Supersapientia: Berthold of Moosburg and the Divine Science of the Platonists Evan King, 2021-08-30

This study examines the motivations and doctrinal coherence of the Commentary on the Elements of Theology of Proclus written by Berthold of Moosburg, O.P. († c. 1361/1363). It provides an overview of Berthold's biography and intellectual contexts, his manuscript remains, and a partial edition of his annotations on Macrobius and Proclus. Through a close analysis of the three prefaces to the Commentary, giving special attention to Berthold's sources, it traces the Dominican's elaboration of Platonism as a soteriological science. The content of this science is then presented in a systematic reconstruction of Berthold's cosmology and anthropology. The volume includes an English translation of the three fundamental prefaces of the Commentary. The publication of this volume has received the generous support of the European Research Council (ERC) under the European Union's Horizon 2020 research and innovation programme through the ERC Consolidator Grant NeopLAT: A Comparative Analysis of the Middle East, Byzantium and the Latin West (9th-16th Centuries), grant agreement No 771640 (www.neoplat.eu). This is, indeed, a precious insight into the spirit of Berthold's philosophical thinking. Overall, the monograph's ambition seems to be both to represent a starting point for new readers interested in Berthold, and to stress the philosophical value of the Commentary: both goals are most certainly reached. -Giuseppe Thomas Vitale, Thomas-Institut der Universität zu Köln, Recherches de Théologie et Philosophie médiévales 89.2

Dietrich Bonhoeffer 1906-1945 Ferdinand

Schlingensiepen, 2010-06-01 A new comprehensive biography of this hugely important Christian martyr, 60 years after his execution at the hands of the Nazis Bonhoeffer has gained a position as one of the most prominent Christian martyrs of the last century. His influence is so widespread that even 60 years after his execution by the Nazis, Bonhoeffer's life and work are still the subject of fresh and lively discussion. As a pastor and theologian, Bonhoeffer decided to resist the Nazis in Germany, but his resistance was not solely theological. He played a key leadership role in the Confessing Church, a major source of Christian opposition to Hitler and his anti-Semitism and was principal of the secret seminary at Finkenwalde in Pomerania. It was here that he developed his theological visions of radical discipleship and communal life. In 1938, he joined the Wehrmacht's Abwehr, the German Military Intelligence Office, in order to seek international support for the plot against Hitler. Following his inner calling and conscience meant that Bonhoeffer was continually forced to make decisions that separated him from his family, friends, and colleagues, and which ultimately led to his martyrdom in Flossenbürg concentration camp, less than a month before the Second World War came to an end. His letters and papers from prison movingly express the development of some of the most provocative and fascinating ideas of 20th century theology. Sixty years after Bonhoeffer's death and forty years after the publication of Eberhard Bethge's ground breaking biography, Ferdinand Schlingensiepen offers a definitive new book on Bonhoeffer, for a new generation of readers. Schlingensiepen takes into account documents that have only been made accessible during the last few years - such as the letters between Bonhoeffer and his fiancée Maria von Wedemeyer. Schlingensiepen's careful narrative brings to life the historical events, as well as displaying the theological development of one of the most creative thinkers of the 20th

century, who was to become one of its most tragic martyrs.

Proklu diadochu Stoicheiosis theologike Proclus, Eric R. Dodds, 1992 Proclus' Elements of Theology is a concise summa of the Neoplatonic system in its fully developed form; and for the student of late Greek thought second in importance only to the Enneads of Plotinus. Professor Dodds has provided a critical text based on a personal examination of some forty manuscripts, together with an English translation and a philosophical and linguistic commentary. First published in 1933, this second edition includes an Appendix of Addenda et Corrigenda and is widely regarded and respected as the definitive edition of the text today.

Souffles-Anfas Olivia C. Harrison, Teresa Villa-Ignacio, 2015-11-25 Souffles-Anfas: A Critical Anthology from the Moroccan Journal of Culture and Politics introduces and makes available, for the first time in English, an incandescent corpus of experimental leftist writing from North Africa. Founded in 1966

by Abdellatif Laâbi and a small group of avant-garde Moroccan poets and artists and banned in 1972, *Souffles-Anfas* was one of the most influential literary, cultural, and political reviews to emerge in postcolonial North Africa. An early forum for tricontinental postcolonial thought and writing, the journal published texts ranging from experimental poems, literary manifestos, and abstract art to political tracts, open letters, and interviews by contributors from the Maghreb, the Middle East, Africa, Europe, and the Americas. The essays, poems, and artwork included in this anthology—by the likes of Abdelkebir Khatibi, Tahar Ben Jelloun, Albert Memmi, Etel Adnan, Sembene Ousmane, René Depestre, and Mohamed Melehi—offer a unique window into the political and artistic imaginaries of writers and intellectuals from the Global South, and resonate with particular acuity in the wake of the Arab Spring. A critical introduction and section headnotes make this collection the perfect companion for courses in postcolonial theory, world literature, and poetry in translation.

The Renewal of Medieval Metaphysics Dragos Calma, Evan King, 2021-08-30
This is the first volume exclusively devoted to the *Expositio* by Berthold of Moosburg (c.1295-c.1361) on Proclus' *Elements of Theology*. The breadth of its vision surpasses every other known commentary on the *Elements of Theology*, for it seeks to present a coherent account of the Platonic tradition as such (unified through the concord of Proclus and Dionysius) and at the same time to consolidate and transform a legacy of metaphysics developed in the German-speaking lands by

Peripatetic authors (like Albert the Great, Ulrich of Strassburg, and Dietrich of Freiberg). This volume aims to provide a basis for further research and discussion of this unduly overlooked commentary, whose historical-philosophical importance as an attempt to refound Western metaphysics is beginning to be recognized. The publication of this volume has received the generous support of the European Research Council (ERC) under the European Union's Horizon 2020 research and innovation programme through the ERC Consolidator Grant Neoplat: A Comparative Analysis of the Middle East, Byzantium and the Latin West (9th-16th Centuries), grant agreement No 771640 (www.neoplat.eu). "[...] the volume displays various aspects of the richness hidden in this Commentary on Proclus: the contributions mentioned here are merely representative of such richness. Nonetheless, a desideratum of the research on Berthold remains a closer analysis of his polemical relations with his still unknown adversaries." -Giuseppe Thomas Vitale, Thomas-Institut der Universität zu Köln, Recherches de Théologie et Philosophie médiévales 89.2

Reading Proclus and the Book of Causes, Volume 3: On Causes and the Noetic Triad Dragos Calma, 2022-01-20 This

volume gathers contributions on key concepts elaborated in the Platonic tradition (Proclus, Plotinus, Porphyry or Sallustius) and reconsidered by Arabic (e.g. Avicenna, the Book of Causes), Byzantine (e.g. Maximus the Confessor, Ioane Petritsi) and Latin authors (e.g. Albert the Great, Thomas Aquinas etc.).

Global Private International Law Horatia Muir Watt,,Lucia Bíziková,Agatha Brandão de Oliveira,Diego P. Fernandez Arroyo, Providing a unique and clearly structured tool, this book presents an authoritative collection of carefully selected global case studies. Some of these are considered global due to their internationally relevant subject matter, whilst others demonstrate the blurring of traditional legal categories in an age of accelerated cross-border movement. The study of the selected cases in their political, cultural, social and economic contexts sheds light on the contemporary transformation of law through its encounter with conflicting forms of normativity and the multiplication of potential fora.

John Florio Lamberto Tassinari,2009

Jews and Protestants Irene Aue-Ben David,Aya

Elyada,Moshe Sluhovsky,Christian Wiese,2020-08-24 The book sheds light on various chapters in the long history of Protestant-Jewish relations, from the Reformation to the present. Going beyond questions of antisemitism and religious animosity, it aims to disentangle some of the intricate perceptions, interpretations, and emotions that have characterized contacts between Protestantism and Judaism, and between Jews and Protestants. While some papers in the book address Luther's antisemitism and the NS-Zeit, most papers broaden the scope of the investigation: Protestant-Jewish theological encounters shaped not only antisemitism but also the Jewish Reform movement and Protestant philosemitic post-Holocaust theology; interactions

between Jews and Protestants took place not only in the German lands but also in the wider Protestant universe; theology was crucial for the articulation of attitudes toward Jews, but music and philosophy were additional spheres of creativity that enabled the process of thinking through the relations between Judaism and Protestantism. By bringing together various contributions on these and other aspects, the book opens up directions for future research on this intricate topic, which bears both historical significance and evident relevance to our own time.
