The Crusades and the Military Orders Zsolt Hunyadi, József Laszlovszky, Central European University. Dept. of Medieval Studies, 2001-01-01 Proceedings of a conference on a theme, the 34 essays by specialists from 15 countries prevent various facets of the struggles waged for the possession of the Holy Land between the 10th and

13th centuries, and of the activities of the military orders elsewhere in Europe.

Decreta Regni Mediaevalis Hungariae János M.

Bak, György Bónis, James Ross Sweeney, 1999

The Knights Hospitaller of the English Langu

1460-1565 Gregory O'Malley, 2005-09-22 The Knights of St John of Jerusalem, also known as the Hospitallers, were a military religious order, subject to monastic vows and discipline but devoted to the active defence of the Holy Land. After evacuating the Holy Land at the beginning of the fourteenth century, they occupied Rhodes, which they held into the sixteenth century, when their headquarters moved to Malta. Branches of the order existed throughout Europe, and it is the English branch in the fifteenth and sixteenth centuries that is examined here. Among the major subjects researched by O'Malley are the recruitment of members of the Hospital and their family ties; the operation of the order's career structure; the administration of its estates; its provision of spiritual and charitable services; and the publicity and logistical support it provided for the holy war carried on by its headquarters against the Ottoman Turks. It is argued that the English Hospitallers in particular took their military and financial duties to the order very seriously, making a major contribution to the Hospital's operations in the Mediterranean as a result. They were able to do so because they were wealthy, had close family and other ties with gentle and mercantile society, and above all because their activities had royal support. Where this was lacking or ineffective, as in Ireland, the Hospital might become the plaything of local interests eager to exploit its estates, and its wider functions might be neglected. Consequently the heart of the book lies in an extended discussion of the relationship between senior Hospitaller officers and the governing authorities of Britain

and Ireland. It is concluded that rulers were generally supportive of the order's activities, but within strict limits, particularly in matters concerning appointments, the size of payments to the east, and the movement and foreign allegiances of senior brethren. When these limits were breached, or at times of political or religious sensitivity such as the 1460s and 1530s, the Hospital's personnel and estates would suffer. In addition, more general areas of historical debate are illuminated such as those concerning the relationship between late medieval societies and the religious orders; 'British' attitudes to Christendom and holy war, and the rights of rulers over their subjects. This is the first such book to be based on archival records in both Britain and Malta, and will make a major contribution to understanding the order's European network, its place in the ordering of Latin Christendom, and in particular its role in late medieval British and Irish society.

The First Crusade and the Idea of Crusading Jonathan Riley-Smith, 2009-11-27 In this classic work, presented here with a new introduction, one of the world's most renowned crusade historians approaches this central topic of medieval history with freshness and impeccable research.

The Cosmic Microwave Background Jose Alberto Rubiño-Martin, Rafael Rebolo, Evencio Mediavilla, 2009-12-17 This volume presents the lectures of the nineteenth Canary Islands Winter School, dedicated to the Cosmic Microwave Background (CMB). This relict radiation from the very early Universe provides a fundamental tool for precision cosmology. Prestigious researchers in the field present a comprehensive overview of current knowledge of the CMB, reviewing the theoretical foundations, the main observational results and the most advanced statistical techniques used in this discipline. The lectures give coverage from the basic principles to the most recent

research results, reviewing state of the art observational and statistical analysis techniques. The impact of new experiments and the constraints imposed on cosmological parameters are emphasized and put into the broader context of research in cosmology. This is an important resource for both graduate students and experienced researchers, revealing the spectacular progress that has been made in the study of the CMB within the last decade.

The Central Convent of Hospitallers and Templars

Jochen Burgtorf, 2008 From their humble beginnings in Jerusalem as a late eleventh-century hospital and an early twelfth-century pilgrim escort, Hospitallers and Templars evolved into international military religious orders, engaged in numerous charitable, economic, and military pursuits. At the heart of each of these communities, and in many ways a mirror of their growth and adaptability, was a central convent led by several high officials and headquartered first in Jerusalem (to 1187), then in Acre (1191-1291), and then on Cyprus (since 1291), from where the Hospitallers conquered Rhodes (1306-1310), and where fate in the form of a heresy trial caught up with the Templars. The history, organization, and personnel of these two central convents to 1310 are the subject of this comparative study.

The Templar Order in North-west Italy Elena

Bellomo, 2008 Based on extensive archival searches, this book provides the first reconstruction of the Templar presence in North-west Italy giving general insights into the development and organization of the Order in this area and providing an outline of the history of each Templar house.

The Interstellar Medium K. Pinkau, 2012-12-06

In recent years it has become apparent that contributions to our knowledge about the interstellar medium are made by practically all forms of astronomy ranging from radio- to gamma ray observations, and from cosmic ray

measurements. It was thus thought fruitful to arrange for an interdisciplinary meeting of astronomers from the various fields of investigation, and of high energy astrophysicists. This meeting took place at Schliersee (Bavaria) from April 2 to 13, 1973. Lectures and some of the discussions held during that Advanced Study Institute are reproduced here. Unfortunately, no manuscripts of the two lectures about infrared and cosmic ray observations were received and these are thus not available here. However, it was thought to be more important to proceed now with the publication. The organisers are very grateful to Miss H. Eichele for her technical help during the meeting. The organisation of the Institute and the publication of the proceedings would have been impossible without the very great efforts and help of Mrs. M. Brunner and Mrs. D. Preis. I would also like to express my gratitude to my colleagues K.W. Michel and S. Drapatz for their many contributions towards the success of the meeting.

The Military Orders Malcolm Barber, Helen J.

Nicholson, 1994 This work covers the history of those orders which combined religion and caring with military prowess. Among the orders covered: are the Hospitallers of St John; the Templars; the Teutonic order; and the Spanish. The book also discusses the perceptions and roles of the military orders.

The Hospitallers and the Holy Land Judith

Bronstein, 2005 A new appraisal of the Order of the Hospitallers, showing how they were responsible for the survival of the Christian settlement in the East. The Order of the Hospital of St John was among the most creative and important institutions of the Middle Ages, its history provoking much debate and controversy. However, there has been very little study of the way in which it operated as an organisation contributing to the survival of the Christian settlement in the East, a gap which this book addresses. It focuses on the impact of the various crises in the East upon the Order, looking at how it reacted to events, the contributions that western priories played in the rehabilitation of the East, and the various efforts made to restore its economic and military strength. In particular, the author shows the key role played by the papacy, both in the Order's recovery, and in determining the fate of the crusader states. Overall, it offers a whole new perspective on the connections between East and West. JUDITH BRONSTEIN gained her Ph.D. from the University of Cambridge

The Hospitaller State on Rhodes and Its Western Provinces, 1306-1462 Anthony Luttrell, 1999 This fourth collection of Dr Luttrell's studies on the military order of the Hospital concerns its activities on the island of Rhodes, acquired between 1306 and 1310, where it struggled to contain the naval aggression of the Anatolian Turks and to

settle the island and organise its society and economy. At the same time it had to exploit its Cypriot possessions and its European provinces in order to secure the manpower and resources needed to sustain its Eastern activities. The author has spent over 40 years working in the Hospital's archives on Malta and elsewhere throughout the West, studying the Hospitallers' military and naval affairs, their spiritual and medical activities, and the organisation of their Western priories and commanderies. These studies illustrate the workings of an extensive multi-national corporation dedicated to the defence of Christendom.
