The Illustrated Crystallary Maia Toll,2020-09-01 In the ancient world there were three medicine kingdoms: animal, vegetable, and mineral. Following her previous acclaimed volumes on animal (*The Illustrated Bestiary*) and vegetable (*The Illustrated Herbiary*), Maia Toll fulfills the call for mineral with *The Illustrated Crystallary*, exploring the mystical qualities of 36 fascinating crystals and minerals, including gold, silver, copper, amethyst, hematite, mica, smokey quartz, emerald, ruby, and more. Combining bits of ancient wisdom with her own insights, Toll illuminates the aspects and energy of each stone and, through rituals and reflections, the life guidance it might offer contemporary readers. Obsidian's shiny surface and sharp edges reflect the shadowy corners of the self and serve as the tool for cutting them loose. The sky-like color of earthly turquoise provides balance between opposing forces. Stunning illustrations by Kate O'Hara magnify the symbolism of each crystal and are also featured on 36 oracle cards included in an envelope bound in the back of the book. Also available: *The Illustrated Herbiary Collectible Box Set* and *The Illustrated Bestiary Collectible Box Set*

Art of the Catapult William Gurstelle,2004-07-01 Whether playing at defending their own castle or simply chucking pumpkins over a fence, wannabe marauders and tinkerers will become fast acquainted with Ludgar, the War Wolf, Ill Neighbor, Cabulus, and the Wild Donkey—ancient artillery devices known commonly as catapults. Building these simple yet sophisticated machines introduces fundamentals of math and physics using levers, force, torsion, tension, and traction. Instructions and diagrams illustrate how to build seven authentic working model catapults, including an early Greek ballista, a Roman onager, and the apex of catapult technology, the English trebuchet. Additional projects include learning how to lash and make rope and how to construct and use a hand sling and a staff sling. The colorful history of siege warfare is explored through the stories of Alexander the Great and his battle of Tyre; Saladin, Richard the Lionheart, and the Third Crusade; pirate-turned-soldier John Crabbe and his ship-mounted catapults; and Edward I of England and his battle against the Scots at Stirling Castle.

The Catapult Tracey Elizabeth Rihll,2007 A Major Contribution to the History of Technology and Ancient Warfare The most recognized military device of ancient times and the source of continued fascination and popular appeal, the catapult represented a major shift in the conduct of warfare. In *The Catapult: A History* historian Tracey Rihll uses ancient sources and the latest archaeological findings to tell the story of this first machine of war. Dispelling any notion that the catapult was precision engineered in the modern sense, the author explains how a robust formulaic design allowed a variety of machines and missiles to be built and used for particular battlefield conditions or military tasks. Complete with original illustrations, maps, and two appendices detailing both the formulas for catapult construction and known catapult remains, *The Catapult* is essential reading for those interested in the history of warfare and technology.

Catapult Vladimír Páral,1992 This twist on the Don Juan story examines the attractions and difficulties of freedom. In the course of his commute, Jacek Jost is suddenly catapulted out of his daily routine into a world of infinite opportunities.

Austenland Shannon Hale,2013-01-01 Jane is a young New York woman who can never seem to find the right man—perhaps because of her secret obsession with Mr. Darcy, as played by Colin Firth in the BBC adaptation of *Pride and Prejudice*. When a wealthy relative bequeaths her a trip to an English resort catering to Austen-obsessed women, however, Jane's fantasies of meeting the perfect Regency-era gentleman suddenly become more real than she ever could have imagined. Is this total immersion in a fake Austenland enough to make Jane kick the Austen obsession for good, or could all her dreams actually culminate in a Mr. Darcy of her own? In this addictive, charming and compassionate story, Shannon Hale brings out the Jane Austen obsessive in all of us.

Mr. Scruff Simon James, 2019-09-24 A sweetly silly story of a little boy and a dog who make an unlikely (but perhaps perfect) pair. Everyone knows that owners and their dogs belong together in a unique way. Polly belongs to Molly, Eric belongs to Derek, Berry belongs to Terry. But poor Mr. Scruff, alone in the rescue shelter, doesn't belong to anyone. Then a boy named Jim walks in, and they seem to get along. Jim and Mr. Scruff don't look anything alike, and their names certainly don't rhyme, but they may end up belonging to each other just the same. From author-illustrator Simon James comes a warm, winning story about friendship and finding a home.

What We Cannot Know Marcus Du Sautoy, 2016 Britain's most famous mathematician takes us to the edge of knowledge to show us what we cannot know. Is the universe infinite? Do we know what happened before the Big Bang? Where is human consciousness located in the brain? And are there more undiscovered particles out there, beyond the Higgs boson? In the modern world, science is king: weekly headlines proclaim the latest scientific breakthroughs and numerous mathematical problems, once indecipherable, have now been solved. But are there limits to what we can discover about our physical universe? In this very personal journey to the edges of knowledge, Marcus du Sautoy investigates how leading experts in fields from quantum physics and cosmology, to sensory perception and neuroscience, have articulated the current lie of the land. In doing so, he travels to the very boundaries of understanding, questioning contradictory stories and consulting cutting edge data. Is it possible that we will one day know everything? Or are there fields of research that will always lie beyond the bounds of human comprehension? And if so, how do we cope with living in a universe where there are things that will forever transcend our understanding? In *What We Cannot Know*, Marcus du Sautoy leads us on a thought-provoking expedition to the furthest reaches of modern science. Prepare to be taken to the edge of knowledge to find out if there's anything we truly cannot know.

History of Wolves Emily Fridlund, 2017-01-03 A teenage girl comes of age amid hidden dangers and family secrets in the Minnesota woods in this “beautiful, icy [and] electrifying debut” novel (NPR). Teenage Linda lives with her parents in the austere woods of northern Minnesota, where their nearly abandoned commune stands as a last vestige of a counter-culture world. Isolated at home and an outsider at school, Linda is drawn to the new history teacher Mr. Grierson. But his shocking arrest for child pornography leaves Linda adrift as she wrestles with her own fledgling desires. When the young Gardner family moves in across the lake, Linda finds herself welcomed into their home as a babysitter for their little boy. But this new sense of belonging comes with secrets and expectations she doesn't understand. Over the course of a summer, Linda will have to make choices that reverberate throughout her life. Fake Accounts Lauren Oyler, 2022-02-08 A NATIONAL BESTSELLER * A NEW YORK TIMES BOOK REVIEW EDITORS' CHOICE * A WASHINGTON POST BEST BOOK OF THE YEAR An invigorating work, deadly precise in its skewering of people, places and things . . . Stylish, despairing and very funny, *Fake Accounts* . . . adroitly maps the dwindling gap between the individual and the world. —Katie Kitamura, *The New York Times Book Review* A woman in a tailspin discovers that her boyfriend is an anonymous online

conspiracy theorist in this “absolutely brilliant take on the bizarre and despicable ways the internet has warped our perception of reality” (Elle, One of the Most Anticipated Books of the Year). On the eve of Donald Trump's inauguration, a young woman snoops through her boyfriend's phone and makes a startling discovery: he's an anonymous internet conspiracy theorist, and a popular one at that. Already fluent in internet fakery, irony, and outrage, she's not exactly shocked by the revelation. Actually, she's relieved--he was always a little distant--and she plots to end their floundering relationship while on a trip to the Women's March in DC. But this is only the first in a series of bizarre twists that expose a world whose truths are shaped by online lies. Suddenly left with no reason to stay in New York and increasingly alienated from her friends and colleagues, our unnamed narrator flees to Berlin, embarking on her own cycles of manipulation in the deceptive spaces of her daily life, from dating apps to expat meetups, open-plan offices to bureaucratic waiting rooms. She begins to think she can't trust anyone--shouldn't the feeling be mutual? Narrated with seductive confidence and subversive wit, Fake Accounts challenges the way current conversations about the self and community, delusions and gaslighting, and fiction and reality play out in the internet age.

Temptation Janos Szekely,2020-04-07 A Dickensian coming-of-age tale about poverty, sex, World War I, and the darker side of human nature as seen through the eyes of a lobby boy in a Budapest hotel. Temptation is a rediscovered masterwork of twentieth-century fiction, a Dickensian tale of a young man coming of age in Budapest between the wars. Illegitimate and unwanted, Béla is packed off to the country to be looked after by a peasant woman the moment he is born. She starves and bullies him, and keeps him out of school. He does his best to hold his own, and eventually his mother brings him back to live with her in the city. In thrall to his feckless father, Mishka, and living in a crowded tenement, she works her fingers to the bone, while Béla shares a room with a hardworking prostitute. Finally, Béla secures a job in a fancy hotel. Though exhausted by endless work, he is fascinated by the upper-crust world that his new job exposes him to; soon he is embroiled with a rich, damaged, and dangerous woman. The atmosphere of Budapest is increasingly poisoned by the appeal of fascism, while Béla grows ever more aware of how power and money keep down the working classes. In the end, with all the odds still against him, he musters the resolve to set sail for new future.
