The Song of Achilles Madeline Miller, 2012-03-06 “At once a scholar’s homage to The Iliad and startlingly original work of art by an incredibly talented new novelist....A book I could not put down.” —Ann Patchett “Mary Renault lives again!” declares Emma Donoghue, author of Room, referring to The Song of Achilles, Madeline Miller’s thrilling, profoundly moving, and utterly unique retelling of the legend of Achilles and the Trojan War. A tale of gods, kings, immortal fame, and the human heart, The Song of Achilles is a dazzling literary feat that brilliantly reimagines Homer’s enduring masterwork, The Iliad. An action-packed adventure, an epic love story, a marvelously conceived and executed page-turner, Miller’s monumental debut novel has already earned resounding acclaim from some of contemporary fiction’s brightest lights—and fans of Mary Renault, Bernard Cornwell, Steven Pressfield, and Colleen McCullough’s Masters of Rome series will delight in this unforgettable journey back to ancient Greece in the Age of Heroes.

*Speedrun: The Unauthorised History of Sonic The Hedgehog* Julian Hazeldine, 2014-04 Sonic The Hedgehog was created to give Sega's Mega Drive a fighting chance against the market-dominating Nintendo. With Sega consoles now a distant memory, he's still running. But what gives the blue blur his staying power? Speedrun traces Sonic's entire history, from an artist's idle sketch to a multi-million pound videogame phenomenon. This book relives the highs; the hysteria of Sonic 2's-day and the dawn of the Dreamcast, and the lows; cancelled projects and Sega's near-bankruptcy. It also looks at the creative influences behind the hedgehog, and how a handful of minds have steered and directed his progress through the years. Whether your first adventure with Sonic was in the Green Hill Zone or on a smartphone, Speedrun is the definitive guide to gaming's fastest hero.

**Hacks for Fortnitters: Surviving the Final Circle** Jason R. Rich, 2018-10-23 In addition to the

Solo game play mode (which pits each gamer up against up to 99 others in a real-time battle), the Duos mode allows gamers to team up with one friend in a quest to defeat all other gamers during a match. Meanwhile, the Squads mode allows teams of four players to enter into a match and work together as they battle against up to 96 other gamers. The Duos and Squads game play modes are permanent features built into the game, and they've proven to be extremely popular, since Fortnite: Battle Royale is, for the most part, cross-platform compatible. Thus, someone experiencing the game on a PS4 can team up with a PC user, for example, to play against a random section of other gamers, in real-time. An Encyclopedia of Strategies for Fortnitters: Duos and Squads Strategies will be the first book in this unofficial strategy guide series to offer in-depth coverage of Fortnite: Battle Royale's team-oriented game play modes. Thus, this unofficial strategy guide will be chock full of proven strategies and game play tips designed to help teams achieve victory in the Fortnite: Battle Royale matches they participate in. This expanded (approximately 176-page) guide will include a comprehensive overview of the Fortnite: Battle Royale game, with a special focus on the game's team-oriented game play modes. The full-color book will appeal to readers age 8 and up, regardless of which gaming platform they're using. Throughout each match, gamers must: Focus on survival Avoid the deadly storm Explore the island Gather resources Build structures and fortresses Find, collect, and utilize weapons and ammunition Acquire and use loot items Engage in combat against enemy soldiers with the goal of becoming the last person alive at the end of the match When experiencing any of the team-oriented game play modes, cooperative gameplay (teamwork) and communication with team members become vital. An Encyclopedia of Duos and Squads Strategies will soon be an indispensable resource for gamers experiencing the Duos or Squads game play modes (or any of the other team-oriented game play modes added to Fortnite: Battle Royale on a

temporary basis).

**Fake It 'Til You Break It** Meagan Brandy, 2023-06-08 Fake. That's what we are. That's what we agreed to be. So why does it feel so real? I thought it would have been harder, convincing everyone our school's star receiver was mine and mine alone, but I was wrong. We played our parts so well that the lines between us began to blur until they disappeared completely. The thing about pretending, though, someone's always better at it, and by the time I realized my mistake, there was no going back. I fell for our lie. And then everything fell apart. It turned out he and I were never playing the same game. He didn't have to break me to win. But he did it anyway.

**Song of the Summer King** Jess E. Owen, 2012-06-01 The first book in the award-winning Summer King Chronicles. A great read for fans of Wings of Fire, Warrior Cats, and the Lion King. As the last of his kind in a gryphon pride ruled by the conquering Red Kings, Shard has always known his destiny is merely to survive. He must strive to keep up with larger, stronger, crueler gryphons in order to earn his place as a warrior, or face exile. While on the dangerous initiation hunt that will either make or ruin him, Shard desperately takes the unexpected advice of a strange she-wolf who seeks him out, and hints that Shard's past is not all that it seems. Drawn to learn more, Shard risks the future he wants by making allies of creatures most gryphons call enemies, and learning ancient skills forbidden by the conquering kings. Secrets of his family, the Conquering, and perhaps even his own destiny begin to reveal themselves. When the gryphon king declares open war on the wolves Shard has befriended, it throws his past and uncertain future into the turmoil between. Now with battle lines drawn, Shard must decide whether to fight beside his own king . . . or against him.

A Decent Death Stephen Eisenstein, 2018-08-24 David Stern is a prisoner of the state somewhere in England in 2046. He was a health economist, fallen into disgrace from the heights of international

acclaim for his work in achieving Assisted Dying - a decent death - for all who wish it in all modern economies. He had hoped that this humanitarian action would also solve the financial crisis facing these countries because of the costs of the expensive elderly. Dementia was the most common and single most expensive illness. Stern had a personal stake here; a father with dementia. His crime, qualifying as treason, was his campaign against a radical 'final solution' international Treaty for disposing of all the elderly, a Treaty justified on the basis of Stern's academic publications. The irony is that Stern has an impeccable Holocaust family history. The manuscript consists of Stern's reminiscences written in prison awaiting trial and certain execution, in the face of his own slowly failing memory. While the content is serious and appropriately topical, the style is intentionally comedic. The action, such as it is, plays out in London, Bristol, Oxford, Berlin, Windhoek, and Manchester.

Interweaving interviews with the special effects experts, costume designers, makeup artists and the cast, Jody Revenson shows fans how the magic happens, revealing the unique filming techniques used to change particular characters' sizes, such as a giant Hagrid and Madame Maxime, as well as special makeup processes that created the look of Harry's Stinging Hex and Peter Pettigrew's rat-like visage. Featured throughout are intriguing profiles of the special makeup effects artists who share the most memorable effects they've used to transform ordinary actors into their extraordinary fictional counterparts. Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
