**Conceptualism in Latin American Art** Luis Camnitzer,2007-07-01 Conceptualism played a different role in Latin American art during the 1960s and 1970s than in Europe and the United States, where conceptualist artists predominantly sought to challenge the primacy of the art object and art institutions, as well as the commercialization of art. Latin American artists turned to conceptualism as a vehicle for radically questioning the very nature of art itself, as well as art's role in responding to societal needs and crises in conjunction with politics, poetry, and pedagogy. Because of this distinctive agenda, Latin American conceptualism must be viewed and understood in its own right, not as a derivative of Euroamerican models. In this book, one of Latin America's foremost conceptualist artists, Luis Camnitzer, offers a firsthand account of conceptualism in Latin American art. Placing the evolution of conceptualism within the history Latin America, he explores conceptualism as a strategy, rather than a style, in Latin American culture. He shows how the roots of conceptualism reach back to the early nineteenth century in the work of Simón Rodríguez, Simón Bolívar's tutor. Camnitzer then follows conceptualism to the point where art crossed into politics, as with the Argentinian group Tucumán arde in 1968, and where politics crossed into art, as with the Tupamaro movement in Uruguay during the 1960s and early 1970s. Camnitzer concludes by investigating how, after 1970, conceptualist manifestations returned to the fold of more conventional art and describes some of the consequences that followed when art evolved from being a political tool to become what is known as political art.

**Ultimate Punishment** Scott Turow,2010-08-24 America's leading writer about the law takes a close, incisive look at one of society's most vexing legal issues Scott Turow is known to millions as the author of peerless novels about the troubling regions of experience where law and reality intersect. In real life, as a respected criminal lawyer, he has been involved with the death penalty for more than a decade, including successfully representing two different men convicted in death-penalty prosecutions. In this vivid account of how his views on the death penalty have evolved, Turow describes his own experiences with capital punishment from his days as an impassioned young prosecutor to his recent service on the Illinois commission which investigated the administration of the death penalty and influenced Governor George Ryan's unprecedented commutation of the sentences of 164 death row inmates on his last day in office. Along the way, he provides a brief history of America's ambivalent relationship with the ultimate punishment, analyzes the potent reasons for and against it, including the role of the victims' survivors, and tells the powerful stories behind the statistics, as he moves from the Governor's Mansion to Illinois' state-of-the art 'super-max' prison and the execution chamber. Ultimate Punishment, this gripping, clear-sighted, necessary examination of the principles, the personalities, and the politics of a fundamental dilemma of our democracy has all the drama and intellectual substance of Turow's celebrated fiction.

**Mystery in Acambaro** Charles H. Hapgood,1999-12 The Acambaro collection comprises hundreds of clay figurines that are apparently thousands of years old; however, they depict such bizarre animals and scenes that most archaeologists dismiss them as an elaborate hoax. The collection shows humans interacting with dinosaurs and various other 'monsters' such as horned men. Both Hapgood and Earl Stanley Gardner were convinced that the figurines from Acambaro were authentic ancient artifacts that indicated that men and dinosaurs had cohabited together in the recent past, and that dinosaurs had not become extinct many millions of years ago as commonly thought. David Hatcher Childress writes a lengthy introduction concerning Acambaro, the latest testing, and other evidence of 'living' dinosaurs.

**War and Peace** Jacques Berchtold,Nicolas Ducimetiere,2019-10-14 - Published on the occasion of the 100th anniversary of the creation of the League of Nations in 1919 - With a preface by Antonio Guterres, Secretary General of the United Nations - Accompanies an exhibition at the Fondation Martin Bodmer, Geneva, in partnership with the United Nations Organization in Geneva and the Red Cross, from 5 October, 2019, to 16 February, 2020 Mankind has never ceased to think about, justify, prepare for, conduct and glorify war. Alongside this, there has always been a parallel endeavor to limit war's worst abuses, condemn it for its ravages, and imagine and work towards building a more just and peaceful world. The Martin Bodmer Foundation, a Swiss institution in UNESCO's 'Memory of the World' register, in partnership with the Red Cross and the United Nations Organization, is staging a show devoted to the contemporary realities of war and peace. The exhibition invites the public to reflect on how we think about war, and how peace can be built. Under the direction of Pierre Hazan - a former war reporter and diplomatic correspondent, now an advisor in the mediation of armed conflicts - the exhibition and its catalogue are structured in three parts: the rise of conflict, war and the law, and the construction of peace. War & Peace brings together insights from literature, fine arts, anthropology, philosophy, psychoanalysis, law, and politics. Literary works, propaganda posters, photography, paintings, engravings, and archival documents illuminate the dialogue between humankind's warlike nature and the desire for peace.

**Fossil Legends of the First Americans** Adrienne Mayor,2013-10-24 The burnt-red badlands of Montana's Hell Creek are a vast graveyard of the Cretaceous dinosaurs that lived 68 million years ago. Those hills were, much later, also home to the Sioux, the Crows, and the Blackfeet, the first people to encounter the dinosaur fossils exposed by the elements. What did Native Americans make of these stone skeletons, and how did they explain the teeth and claws of gargantuan animals no one had seen alive? Did they speculate about their deaths? Did they collect fossils? Beginning in the East, with its Ice Age monsters, and ending in the West, where dinosaurs lived and died, this richly illustrated and elegantly written book examines the discoveries of enormous bones and uses of fossils for medicine, hunting magic, and spells. Well before Columbus, Native Americans observed the mysterious petrified remains of extinct creatures and sought to understand their transformation to stone. In perceptive creation stories, they visualized the remains of extinct mammoths, dinosaurs, pterosaurs, and marine creatures as Monster Bears, Giant Lizards, Thunder Birds, and Water Monsters. Their insights, some so sophisticated that they anticipate modern scientific theories, were passed down in oral histories over many centuries. Drawing on historical sources, archaeology, traditional accounts, and extensive personal interviews, Adrienne Mayor takes us from Aztec and Inca fossil tales to the traditions of the Iroquois, Navajos, Apaches, Cheyennes, and Pawnees. Fossil Legends of the First Americans represents a major step forward in our understanding of how humans made sense of fossils before evolutionary theory developed.

**Mr. Ken Fulk's Magical World** Ken Fulk,2016-10-18 Working out of The Magic Factory, a 15,000- square-foot think tank in San Francisco, Ken Fulk specializes in interior design, special events, and architecture. Whether he is creating fantastic homes, throwing the opening party of a museum show, or planning large-scale events (like the famous wedding of Facebook's Sean Parker in a redwood forest), Fulk's work is always remarkable and stylish and sometimes over the top. Featuring more than 200 color photos with accompanying narration by the designer, Mr. Ken Fulk's Magical World showcases the best of his luxurious environments over the past decade: gorgeous dwellings he has designed for notable clientele; his own three homes; stunning examples of his party and event designs; and even a private jet.

**Lost Cities of North & Central America** David Hatcher Childress,1992 Search for lost Mayan cities and books of gold, discover an ancient canal system in Arizona, climb gigantic pyramids in the Midwest, explore megalithic monuments in New England, and join the astonishing quest for the lost cities throughout North [and Central] America--Amazon.com.

**Reversible Errors** Scott Turow,2002-11-01 A super-charged, exquisitely suspenseful novel about a vicious triple murder and the man condemned to die for it Rommy Squirrel Gandolph is a Yellow Man, an inmate on death row for a 1991 triple murder in Kindle County. His slow progress toward certain execution is nearing completion when Arthur Raven, a corporate lawyer who is Rommy's reluctant court-appointed representative, receives word that another inmate may have new evidence that will exonerate Gandolph. Arthur's opponent in the case is Muriel Wynn, Kindle County's formidable chief deputy prosecuting attorney, who is considering a run for her boss's job. Muriel and Larry Starczek, the original detective on the case, don't want to see Rommy escape a fate they long ago determined he deserved, for a host of reasons. Further complicating the situation is the fact that

Gillian Sullivan, the judge who originally found Rommy guilty, is only recently out of prison herself, having served time for taking bribes. Scott Turow's Reversible Errors compelling, multi-dimensional characters take the reader into Kindle County's parallel yet intersecting worlds of police and small-time crooks, airline executives and sophisticated scammers--and lawyers of all stripes. No other writer offers such a convincing true-to-life picture of how the law and life interact, or such a profound understanding of what is at stake--personally, professionally, and morally--when the state holds the power to end a man's life.

*Demented Architecture* Adam Lister,2015 An exhibition that brings together work by contemporary artists that satirises the relationship between art and architecture, and the mythology of the architect.

*Spielraum* Una Popovic,2018-08-07 Spielraum' is a publication about Jasmina Cibic?s latest work, developed with the Ludwig Museum, Budapest; the International Centre of Graphic Arts, Ljubljana; and the Museum of Contemporary Art, Belgrade. Cibic is known for her investigation of how art and architecture are utilised as soft power strategies in the enterprise of nation building. Her works often gather and restage found materials that are in some way infused by the spectre of political ideology but that have, over time, changed in their performative function as enforcers of State identity. The title of the project is drawn from an essay by Karl Kraus, in which he vehemently opposes the use of decoration in both language and architecture. In this multidisciplinary work, Cibic takes Kraus?s concept of 'Spielraum' as a lens through which to examine strategies of nation building via the use of linguistic and visual decoration by political figures and establishments, with particular focus on the first summit of the Non-Aligned Movement in Belgrade (1961).

**Authority and Freedom** Jed Perl,2022-01-11 From one of our most widely admired art critics comes a bold and timely manifesto reaffirming the independence of all the arts—musical, literary, and visual—and their unique and unparalleled power to excite, disturb, and inspire us. As people look to the arts to promote a particular ideology, whether radical, liberal, or conservative, Jed Perl argues that the arts have their own laws and logic, which transcend the controversies of any one moment. “Art’s relevance,” he writes, “has everything to do with what many regard as its irrelevance.” Authority and Freedom will find readers from college classrooms to foundation board meetings—wherever the arts are confronting social, political, and economic ferment and heated debates about political correctness and cancel culture. Perl embraces the work of creative spirits as varied as Mozart, Michelangelo, Jane Austen, Henry James, Picasso, and Aretha Franklin. He contends that the essence of the arts is their ability to free us from fixed definitions and categories. Art is inherently uncategorizable—that’s the key to its importance. Taking his stand with artists and thinkers ranging from W. H. Auden to Hannah Arendt, Perl defends works of art as adventuresome dialogues, simultaneously dispassionate and impassioned. He describes the fundamental sense of vocation—the engagement with the tools and traditions of a medium—that gives artists their purpose and focus. Whether we’re experiencing a poem, a painting, or an opera, it’s the interplay between authority and freedom—what Perl calls “the lifeblood of the arts”—that fuels the imaginative experience. This book will be essential reading for everybody who cares about the future of the arts in a democratic society.
