, intelligence officers in foreign governments, and scientists who have been involved in the testing of strategic bioweapons. The accounts of what they have seen and what they expect to happen are chilling. The *Cobra Event* is a dramatic, heart-stopping account of a very real threat, told with the skill and authority that made Preston's *The Hot Zone* an internationally acclaimed bestseller.

The Cobrasnake Mark Hunter, 2022-06-07 A love letter to a time before Instagram and the legendary party scenes of the 2000s that brought together the new millennium's rising stars of pop culture. Under the moniker the Cobrasnake, the photographer Mark Hunter captured the party scenes of Los Angeles and New York during the hipster-glam heyday of the 2000s-and in doing so defined the look of a generation. Armed with just a Polaroid and a primitive website, Cobrasnake captured pioneers of youth culture from Kanye West and Steve Aoki to Jeremy Scott, Katy Perry, and Virgil Abloh-icons of the indie pop world in the making. Intimately connected with the people around him and keyed-in to the edgier fringes of the fashion, music, and art worlds, Hunter photographed influencers before they were influencers, in the wild and at play from the streets of LA to NYC and beyond. Collected here for the first time are more than three hundred of Cobrasnake's favorite images alongside ephemera, from concert tickets and backstage passes to outtakes and unseen photographs from his many adventures. These photographs are records of the last generation of partiers to predate the livestreaming of culture afforded by today's social media-capturing the energy and vibrancy of a time before Instagram.
