The Coke Machine Michael Blanding,2011-09-06 The Coke Machine takes readers deep inside the Coca-Cola Company and its international franchisees to reveal how they became the number one brand in the world, and just how far they'll go to stay there. Ever since its I'd like to teach the world to sing commercials from the 1970s, Coca-Cola has billed itself as the world's beverage, uniting all colors and cultures in a mutual love of its caramel-sweet sugar water. The formula has worked incredibly well-making it one of the most profitable companies on the planet and Coca-Cola the world's second- most recognized word after hello. However, as the company expands its reach into both domestic and foreign markets, an increasing number of the world's citizens are finding the taste of Coke more bitter than sweet. Journalist Michael Blanding's The Coke Machine probes shocking accusations about the company's global impact, including: ? Coca-Cola's history of winning at any cost, even if it meant that its franchisees were making deals with the Nazis and Guatemalan paramilitary squads ? How Coke has harmed children's health and contributed to an obesity epidemic through exclusive soda contracts in schools ? The horrific environmental impact of Coke bottling plants in India and Mexico, where water supplies have been decimated while toxic pollution has escalated ? That Coke bottlers stand accused of conspiring with paramilitaries to threaten, kidnap, and murder union leaders in their bottling plants in Colombia A disturbing portrait drawn from an award-winning journalist's daring, in-depth research, The Coke Machine is the first comprehensive probe of the company and its secret formula for greed. Coke Machine Glow Gordon Downie,2014-06-10 Gordon Downie, lead singer and lyricist for the popular Canadian rock band The Tragically Hip, released his first solo record, Coke Machine Glow in Spring 2001. Alongside the album, his first book of poetry and prose under the same title was published, including the lyrics to the sixteen songs on the record. Now, on the 20th anniversary year of Coke Machine Glow, fans have more to delight in: an audiobook of Coke Machine Glow and a brand new album by Downie, released posthumously. Coke Machine Glow is a rich, haunting collection that reveals both the public and private selves of one of Canada's most enigmatic musicians. In poetry that is urban, gritty and political, as well as romantic, nostalgic and whimsical, Downie allows us a glimpse inside his world. With his acute and observing eye, he gives us snapshots of his life, both on the road and at home; he writes of loneliness and isolation; of longing and desire; of the present and the past; of dreams and nightmares; love lost and love of family. Ultimately, this book is about the distances that bridge and separate us. Layered and deceptively simple, imbued with Downie's wit, insight, anger, compassion and rock'n'roll edge, Coke Machine Glow is a remarkable debut from a remarkable creator.

Citizen Coke: The Making of Coca-Cola Capitalism Bartow J. Elmore,2014-11-03 Citizen Coke demonstrate[s] a complete lack of understanding about...the Coca-Cola system—past and present. —Ted Ryan, the Coca-Cola Company By examining “the real thing” ingredient by ingredient, this brilliant history shows how Coke used a strategy of outsourcing and leveraged free public resources, market muscle, and lobbying power to build a global empire on the sale of sugary water. Coke became a giant in a world of abundance but is now embattled in a world of scarcity, its products straining global resources and fueling crises in public health.

Kid Food Bettina Elias Siegel,2019 It has never been so difficult to raise a healthy eater in America.Along with the picky eating and public tantrums that have forever tested the limits of parental patience, today's parents also fend off sophisticated assaults from outside their kitchens: unhealthy food-marketing campaigns aimed at kids; misleading product labels aimed at parents; and a school-foodprogram so starved for cash that it sells name-brand junk food to grade school students.In Kid Food, nationally recognized food writer Bettina Elias Siegel (New York Times, The Lunch Tray) explores the cultural delusions and industry deceptions that have made it all but impossible to raise a healthy eater in America. Combining first-person reporting with the hard-won understanding of afood advocate and parent, it presents a startling portrayal of the current food landscape for children - and the role of parents in navigating it.Siegel also lifts the curtain on shadowy food industry front-groups, including clever marketing techniques that intentionally confuse parents about a product's nutritional value. (Did you know that made with real fruit may mean a product is less healthy?) What emerges is the industry'sdivide-and-conquer strategy, one that stokes kids' desire for junk food while breaking down parents' ability to act as responsible gatekeepers.For anyone who frets over what their child is eating, Kid Food offers both essential reading and a deeper understanding of the factors at play in their child's food environment. Written in the same engaging and relatable voice that has made The Lunch Tray a trusted resource for parents for almost a decade, Kid Food offers a well of compassion - and expertise - for those fighting the good fight at home.

Greta & Valdin Rebecca K Reilly,2024-02-06 For fans of Schitt’s Creek and Sally Rooney’s Normal People, an irresistible and bighearted international bestseller that follows a brother and sister as they navigate queerness, multiracial identity, and the dramas big and small of their entangled, unconventional family, all while flailing their way to love. It’s been a year since his ex-boyfriend dumped him and moved from Auckland to Buenos Aires, and Valdin is doing fine. He has a good flat with his sister Greta, a good career where his colleagues only occasionally remind him that he is the sole Maaori person in the office, and a good friend who he only sleeps with when he’s sad. But when work sends him to Argentina and he’s thrown back in his former lover’s orbit, Valdin is forced to confront the feelings he’s been trying to ignore—and the future he wants. Greta is not letting her painfully unrequited crush (or her possibly pointless master’s thesis, or her pathetic academic salary...) get her down. She would love to focus on the charming fellow grad student she meets at a party and her friendships with a circle of similarly floundering twenty-somethings, but her chaotic family life won’t stop intruding: her mother is keeping secrets, her nephew is having a gay crisis, and her brother has suddenly flown to South America without a word. Sharp, hilarious, and with an undeniable emotional momentum that builds to an exuberant conclusion, Greta & Valdin careens us through the siblings’ misadventures and the messy dramas of their sprawling, eccentric Maaori-Russian-Catalonian family. An acclaimed bestseller in New Zealand, Greta & Valdin is fresh, joyful, and alive with the possibility of love in its many mystifying forms.

cokemachineglow: Writing Around Music 2005-2015 Clayton Purdom,2022-06-07 Irreverent, cultishly adored, and dearly missed, the music writers at cokemachineglow produced some of the greatest, weirdest, funniest, sharpest criticism of the 21st century, and have gone on to write for major publications. In that sweet spot online before streaming and social media, people discovered music on blogs and webzines. A few have gone corporate, and nearly all the rest have disappeared. None are more missed than cokemachineglow - founded by a Canadian music writer in 2002, it grew to encompass a motley crew of brilliant, idiosyncratic writers and draw an intense readership of music fans. These critics have now published books and written for outlets like The New

York Times, New York Magazine, The Guardian, Village Voice, Film Comment, Pitchfork, Esquire and GQ, among many other accomplishments, but there's never been - and never will be - another masthead so beloved and anarchic, writing that isn't just describing music but creating a culture, a narrative, a way of speaking that is hugely influential in how we hear, talk and tweet online. Featuring a brand new introductory essay by editor Clayton Purdom.

LaserWriter II Tamara Shopsin,2021-10-19 A WIRED Pick for the 7 Books You Need to Read This Winter and one of Vox's 11 Titles Not to Miss From the incomparable New York Times and New Yorker illustrator Tamara Shopsin, a debut novel about a NYC printer repair technician who comes of age alongside the Apple computer—featuring original artistic designs by the author. LaserWriter II is a coming-of-age tale set in the legendary 90s indie NYC Mac repair shop TekServe—a voyage back in time to when the internet was new, when New York City was gritty, and when Apple made off-beat computers for weirdos. Our guide is Claire, a 19-year-old who barely speaks to her bohemian co-workers, but knows when it's time to snap on an antistatic bracelet. Tamara Shopsin brings us a classically New York novel that couldn't feel more timely. Interweaving the history of digital technology with a tale both touchingly human and delightfully technical, Shopsin brings an idiosyncratic cast of characters to life with a light touch, a sharp eye, and an unmistakable voice. Filled with pixelated philosophy and lots of printers, LaserWriter II is, at its heart, a parable about an apple.

In Shakespeare's Shadow Michael Blanding,2021-03-30 The true story of a self-taught sleuth's quest to prove his eye-opening theory about the source of the world's most famous plays, taking readers inside the vibrant era of Elizabethan England as well as the contemporary scene of Shakespeare scholars and obsessives. What if Shakespeare wrote Shakespeare . . . but someone else wrote him first? Acclaimed author of *The Map Thief*, Michael Blanding presents the twinning narratives of renegade scholar Dennis McCarthy and Elizabethan courtier Sir Thomas North. Unlike those who believe someone else secretly wrote Shakespeare, McCarthy argues that Shakespeare wrote the plays, but he adapted them from source plays written by North decades before. In *Shakespeare's Shadow* alternates between the enigmatic life of North, the intrigues of the Tudor court, the rivalries of English Renaissance theater, and academic outsider McCarthy's attempts to air his provocative ideas in the clubby world of Shakespearean scholarship. Through it all, Blanding employs his keen journalistic eye to craft a captivating drama, upending our understanding of the beloved playwright and his singular genius. Winner of the 2021 International Book Award in Narrative Non-Fiction

Vending Machines Kerry Segrave,2012-09-24 Although the 1880s are considered the beginning of the vending machine era, these devices have existed for a couple of thousand years. The earliest reference to a vending machine was made by Hero—a Greek mathematician, physicist and engineer who probably lived in Alexandria during the first century a.d.—who described and illustrated a coin-operated device to be used for vending sacrificial water in Egyptian temples. Completely automatic, the device was set in operation by the insertion of a five-drachma coin. This work traces the history of the vending machine from its inception to its current place in popular American culture, with the eight chapters covering significant eras. Successes and failures of the machines, economic factors influencing the popularity (or lack thereof) of vending machines, and the struggle of industry to become a dominant, large-scale method of retailing products are discussed. This text is richly illustrated and includes appendices on vending dollar value, vending sales by location type and vending statistics.

Soda Politics Marion Nestle,2015-09-07 Sodas are astonishing products. Little more than flavored sugar-water, these drinks cost practically nothing to produce or buy, yet have turned their makers--principally Coca-Cola and PepsiCo--into a multibillion-dollar industry with global recognition, distribution, and political power. Billed as refreshing, tasty, crisp, and the real thing, sodas also happen to be so well established to contribute to poor dental hygiene, higher calorie intake, obesity, and type-2 diabetes that the first line of defense against any of these conditions is to simply stop drinking them. Habitually drinking large volumes of soda not only harms individual health, but also burdens societies with runaway healthcare costs. So how did products containing absurdly inexpensive ingredients become multibillion dollar industries and international brand icons, while also having a devastating impact on public health? In *Soda Politics*, the 2016 James Beard Award for Writing & Literature Winner, Dr. Marion Nestle answers this question by detailing all of the ways that the soft drink industry works overtime to make drinking soda as common and accepted as drinking water, for adults and children. Dr. Nestle, a renowned food and nutrition policy expert and public health advocate, shows how sodas are principally miracles of advertising; Coca-Cola and PepsiCo spend billions of dollars each year to promote their sale to children, minorities, and low-income populations, in developing as well as industrialized nations. And once they have stimulated that demand, they leave no stone unturned to protect profits. That includes lobbying to prevent any measures that would discourage soda sales, strategically donating money to health organizations and researchers who can make the science about sodas appear confusing, and engaging in Corporate Social Responsibility (CSR) activities to create goodwill and silence critics. *Soda Politics* follows the money trail wherever it leads, revealing how hard Big Soda works to sell as much of their products as possible to an increasingly obese world. But *Soda Politics* does more than just diagnose a problem--it encourages readers to help find solutions. From Berkeley to Mexico City and beyond, advocates are successfully countering the relentless marketing, promotion, and political protection of sugary drinks. And their actions are having an impact--for all of the hardball and softball tactics the soft drink industry employs to maintain the status quo, soda consumption has been flat or falling for years. Health advocacy campaigns are now the single greatest threat to soda companies' profits. *Soda Politics* provides readers with the tools they need to keep up pressure on Big Soda in order to build healthier and more sustainable food systems.

The Map Thief Michael Blanding,2015-06-02 The story of an infamous crime, a revered map dealer with an unsavory secret, and the ruthless subculture that consumed him Maps have long exerted a special fascination on viewers—both as beautiful works of art and as practical tools to navigate the world. But to those who collect them, the map trade can be a cutthroat business, inhabited by quirky and sometimes disreputable characters in search of a finite number of extremely rare objects. Once considered a respectable antiquarian map dealer, E. Forbes Smiley spent years doubling as a map thief —until he was finally arrested slipping maps out of books in the Yale University library. The Map Thief delves into the untold history of this fascinating high-stakes criminal and the inside story of the industry that consumed him. Acclaimed reporter Michael Blanding has interviewed all the key players in this stranger-than-fiction story, and shares the fascinating histories of maps that charted the New World, and how they went from being practical instruments to quirky heirlooms to highly coveted objects. Though pieces of the map theft story have been written before, Blanding is the first reporter to explore the story in full—and had the rare privilege of having access to Smiley himself after he’d gone silent in the wake of his crimes. Moreover, although Smiley swears he has admitted to all of the maps he stole, libraries claim he stole hundreds more—and offer intriguing clues to prove it. Now, through a series of exclusive interviews with Smiley and other key individuals, Blanding teases out an astonishing tale of destruction and redemption. The Map Thief interweaves Smiley’s escapades with the stories of the explorers and mapmakers he knew better than anyone. Tracking a series of thefts as brazen as the art heists in Provenance and a subculture as obsessive as the oenophiles in The Billionaire’s Vinegar, Blanding has pieced together an unforgettable story of high-stakes crime.
