*Amazing South Carolina* ,2020-05-12 *Amazing South Carolina: A Coloring Book Journey Through Our 46 Counties* is a delightful, one-of-a-kind book designed to engage youngsters and adult coloring book enthusiasts in learning about the unique character of our nation's eighth state. Every county in South Carolina is featured with an appealing illustration of its iconic and lesser-known sites--historical, geographical, topographical, industrial and commercial, and more. Companion text identifies and provides context for the pictured elements. The book provides a comprehensive educational snapshot of all that is special about the Palmetto State. From the colonial plantations of the Upstate to the picturesque marshes of the Lowcountry and the lazy Edisto River meandering its way through the state; from big cities like Columbia and Greenville to the vibrant coastal communities of Charleston and Beaufort, South Carolina is as beautiful and historic as it is diverse. *Amazing South Carolina* highlights that diversity and celebrates some of Laura Murray's favorite discoveries around the state.

**Sicily '43** James Holland,2020 Codenamed Operation HUSKY, the Allied assault on Sicily on 10 July 1943 remains the largest amphibious invasion ever mounted in world history. Based on battlefield studies in Sicily and on new research the author offers a perspective on this major turning point in World War II

Climate Capitalism L. Hunter Lovins, Boyd Cohen, 2011-04-12 Believe in climate change. Or don't. It doesn't matter. But you'd better understand this: the best route to rebuilding our economy, our cities, and our job markets, as well as assuring national security, is doing precisely what you would do if you were scared to death about climate change. Whether you're the head of a household or the CEO of a multinational corporation, embracing efficiency, innovation, renewables, carbon markets, and new technologies is the smartest decision you can make. It's the most profitable, too. And, oh yes—you'll help save the planet. In *Climate Capitalism*, L. Hunter Lovins, coauthor of the bestselling *Natural Capitalism*, and the sustainability expert Boyd Cohen prove that the future of capitalism in a recession-riddled, carbon-constrained world will be built on innovations that cutting-edge leaders are bringing to the market today. These companies are creating jobs and driving innovation. *Climate Capitalism* delivers hundreds of indepth case studies of international corporations, small businesses, NGOs, and municipalities to prove that energy efficiency and renewable resources are already driving prosperity. While highlighting business opportunities across a range of sectors—including energy, construction, transportation, and agriculture technologies—Lovins and Cohen also show why the ex-CIA director Jim Woolsey drives a solar-powered plugin hybrid vehicle. His bumper sticker says it all: Osama bin Laden hates my car. Corporate executives, entrepreneurs, environmentalists, and concerned citizens alike will find

profitable ideas within these pages. In ten information-packed chapters, *Climate Capitalism* gives tangible examples of early adopters across the globe who see that the low-carbon economy leads to increased profits and economic growth. It offers a clear and concise road map to the new energy economy and a cooler planet.

**Amazing Alabama** ,2017-11 A collection of facts about the state of Alabama.

*Book of British Common Sense* Al Murray,2008-09 We live in an age of waffle, mumbo-jumbo and bad thinking. We're forever being fed dodgy information by so-called experts, scientists, opinion-makers, politicians, journalists and jumped-up little graduates. Their combined bad thinking includes: \*the idea that no one should win in running races at school, in case the losers get upset \*the idea that owning a house in France is a decent way to spend your money \*the idea that we should all talk about our feelings and that would make things better \*speed cameras \*mineral water \*hummus \*and the fact that everyone reckons they've got asthma. Why do we believe this nonsense? Because, as a nation we've forgotten the basic elements of common sense. Thank God then for Al Murray. Together with the collecting thoughts of his locals, he's here to put good old-fashioned British common sense back where it belongs.

**Tomorrow's Capitalist** Alan Murray,2022-05-10 The Next Big Idea Club, Best Leadership Books of 2022 In an era of political and cultural extremism, America's corporate leaders have emerged as the pragmatic center of a

movement for social and economic progress. The core tenets of a capitalist system that dominated the world for more than a century are being challenged as never before. Narratives about the failures of capitalism, the greed of the 1 percent, and the blindness of corporations to public need have made their mark and are driving change. These aren't the superficial cosmetic fixes that generated so much cynicism in the past, but a revolution in the way corporations are imagined and run. Tomorrow's Capitalist reveals how corporate CEOs—the ultimate pragmatists—realized that they could lose their “operating license” unless they tackle the fundamental issues of our time: climate, diversity and inclusion, and inequality and workforce opportunity. Responding to their employees and customers who are demanding corporate change, they have taken the lead in establishing the bold new principles of stakeholder capitalism, ensuring that for the first time in more than a half a century it is not just shareholders who have a say in how corporations are run. Alan Murray vividly captures the zeitgeist of the real and compelling dynamic that is transforming much of the corporate world.

*The Laughing Soldier* R. Sheppard, 2011-03-24 A witty collection that celebrates the strength to find humor even in the most challenging circumstances—with proceeds benefiting veterans. Britain's armed forces have a legendary sense of humor, dating back over generations of servicemen and women. *The Laughing Soldier*, aiding the veterans' charity Project 65, is a collection of jokes, along with messages of support for the troops, sent in

by people all over the world. Contributors include serving personnel, veterans and their families, the general public, celebrities such as Alan Titchmarsh, comedian Milton Jones, and public officials including George Osborne, all inspired by the Armed Forces' strength and capacity for finding humor in the toughest of situations. With forewords by satirist Al Murray, a.k.a. the Pub Landlord, and ex-marine Mark Ormrod, the Afghanistan hero who lost three limbs to a landmine and bestselling author of Man Down, and illustrated with cartoons by The Comic Stripper, The Laughing Soldier's collection of jokes will lift the spirits of servicemembers and their families—and those who care about them. A donation is made to Project 65 from the sale of every book.

My Kind of Cooking Mark Sargeant, 2011-09-27 MY KIND OF COOKING is Mark Sargeant's exciting introduction to food that few people usually consider, or have the confidence to cook. It is also a very personal book with Mark applying his Michelin-starred skills to childhood, favourite, fun and newly developed dishes. MY KIND OF COOKING concentrates on the cheaper cuts of meat and types of fish, giving cooking techniques and 120 recipes to get the best out of them. Supermarkets are starting to introduce cheaper style cuts of meat - now you will find things like oxtail and beef flank in the meat aisles, and Waitrose are even putting pigs trotters on the shelves. Mark Sargeant shows us how to use fantastic pieces of meat, with recipes that make them as delicious and tender as the prime cuts, at a less than prime price.

He also utilizes a lot of cheaper, and sustainable, fish which are becoming more widely available. The current financial climate means we've all had to tighten our belts, but this doesn't mean we need to forego fabulous and tasty food. 'Sarge' is passionate about getting the best out of the best produce, getting back to basics in the kitchen and showing that everyone can delight their palate whilst watching the pennies.

*A Pattern Language* Christopher Alexander, 2018-09-20 You can use this book to design a house for yourself with your family; you can use it to work with your neighbors to improve your town and neighborhood; you can use it to design an office, or a workshop, or a public building. And you can use it to guide you in the actual process of construction. After a ten-year silence, Christopher Alexander and his colleagues at the Center for Environmental Structure are now publishing a major statement in the form of three books which will, in their words, lay the basis for an entirely new approach to architecture, building and planning, which will we hope replace existing ideas and practices entirely. The three books are *The Timeless Way of Building*, *The Oregon Experiment*, and this book, *A Pattern Language*. At the core of these books is the idea that people should design for themselves their own houses, streets, and communities. This idea may be radical (it implies a radical transformation of the architectural profession) but it comes simply from the observation that most of the wonderful places of the world were not made by architects but by the people. At the core of the

books, too, is the point that in designing their environments people always rely on certain languages, which, like the languages we speak, allow them to articulate and communicate an infinite variety of designs within a forma system which gives them coherence. This book provides a language of this kind. It will enable a person to make a design for almost any kind of building, or any part of the built environment. Patterns, the units of this language, are answers to design problems (How high should a window sill be? How many stories should a building have? How much space in a neighborhood should be devoted to grass and trees?). More than 250 of the patterns in this pattern language are given: each consists of a problem statement, a discussion of the problem with an illustration, and a solution. As the authors say in their introduction, many of the patterns are archetypal, so deeply rooted in the nature of things that it seemly likely that they will be a part of human nature, and human action, as much in five hundred years as they are today.

**Al Murray the Pub Landlord Says Think Yourself British** Al Murray, 2009-09 Al Murray's BOOK OF BRITISH COMMON SENSE helped Great Britain get back on her

feet by providing an injection of Common Sense to counteract all the balls and waffle we've been subjected to in this once great nation of ours. Now he's back, and he's turning his attention to You. The Pub Landlord knows that you, like so many others in Broken Britain, need help to Help Yourselves. Which is why he has stepped out from behind the taps once again and written (well, dictated, be reasonable) this Help Yourself book, Think Yourself British. The guiding principle of Helping Yourself is this: in order to take one step forward, we must first take two steps backwards. Because you will only truly know that you are moving forwards if you have first seen what it's like to go backwards. And once you have read Think Yourself British you will undoubtedly become one of the most backwards people you know. **The Strange Death of Europe** Douglas Murray, 2018-06-14 The Strange Death of Europe is the internationally bestselling account of a continent and a culture caught in the act of suicide, now updated with new material taking in developments since it was first published to huge acclaim. These include rapid changes in the dynamics of global politics, world leadership and terror

attacks across Europe. Douglas Murray travels across Europe to examine first-hand how mass immigration, cultivated self-distrust and delusion have contributed to a continent in the grips of its own demise. From the shores of Lampedusa to migrant camps in Greece, from Cologne to London, he looks critically at the factors that have come together to make Europeans unable to argue for themselves and incapable of resisting their alteration as a society. Murray's tremendous and shattering book (The Times) addresses the disappointing failures of multiculturalism, Angela Merkel's U-turn on migration, the lack of repatriation and the Western fixation on guilt, uncovering the malaise at the very heart of the European culture. His conclusion is bleak, but the predictions not irrevocable. As Murray argues, this may be our last chance to change the outcome, before it's too late.

**Black & White & Weird All Over: The Lost Photographs of "weird Al" Yankovic '83 - '86** Jon "bermuda" Schwartz, 2020-10-27 Weird Al Yankovic is one of music's most beloved figures. A skilled accordion player and songwriter, the California native is known for his meticulous parodies of popular songs, hilarious originals, and, of course, for upbeat polkas! For much of Al's career, one man has been by his side, photographing and documenting the fun and weirdness: longtime drummer Jon Bermuda Schwartz. Since meeting Al in 1980, Jon has taken more than 20,000 images of Al in his element: on tour, in the studio, and on video sets. **Black & White & Weird All Over** presents hundreds of images of Al, culled from Jon's personal collection of black-and-white photography. These photos only existed on contact sheets - out of mind and out of sight - until now! From behind-the-scenes shots taken on the sets of Al's iconic videos for Ricky, I Love Rocky Road, Eat It, and Living With A Hernia, to studio sessions for Al's Dare to Be Stupid and Polka Party! LPs, **Black & White & Weird All Over** is the ultimate photographic essay of Weird Al's undisputed comedic genius.
