Cook Real Hawai'i Sheldon Simeon, Garrett Snyder, 2021-03-30 The story of Hawaiian cooking, by a two-time Top Chef finalist and Fan Favorite, through 100 recipes that embody the beautiful cross-cultural exchange of the islands. ONE OF THE TEN BEST COOKBOOKS OF THE YEAR: The New Yorker • ONE OF THE BEST COOKBOOKS OF THE YEAR: The New York Times, The Washington Post, NPR, Taste of Home, Vice, Serious Eats Even when he was winning accolades and adulation for his cooking, two-time Top Chef finalist Sheldon Simeon decided to drop what he thought he was supposed to cook as a chef. He dedicated himself instead to the local Hawai'i food that feeds his 'ohana—his family and neighbors. With uncomplicated, flavor-forward recipes, he shows us the many cultures that have come to create the cuisine of his beloved home: the native Hawaiian traditions, Japanese influences, Chinese cooking techniques, and dynamic Korean, Portuguese, and Filipino flavors that are closest to his heart. Through stunning photography, poignant stories, and dishes like wok-fried poke, pork dumplings made with biscuit dough, crispy cauliflower katsu, and charred huli-huli chicken slicked with a sweet-savory butter glaze, Cook Real Hawai'i will bring a true taste of the cookouts, homes, and iconic mom and pop shops of Hawai'i into your kitchen.

Sexual Plasticity and Gametogenesis in Fishes Balasubramanian Senthilkumaran, 2013 Sex determination, differentiation and gamete maturation are well organised molecular events in vertebrates. In vertebrates, sex determination and differentiation are two important events in the development of gonads (testis or ovary). Sex determination is the genetic (sex chromosomes) or environmental process by which the sex (male or female) of an individual is established. During embryonic development, primordial germ cells migrate from the site of origin to the gonadal primordia where they differentiate along with somatic cells and finally form the indifferent/bipotential gonads. Depending on the action of various factors the bipotential gonads give rise to either testis or ovaries. In most vertebrates, excluding fishes and some amphibians, the event of sex determination is controlled genetically and later the progression of gonadal development is controlled by hormones and other factors. Interestingly, these processes in fishes are controlled not only genetically but also through hormones or environmental factors. These characteristics make fish the champions of sex reversal and serve as excellent animal models to precisely understand sexual development. The next interesting aspect is meiotic maturation which is essentially mediated by gonadotropins and progesterone metabolites to trigger final gamete maturation in fishes which is different from mammals. The novel aspects pertaining to gamete maturation has been studied in great detail in fish which depicts precise regulatory events of gamete maturation.

Japan's Arduous Rejuvenation as a Global Power Victor Teo, 2019-04-08 This open access book assesses the profound impact of Japan's aspirations to become a great power on Japanese security, democracy and foreign relations. Rather than viewing the process of normalization and rejuvenation as two decades of remilitarization in face of rapidly changing strategic environment and domestic political circumstances, this volume contextualizes Japan's contemporary international relations against the longer grain of Japanese historical interactions. It demonstrates that policies and statecraft in the Prime Minister Shinzo Abe's era are a continuation of a long, unbroken and arduous effort by successive generations of leaders to preserve Japanese autonomy, enhance security and advance Japanese national interests. Arguing against the notion that Japan cannot work with China as long as the US-Japan alliance is in place, the book suggests that Tokyo could forge constructive relations with Beijing by engaging China in joint projects in and outside of the Asia-Pacific in issue areas such as infrastructure development or in the provision of international public goods. It also submits that an improvement in Japan-China relations would enhance rather than detract Japan-US relations and that Tokyo will find that her new found autonomy in the US-Japan alliance would not only accord her more political respect and strategic latitude, but also allow her to ameliorate the excesses of American foreign policy adventurism, paving for her to become a truly normal great power.

Louder and Faster Deborah Wong, 2019-09-10 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. Louder and Faster is a cultural study of the phenomenon of Asian American taiko, the thundering, athletic drumming tradition that originated in Japan. Immersed in the taiko scene for twenty years, Deborah Wong has witnessed cultural and demographic changes and the exponential growth and expansion of taiko particularly in Southern California. Through her participatory ethnographic work, she reveals a complicated story embedded in memories of Japanese American internment and legacies of imperialism, Asian American identity and

politics, a desire to be seen and heard, and the intersection of culture and global capitalism. Exploring the materialities of the drums, costumes, and bodies that make sound, analyzing the relationship of these to capitalist multiculturalism, and investigating the gender politics of taiko, Louder and Faster considers both the promises and pitfalls of music and performance as an antiracist practice. The result is a vivid glimpse of an Asian American presence that is both loud and fragile.

Lotus Moon Rengetsu,2005 At the age of thirty-three, Otagaki Nobu (1791-1875) renounced a world that had visited great tragedy upon her - the deaths of two husbands and three infant children - and was ordained a Buddhist nun, taking the name Rengetsu, which means Lotus Moon. In 1832 she began to make pottery, which she inscribed with her own waka (31-syllable classic poetry) and sold to support herself. These unique combinations of hauntingly beautiful poetry, calligraphy, and pottery were as highly prized in her lifetime as they are now.--BOOK JACKET.

Multiethnic Japan John Lie,2009-07 Multiethnic Japan challenges the received view of Japanese society as ethnically homogeneous. Employing a wide array of arguments and evidence--historical and comparative, interviews and observations, high literature and popular culture--John Lie recasts modern Japan as a thoroughly multiethnic society. Lie casts light on a wide range of minority groups in modern Japanese society, including the Ainu, Burakumin (descendants of premodern outcasts), Chinese, Koreans, and Okinawans. In so doing, he depicts the trajectory of modern Japanese identity. Surprisingly, Lie argues that the belief in a monoethnic Japan is a post-World War II phenomenon, and he explores the formation of the monoethnic ideology. He also makes a general argument about the nature of national identity, delving into the mechanisms of social classification, signification, and identification.

New Vision 2050 Hiroshi Komiyama,Koichi Yamada,2018-05-04 This book presents the New Vision 2050, which adds the concept of the “platinum society” to the “Vision 2050”. The 20th century was a century in which energy led the development of material civilization, resulting in depletion of resources, global warming and climate change. What form should sustainable material and energy take to protect the Earth? The Vision 2050 was established 20 years ago as a model that we should pursue for the next half century. Fortunately, the world is on course for the Vision 2050. The 21st century will be a century in which we seek qualitative richness, with the Vision 2050 as the material basis. That is, a “platinum society” that has resource self-sufficiency and resource symbiosis, and where people remain active throughout their lives and have a wide range of choices and opportunities for free participation. Since the author presented the concept of Vision 2050 in 1999, the idea has been introduced in two books entitled Vision 2050: Roadmap for a Sustainable Earth (2008) and Beyond the Limits to Growth: New Ideas for Sustainability from Japan (2014). The latter includes a chapter that sheds light on the concept of a “platinum society”. In this publication, the author presents the New Vision 2050 in more detail.

Kenji Mizoguchi and the Art of Japanese Cinema Tadao Sato,2008-07-15 Kenji Mizoguchi is one of the three acclaimed masters--together with Yasujiro Ozu and Akira Kurosawa--of Japanese cinema. Ten years in the making, *Kenji Mizoguchi and the Art of Japanese Cinema* is the definitive guide to the life and work of one of the greatest film-makers of the 20th century. Born at the end of the 19th Century into a wealthy family, Mizoguchi's early life influenced the themes he would take up in his work. His father's ambitious business ventures failed and the family fell into poverty. His mother died and his beloved sister was sold into a geisha house. Her earnings paid for Mizoguchi's education. Weak and deluded men, and strong, self-sacrificing women--these were to become the obsessive motifs of Mizoguchi's films. Mizoguchi's apprenticeship in cinema was peculiarly Japanese. His concerns--the role of women and the realist representation of the inequities of Japanese society--were not. Through two World Wars, Japan's culture changed. Though censored, Mizoguchi continued to produce films. It was only in the 1950s that Mizoguchi's astonishing cinematic vision became widely known outside Japan. *Kenji Mizoguchi and the Art of Japanese Cinema* tells the full story of this famously perfectionist, even tyrannical, director. Mizoguchi's key films, cinematographic techniques and his social and aesthetic concerns are all discussed and set in the context of Japan's changing popular and political culture.
