The Lost Era: Serpents Among The Ruins David R. George III, 2012-09-04 The mysterious Tomed Incident of 2311 was the Federation's definitive confrontation with the Romulan Empire. Now fans can learn the truth behind the intrigue, heroism, and tremendous personal sacrifice surrounding this pivotal event -- including the untold story of the Enterprise NCC-1701-B. In the midst of escalating political tensions among the Klingons, the Romulans, and the Federation, Starfleet goes forward with the inaugural flight of Universe, a prototype star ship that promises to revolutionise space exploration. But the Universe experiment results in disaster, ravaging a region of space dangerously close to the Romulan Star Empire, apparently confirming suspicions that the Federation has begun testing a weapon of mass destruction. As the military build-up accelerates on both sides of the Neutral Zone, Captain John Harriman of the USS Enterprise, NCC-1701-B, is fated for a final confrontation with his oldest enemy at a flashpoint in history -- with the Beta Quadrant one wrong move from the outbreak of total war.

Tales from the Captain's Table Tony Harris, 2007-03-01 Much more than just a tale of sailing against mountainous seas, but a book with every aspect of sailing and motor boating, in many parts of the world. It illustrates how times have changed to the extent the stories are never to be repeated. Providing a more permanent record, it

tells how in post-war Britain, we developed a system of teaching and testing recreational users of marine craft of every description. This has now been copied in almost every country with recreational waterborne sports, including a UK approved sailing school in the USA. If all that sounds a mighty bit boring, be assured it has ten most unusual stories with excitement, including projects in China and Nigeria. There are tales of law-breaking villains afloat, and you won't want to put the book down. Looking for a present for a sea-loving friend? Look no further.

Divided into six acts (just like every episode of The Orville), with the show as its backdrop, the book asks questions about the dangers of democracy and social media,

the show's relationship to Star Trek and the puzzle of time travel.

Typeset in the Future Dave Addey, 2018-12-11 A designer's deep dive into seven science fiction films, filled with "gloriously esoteric nerdery [and] observations as witty as they are keen" (Wired). In Typeset in the Future, blogger and

designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into 2001: A Space Odyssey, Star Trek: The Motion Picture, Alien, Blade Runner, Total Recall, WALL·E, and Moon, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (Star Trek), Paul Verhoeven (Total Recall), and Ralph Eggleston and Craig Foster (Pixar). Typeset in the Future is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

**Titan #1: Taking Wing** Michael A. Martin, Andy Mangels, 2005-04-01 William Riker, former first officer of the USS Enterprise in Star Trek: The Next Generation, takes command of the new USS Titan in this white-knuckled adventure perfect for longtime and new Star Trek fans. After almost a decade of strife against foes such as the Borg, the Cardassians, the Klingons, and the Dominion, the United Federation of Planets is at the dawn of a new era. Starfleet is renewing its mission of peaceful exploration, diplomacy, and the expansion of knowledge. Among the starships spearheading that endeavor is the USS Titan, commanded by Captain William T. Riker and manned by the most biologically varied and culturally diverse crew in Starfleet history. But their mission does not begin according to plan. In the wake of Star Trek:

Nemesis, Praetor Shinzon, slayer of the Romulan Senate, is dead. The power vacuum created by his demise has put the Romulan Star Empire, longtime adversary of the Federation, at the brink of civil war. Competing factions now vie for control of their fragmenting civilization, and if the empire should fall, that entire area of the galaxy may destabilize. To restore order to the region, Titan's long-anticipated mission of exploration is delayed as Starfleet assigns Riker to set up power-sharing talks among the Romulan factions. But even as the first tentative steps are taken toward building a new Romulus, the remnants of the Tal Shiar, the dreaded Romulan intelligence service, are regrouping behind the scenes for a power play of their own. With no other help available, Riker and the Titan crew become the last hope to prevent the quadrant from falling into chaos.
