Shadowlands: A Journey Through Britain's Lost Cities and Vanished Villages Matthew

Green, 2022-07-19 One of Literary Hub's Most Anticipated Books of 2022 A "brilliant London historian" (BBC Radio) tells the story of Britain as never before—through its abandoned villages and towns. Drowned. Buried by sand. Decimated by plague. Plunged off a cliff. This is the extraordinary tale of Britain's eerie and remarkable ghost towns and villages; shadowlands that once hummed with life. Peering through the cracks of history, we find Dunwich, a medieval city plunged off a cliff by sea storms; the abandoned village of Wharram Percy, wiped out by the Black Death; the lost city of Trellech unearthed by moles in 2002; and a Norfolk village zombified by the military and turned into a Nazi, Soviet, and Afghan village for training. Matthew Green, a British historian and broadcaster, tells the astonishing tales of the rise and demise of these places, animating the people who lived, worked, dreamed, and died there. Traveling across

Britain to explore their haunting and often-beautiful remains, Green transports the reader to these lost towns and cities as they teeter on the brink of oblivion, vividly capturing the sounds of the sea clawing away row upon row of houses, the taste of medieval wine, or the sights of puffin hunting on the tallest cliffs in the country. We experience them in their prime, look on at their destruction, and revisit their lingering remains as they are mourned by evictees and reimagined by artists, writers, and mavericks. A stunning and original excavation of Britain's untold history, *Shadowlands* gives us a truer sense of the progress and ravages of time, in a moment when many of our own settlements are threatened as never before.

Right is Wrong. Four Decades of Chinese Art from the M+ Sigg Collection Lars Nittve,Hans Olsson,Robin Peckham,Umeå universitet.

Bildmuseet,2014 Right is Wrong is an extremely concentrated contemporary art history narrated through a number of key works. It gives us the opportunity to look at the connections between art and society from the specificity of recent Chinese history by showing the development of the art scene in relation to the socio-political development in China. Right is Wrong raises questions about the relationship between art and contemporary life and contemporary history. It inquires about how art reflects or mirrors a society and simultaneously influences it, about how art not only reacts to and comments on events and incidents, but also is an agent shaping our future. This exhibition raises the question: what can art do? The relationship between art and society, art and ideology, art and politics, is the underlying theme which runs through Right is Wrong.0Exhibition: Bildmuseet, Umeå, Sweden (08.06-12.10.2014).

Irving Harper Michael Maharam,2013-02-12 An intimate monograph of the professional and personal creations of a midcentury design legend. Irving Harper is the most famous designer you have

never heard of. Working as an associate at the office of George Nelson in the 1950s and '60s, Harper was responsible for such icons of midcentury design as the Marshmallow sofa, the Ball clock, and numerous Herman Miller textile designs. Harper's unrecognized contribution to this seminal era of design, and his incredible paper sculptures (made in his spare time to relieve stress), are presented for the first time in this book. An essay by design critic Julie Lasky introduces Harper's commercial design work, recognizable designs from graphics to domestic goods to furniture that are still coveted and appreciated today, designed for the offices of Raymond Loewy, George Nelson, and then his own studio Harper + George. The second part of the book documents Harper's extensive paper sculptures, which have never been exhibited. More than three hundred works fill Harper's house and barn in Rye, New York, where this array of fantastical people and animal sculptures was created from modest and inexpensive materials as diverse as spaghetti and toothpicks in addition to paper. Images of Harper's home, filled with furniture and objects of his own design as well as his paper sculptures, offer a rare glimpse into a Modern design enthusiast's paradise. Offering insight into an important era of American design as well as the prolific output of a creative mind, this book promises to be the first to recognize Irving Harper's contribution to the field and will appeal to fans of Modern design.

The Ships of Christopher Columbus Xavier Pastor, 2005 1992 marked the 500th anniversary of the European discovery of the Americas by Christopher Columbus. Arcade Game Typography Toshi Omigari, 2019-11-05 The definitive survey of '70s, '80s, and early '90s arcade video game pixel typography. Arcade Game Typography presents readers with a fascinating new world of typography: the pixel typeface. Video game designers of the '70s, '80s, and '90s faced color and resolution limitations that stimulated incredible creativity. With each letter having to exist in a small pixel grid,

artists began to use clever techniques to create elegant character sets within a tiny canvas. This book presents typefaces on a dynamic and decorative grid, taking reference from high-end type specimens while adding a suitably playful twist. Arcade Game Typography recreates that visual aesthetic, fizzing with life and color. Featuring pixel typefaces carefully selected from the first decades of arcade video games, Arcade Game Typography presents a completist survey of a previously undocumented outsider typography movement, accompanied by insightful commentary from author Toshi Omagari, a Monotype typeface designer himself. Gathering an eclectic range of typography, from hit games such as Super Sprint, Marble Madness, and Space Harrier to countless lesser-known gems, Arcade Game Typography is a vivid nostalgia trip for gamers, designers, and illustrators alike.
