The Coke Machine Michael Blanding, 2011-09-06 The Coke Machine takes readers deep inside the Coca-Cola Company and its international franchisees to reveal how they became the number one brand in the world, and just how far they'll go to stay there. Ever since its I'd like to teach the world to sing commercials from the 1970s, Coca-Cola has billed itself as the world's beverage, uniting all colors and cultures in a mutual love of its caramel-sweet sugar water. The formula has worked incredibly well-making it one of the most profitable companies on the planet and Coca-Cola the world's second- most recognized word after hello. However, as the company expands its reach into both domestic and foreign markets, an increasing number of the world's citizens are finding the taste of Coke more bitter than sweet. Journalist Michael Blanding's The Coke Machine probes shocking accusations about the company's global impact, including: ? Coca-Cola's history of winning at any cost, even if it meant that its franchisees were making deals with the Nazis and Guatemalan paramilitary squads ? How Coke has harmed children's health and contributed to an obesity epidemic through exclusive soda contracts in schools ? The horrific environmental impact of Coke bottling plants in India and Mexico, where water supplies have been decimated while toxic pollution has escalated ? That Coke bottlers stand accused of conspiring with paramilitaries to threaten, kidnap, and murder union leaders in their bottling plants in Colombia A disturbing portrait drawn from an award-winning journalist's daring, in-depth research, The Coke Machine is the first comprehensive probe of the company and its secret formula for greed. COKE is a registered trademark of The Coca-Cola Company. This book is not authorized by or endorsed by The Coca-Cola Company.

The Coke Machine Michael Blanding, 2010 An exposé on the rise of Coca-Cola to become one of the world's most profitable and recognized brands shares unsettling reports on franchise deals in adversarial nations, the role of company products in obesity rates, and the environmental impact of its bottling practices.

Coke Machine Glow Gordon Downie, 2014-06-10 Gordon Downie, lead singer and lyricist for the popular Canadian rock band The Tragically Hip, released his first solo record, Coke Machine Glow in Spring 2001. Alongside the album, his first book of poetry and prose under the same title was published, including the lyrics to the sixteen songs on the record. Now, on the 20th anniversary year of Coke Machine Glow, fans have more to delight in: an audiobook of Coke Machine Glow and a brand new album by Downie, released posthumously. Coke Machine Glow is a rich, haunting collection that reveals both the public and private selves of one of Canada's most enigmatic musicians. In poetry that is urban, gritty and political, as well as romantic, nostalgic and whimsical, Downie allows us a glimpse inside his world. With his acute and observing eye, he gives us snapshots of his life, both on the road and at home; he writes of loneliness and isolation; of longing and desire; of the present and the past; of dreams and nightmares; love lost and love of family. Ultimately, this book is about the distances that bridge and separate us. Layered and deceptively simple, imbued with Downie's wit, insight, anger, compassion and rock'n'roll edge, Coke Machine Glow is a remarkable debut from a remarkable creator.

Citizen Coke: The Making of Coca-Cola Capitalism Bartow J. Elmore, 2014-11-03 Citizen Coke demonstrate[s] a complete lack of understanding about...the Coca-Cola system—past and present. —Ted Ryan, the Coca-Cola Company By examining “the real thing” ingredient by ingredient, this brilliant history shows how Coke used a strategy of outsourcing and leveraged free public resources, market muscle, and lobbying power to build a global empire on the sale of sugary water. Coke became a giant in a world of abundance but is now embattled in a world of scarcity, its products straining global resources and fueling crises in public health.

cokemachineglow: Writing Around Music 2005-2015 Clayton Purdom, 2022-06-07 Irreverent, cultishly adored, and dearly missed, the music writers at cokemachineglow produced some of the greatest, weirdest, funniest, sharpest criticism of the 21st century, and have gone on to write for major publications. In that sweet spot online before streaming and social media, people discovered music on blogs and webzines. A few have gone corporate, and nearly all the rest have disappeared. None are more missed than cokemachineglow - founded by a Canadian music writer in 2002, it grew to encompass a motley crew of brilliant, idiosyncratic writers and draw an intense readership of music fans. These critics have now published books and written for outlets like The New York Times, New York Magazine, The Guardian, Village Voice, Film Comment, Pitchfork, Esquire and GQ, among many other accomplishments, but there's never been - and never will be - another masthead so beloved and anarchic, writing that isn't just describing music but creating a culture, a narrative, a way of speaking that is hugely influential in how we hear, talk and tweet online. Featuring a brand new introductory essay by editor Clayton Purdom.

Kid Food Bettina Elias Siegel, 2019 It has never been so difficult to raise a healthy eater in America. Along with the picky eating and public tantrums that have forever tested the limits of parental patience, today's parents also fend off sophisticated assaults from outside their kitchens: unhealthy food-marketing campaigns aimed at kids; misleading product labels aimed at parents; and a school-food program so starved for cash that it sells name-brand junk food to grade school students. In *Kid Food*, nationally recognized food writer Bettina Elias Siegel (New York Times, The Lunch Tray) explores the cultural delusions and industry deceptions that have made it all but

impossible to raise a healthy eater in America. Combining first-person reporting with the hard-won understanding of a food advocate and parent, it presents a startling portrayal of the current food landscape for children - and the role of parents in navigating it. Siegel also lifts the curtain on shadowy food industry front-groups, including clever marketing techniques that intentionally confuse parents about a product's nutritional value. (Did you know that made with real fruit may mean a product is less healthy?) What emerges is the industry's divide-and-conquer strategy, one that stokes kids' desire for junk food while breaking down parents' ability to act as responsible gatekeepers. For anyone who frets over what their child is eating, Kid Food offers both essential reading and a deeper understanding of the factors at play in their child's food environment. Written in the same engaging and relatable voice that has made The Lunch Tray a trusted resource for parents for almost a decade, Kid Food offers a well of compassion - and expertise - for those fighting the good fight at home.

The Handbook of Hawaiian Machine Made Soda Bottles Jim Millar, 1986

Greta & Valdin Rebecca K Reilly, 2024-02-06 For fans of Schitt's Creek and Sally Rooney's Normal People, an irresistible and bighearted international bestseller that follows a brother and sister as they navigate queerness, multiracial identity, and the dramas big and small of their entangled, unconventional family, all while flailing their way to love. It's been a year since his ex-boyfriend dumped him and moved from Auckland to Buenos Aires, and Valdin is doing fine. He has a good flat with his sister Greta, a good career where his colleagues only occasionally remind him that he is the sole Maaori person in the office, and a good friend who he only sleeps with when he's sad. But when work sends him to Argentina and he's thrown back in his former lover's orbit, Valdin is forced to confront the feelings he's been trying to ignore—and the future he wants. Greta is not letting her painfully unrequited crush (or her possibly pointless master's thesis, or her pathetic academic salary...) get her down. She would love to focus on the charming fellow grad student she meets at a party and her friendships with a circle of similarly floundering twenty-somethings, but her chaotic family life won't stop intruding: her mother is keeping secrets, her nephew is having a gay crisis, and her brother has suddenly flown to South America without a word. Sharp, hilarious, and with an undeniable emotional momentum that builds to an exuberant conclusion, Greta & Valdin careens us through the siblings' misadventures and the messy dramas of their sprawling, eccentric Maaori-Russian-Catalonian family. An acclaimed bestseller in New Zealand, Greta & Valdin is fresh, joyful, and alive with the possibility of love in its many mystifying forms.

LaserWriter II Tamara Shopsin, 2021-10-19 A WIRED Pick for the 7 Books You Need to Read This Winter and one of Vox's 11 Titles Not to Miss From the incomparable New York Times and New Yorker illustrator Tamara Shopsin, a debut novel about a NYC printer repair technician who comes of age alongside the Apple computer—featuring original artistic designs by the author. LaserWriter II is a coming-of-age tale set in the legendary 90s indie NYC Mac repair shop TekServe—a voyage back in time to when the internet was new, when New York City was gritty, and when Apple made off-beat computers for weirdos. Our guide is Claire, a 19-year-old who barely speaks to her bohemian co-workers, but knows when it's time to snap on an antistatic bracelet. Tamara Shopsin brings us a classically New

York novel that couldn't feel more timely. Interweaving the history of digital technology with a tale both touchingly human and delightfully technical, Shopsisin brings an idiosyncratic cast of characters to life with a light touch, a sharp eye, and an unmistakable voice. Filled with pixelated philosophy and lots of printers, LaserWriter II is, at its heart, a parable about an apple.

Machine of Death Ryan North, Matthew Bennardo, David Malki, 2010 MACHINE OF DEATH tells thirty-four different stories about people who know how they will die. Prepare to have your tears jerked, your spine tingled, your funny bone tickled, your mind blown, your pulse quickened, or your heart warmed. Or better yet, simply prepare to be surprised. Because even when people do have perfect knowledge of the future, there's no telling exactly how things will turn out.

Vending Machines Kerry Segrave, 2012-09-24 Although the 1880s are considered the beginning of the vending machine era, these devices have existed for a couple of thousand years. The earliest reference to a vending machine was made by Hero—a Greek mathematician, physicist and engineer who probably lived in Alexandria during the first century a.d.—who described and illustrated a coin-operated device to be used for vending sacrificial water in Egyptian temples. Completely automatic, the device was set in operation by the insertion of a five-drachma coin. This work traces the history of the vending machine from its inception to its current place in popular American culture, with the eight chapters covering significant eras. Successes and failures of the machines, economic factors influencing the popularity (or lack thereof) of vending machines, and the struggle of industry to become a dominant, large-scale method of retailing products are discussed. This text is richly illustrated and includes appendices on vending dollar value, vending sales by location type and vending statistics.
