**Searching for Eden** James Still, 2006 As one critic wrote about Searching for Eden: In the beginning--and throughout the play--here was laughter. And the audience found it good. More than a hundred years after Mark Twain wrote his own short stories about Adam and Eve, James Still combines those stories for Act One of Searching for Eden, and then imagines Adam and Eve in the present day for Act Two to create this completely original and contemporary play about the world's first love story. Act One takes place at the dawn of time in the Garden of Eden. In the imaginations of Still and Twain, the Garden of Eden is a place where the battle of the sexes begins, where language is deliciously invented, and where loneliness and heartbreak are poignantly discovered. After intermission, we jump forward to the present day--but Adam and Eve have only aged into their 40s and are dealing with middle age and the distractions of high-power careers. Adam has surprised Eve with this trip back to Eden (a last-minute vacation package Adam found on the Internet) as an anniversary gift. The first couple returns to present-day Eden (now an upscale resort simply called E) in an attempt to recapture the primal passions of their youth. While Act One is about childhood, discovery, and new love--Act Two is about middle age, rediscovery and trying to make old love new again. At its heart, Searching for Eden is about the pleasures and terrors of knowing one person--and being known by that person--for a long, long time.--Publisher's website.

Religion and Spirituality in Japan Masami Takahashi, 2020-07-16 While almost

everyone in Japan regularly participates in traditional activities that are religious and spiritual in nature, it is perplexing that only 20 to 30% of the population self-identify with a particular religion. Several accounts have been offered to explain this discrepancy, but these speculations had never been examined empirically. There are several reasons as to why Japanese empirical scientists ignored the topic for so long. One may be that Japanese scientists themselves are too accustomed to the tradition to reflect upon the discrepancy. Since even astute researchers may fail to recognize such a fertile field for empirical research, the opportunities and venues to pursue this line of research in Japanese academia have been scarce. The Empirical Study of the Psychology of Religion and Spirituality in Japan is a translated version of the original book, a collection of chapters by scholars from different psychological disciplines. It is the first book with an emphasis on empirical perspectives on the topic. Thus, it is also the first book written in English in the field. This book offers not only detailed empirical data, but also an examination of the theories and ideologies that underlie contemporary understanding of religion and spirituality in Japan.

**Hush** Eishes Chayil,2010-09-14 Inside the closed community of Borough Park, where most Chassidim live, the rules of life are very clear, determined by an ancient script written thousands of years before down to the last detail-and abuse has never been a part of it. But when thirteen-year-old Gittel learns of the abuse her best friend has suffered at the hands of her own family member, the adults in her community try to persuade Gittel, and themselves, that nothing happened. Forced to remain silent, Gittel begins to question everything she was raised to believe. A richly detailed and nuanced book, one of both humor and depth, understanding and horror, this story explains a complex world that remains an echo of its past, and illuminates the conflict between yesterday's traditions and today's reality.

**Unchained Mind** Ricardo G. Williams, 2017-03-15 I took a three-year break from work to explore the topic of peace, love, and success. I spent the time analyzing my thoughts and the effects my thoughts had on my emotional state of mind. The things I found out were quite intriguing. I came to the realization that many of us are not living to our full potential. We live with a measured joy. We keep our happiness in check. Our smiles are met with

a restriction from our breath, which makes it short-lived. We seldom breathe fully because our breath is interrupted by the depth of our thoughts. We never really let go fully. We are bound by layers of chains that have entangled our thinkingchains from an uncertain future, chains of work, chains of relationships, chains of our finances, too many chains to mention. My time away from work gave me the opportunity to explore how to break the chains. I admit that even a broken chain is not permanently broken but can be easily reunited if old habits are not changed. My book focuses on the actions we can take to break chains and keep them broken. My book explores how our thoughts control our destiny. It teaches thought control and the importance of silence. It teaches how to overcome fear, anger, negative thoughts, stress, and hatred. You will learn how to nurture your emotions, embrace moments, and the importance of spiritual peace. I will teach you how to live in thankfulness, with compassion, while activating love.

**Here and Elsewhere** Massimiliano Gioni,Gary Carrion-Murayari,Natalie Bell,Negar Azimi,Kaelen Wilson-Goldie,2014 This catalogue, accompanying the New Museum exhibition Here and Elsewhere, presents the work of over 45 artists who share roots in the Arab world and a critical sensibility with regard to images and image-making. The title of the exhibition is borrowed from a 1976 film-essay by Jean-Luc Godard, Jean-Pierre Gorin and Anne-Marie Miéville. Their film, Ici et ailleurs, was conceived as a pro-Palestinian

documentary, but evolved into a complex reflection on the ethics of representation. Taking inspiration from this film--which has had a strong impact on Arab artists--Here and Elsewhere examines the role of the artist in the face of historical events. An anthology of critical texts edited by Bidoun magazine highlights the critical discussions that have animated contemporary art in the Arab world. Among the artists included are Fouad Elkoury, Hrair Sarkissian, Hassan Sharif, Anna Boghiguan, Simone Fattal, Ziad Antar and Etel Adnan.

Twenty Small Sailboats to Take You Anywhere John Vigor, 1999-08 John Vigor turns the spotlight on twenty seaworthy sailboats that are at home on the ocean in all weather. These are old fiberglass boats, mostly of traditional design and strong construction. All are small, from 20 feet to 32 feet overall, but all have crossed oceans, and all are cheap. Choosing the right boat to take you across an ocean or around the world can be confusing and exasperating, particularly with a tight budget. Vigor sets out to remedy that in this book. He compares the designs and handling characteristics of 20 different boats whose secondhand market prices start at about \$3,000. Interviews with experienced owners (featuring valuable tips about handling each boat in heavy weather) are interspersed with line drawings of hulls,

sail plans, and accommodations. Vigor has unearthed the known weaknesses of each boat and explains how to deal with them. He rates their comparative seaworthiness, their speed, and the number of people they can carry in comfort. If you have ever dreamed the dream this book can help you turn it into reality.

**A Free Press in Freehand** Michael Ray Smith, Roy Alden Atwood, 2011 This is the astonishing story of North Carolinian John McLean Harrington, a maverick journalist who before and during the Civil War handwrote up to a hundred copies of each issue of his own various newspapers. As cultural and military battle lines were drawn across the South, Harrington, while postmaster in Harnett County, blogged in longhand about everything from the plight of

slaves to unrequited love, international relations, and technology. He became an outspoken dilettante journalist, a defender of press freedom, and one of the nation's most productive longhand journalists. Includes photos and accompanying transcriptions of two complete issues of Harrington's papers.

THE AUTHORS Michael Ray Smith, Ph.D., is an award-winning journalist, photographer, and author of many articles and five books, including FeatureWriting.Net.
