Mr. Burns and Other Plays Anne Elizabeth Washburn,2017 A downright brilliant (The New York Times) comedy by one of American theater's most original new voices.

Mr. Emerson's Revolution Jean McClure Mudge,2015-09-11 This volume traces the life, thought and work of Ralph Waldo Emerson, a giant of American intellectual history,

whose transforming ideas greatly strengthened the two leading reform issues of his day: abolition and women's rights. A broad and deep, yet cautious revolutionary, he spoke about a spectrum of inner and outer realities—personal, philosophical, theological and cultural—all of which gave his mid-career turn to political and social issues their immediate and lasting power. This multi-authored study frankly explores Emerson's private prejudices against blacks and women while he also publicly championed their causes. Such a juxtaposition freshly charts the evolution of Emerson's slow but steady application of his early neo-idealism to emancipating blacks and freeing women from social bondage. His shift from philosopher to active reformer had lasting effects not only in America but also abroad. In the U.S. Emerson influenced such diverse figures as Thoreau, Whitman, Dickinson and William James, and in Europe Mickiewicz, Wilde, Kipling, Nietzsche, and Camus, as well as many leading followers in India and Japan. The book includes over 170 illustrations, among them eight custom-made maps of Emerson's haunts and wide-ranging lecture itineraries as well as a new four-part chronology of his life placed alongside both national and international events as well as major inventions. Mr. Emerson's Revolution provides essential reading for students and teachers of American intellectual history, the abolitionist and women's rights movement—and for anyone interested in the nineteenth-century roots of these seismic social changes.

Country Music Dayton Duncan, Ken Burns, 2019-09-10 The rich and colorful story of America's most popular music and the singers and songwriters who captivated, entertained, and consoled listeners throughout the twentieth century--based on the upcoming eight-part film series to air on PBS in September 2019 This gorgeously

illustrated and hugely entertaining history begins where country music itself emerged: the American South, where people sang to themselves and to their families at home and in church, and where they danced to fiddle tunes on Saturday nights. With the birth of radio in the 1920s, the songs moved from small towns, mountain hollers, and the wide-open West to become the music of an entire nation--a diverse range of sounds and styles from honky tonk to gospel to bluegrass to rockabilly, leading up through the decades to the music's massive commercial success today. But above all, Country Music is the story of the musicians. Here is Hank Williams's tragic honky tonk life, Dolly Parton rising to fame from a dirt-poor childhood, and Loretta Lynn turning her experiences into songs that spoke to women everywhere. Here too are interviews with the genre's biggest stars, including the likes of Merle Haggard to Garth Brooks to Rosanne Cash. Rife with rare photographs and endlessly fascinating anecdotes, the stories in this sweeping yet intimate history will captivate longtime country fans and introduce new listeners to an extraordinary body of music that lies at the very center of the American experience.

Barr, David Seidman, Sergio Aragonés, 2017 Bart starts his own humor magazine and it isn't long before Springfield's resident funnyman Krusty the Clown wants in on the business. Then, donut-lovers Homer Simpson and Chief Clancy Wiggum take over each other's deliciously do-nothing jobs. And speaking of switcheroos, Bart boards the wrong airplane and finds himself mistaken for a local Springshire lad, Brit Simpson. Throw in an alien abduction, a cosmic trip to an alternate reality, a contentious bar war, a ghostly superhero pairing, and a rescue mission beneath the nuclear power plant, and you have the most colossal compendium yet. And make that dream of a personal home theater a reality with your own scale model of Springfield's classic movie house, the Aztec Theater--Page 4 of cover.

Montgomery Clift Patricia Bosworth, 2012-06-05 "The definitive work on the gifted, haunted actor" (Los Angeles Times) and "the best film star biography in years" (Newsweek). From the moment he leapt to stardom with the films *Red River* and *A Place in the Sun*, Montgomery Clift was acclaimed by critics and loved by fans. Elegant, moody, and strikingly handsome, he became one of the most definitive actors of the 1950s, the first of Hollywood's "loner heroes," a group that includes Marlon Brando and James Dean. In this affecting biography, Patricia Bosworth explores the complex inner life and desires of the renowned actor. She traces a poignant trajectory: Clift's childhood was dominated by a controlling, class-obsessed mother who never left him alone. He developed passionate friendships with Marilyn Monroe and Elizabeth Taylor in spite of his closeted homosexuality. Then his face was destroyed after a traumatic car crash outside Taylor's house. He continued to make films, but the loss of his beauty and subsequent addictions

finally brought the curtain down on his career. Stunning and heartrending, Montgomery Clift is a remarkable tribute to one of Hollywood's most gifted—and tormented—actors.

If I Ran the Zoo Dr. Seuss, 2013-10-22 Animals abound in Dr. Seuss's Caldecott Honor-winning picture book *If I Ran the Zoo*. Gerald McGrew imagines the myriad of animals he'd have in his very own zoo, and the adventures he'll have to go on in order to gather them all. Featuring everything from a lion with ten feet to a Fizza-ma-Wizza-ma-Dill, this is a classic Seussian crowd-pleaser. In fact, one of Gerald's creatures has even become a part of the language: the Nerd!

The Curve of Binding Energy John McPhee, 2011-04-01 Theodore Taylor was one of the most brilliant engineers of the nuclear age, but in his later years he became concerned with the possibility of an individual being able to construct a weapon of mass destruction

on their own. McPhee tours American nuclear institutions with Taylor and shows us how close we are to terrorist attacks employing homemade nuclear weaponry.
