**Show Your Work!** Austin Kleon,2015-11-04 Kata Edgar Allan Poe, sebagian besar penulis takut jika proses berkaryanya diketahui orang lain. Sementara itu, Pablo Picasso kerap membuat orang yang berkomunikasi dengannya justru kehilangan energi dan motivasi berkarya. Ya, keduanya memang maestro legendaris, tapi sekarang bukan saatnya lagi berkarya ala mereka. Bukan juga zamannya Mozart sang genius musik. Ini eranya kamu, siapa pun kamu, bisa berkarya! Lalu, apa kuncinya? Tunjukkan saja. Di zaman keterbukaan ini, semua orang punya kesempatan sama untuk jadi hebat. Jangan sembunyikan proses kreatifmu. Undang orang-orang untuk melihatnya. Jangan khawatir kritik, karena itu bahan pelajaran buatmu. Ide yang menurutmu tidak menarik, siapa tahu luar biasa bagi orang lain. Lebih dari itu, karyamu juga bisa menginspirasi orang lain. Jadi, tunggu apa lagi? Tak perlu ragu atau malu. Berbagi karya membuatmu kaya! ... Semakin banyak kamu memberi, semakin banyak yang kembali kepadamu.-Paul Arden [Mizan, Noura Books, Karya, Hidup, Berkarya, Kerja, Indonesia]

*The Echo Maker* Richard Powers,2007-04-01 Winner of the National Book Award From the Pulitzer Prize-winning author of *The Overstory* and the Oprah's Book Club selection *Bewilderment* comes Richard Powers's *The Echo Maker*, a powerful novel about family and loss. "Wise and elegant . . . The mysteries unfold so organically and stealthily that you are unaware of his machinations until they come to stunning fruition . . . Powers accomplishes something magnificent." -Colson Whitehead, *The New York Times Book Review* On a winter night on a remote Nebraska road, twenty-seven-year-old Mark Schluter has a near-fatal car accident. His older sister, Karin, returns reluctantly to their hometown to nurse Mark back from a traumatic head injury. But when Mark emerges from a coma, he believes that this woman-who looks, acts, and sounds just like his sister-is really an imposter. When Karin contacts the famous cognitive neurologist Gerald Weber for help, he diagnoses Mark as having Capgras syndrome. The mysterious nature of the disease, combined with the strange circumstances surrounding Mark's accident, threatens to change all of their lives beyond recognition. **Transforming the Workforce for Children Birth Through Age 8** National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success,2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking

at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Men and Apparitions Lynne Tillman, 2018-03-01 Today we live in a "glut of images." What does that mean? *Men and Apparitions* takes on a central question of our era through the wild musings and eventful life of Ezekiel Hooper Stark, cultural anthropologist, ethnographer, specialist in family photographs. We are the Picture People. I name us Picture People because most special and obvious about the species is, our kind lives on and for pictures, lives as and for images, our species takes pictures, makes pix, thinks in pix. What is behind the human drive to create, remake, and keep images from and of everything? What does it mean that we now live in a "glut of images?" *Men and Apparitions* takes on a central question of our era through the wild musings and eventful life of Ezekiel Hooper Stark, cultural anthropologist, ethnographer, specialist in family photographs. As Ezekiel progresses from a child obsessed with his family's photo albums to a young and passionate researcher to a man devastated by betrayal in love, his academic fascinations determine and reflect his course, touching on such various subjects as discarded images, pet pictures, spirit mediums, the tragic life of his long-dead cousin the semi-famous socialite Clover Adams, and the nature of contemporary masculinity. Kaleidoscopic and encyclopedic, madcap and wry, this book that showcases Lynne Tillman not only as a brilliant original novelist but also as one of our most prominent thinkers on culture and visual culture today.

*Artful Sentences* Virginia Tufte, 2006 In *Artful Sentences: Syntax as Style*, Virginia Tufte shows how standard sentence patterns and forms contribute to meaning and art in more than a thousand wonderful sentences from the twentieth and twenty-first centuries. The book has special interest for aspiring writers, students of literature and language, and anyone who finds joy in reading and writing.--Publisher's description.

*Pictures from Home* Larry Sultan, 2017 First published in 1992 to wide critical acclaim, *Pictures From Home* is Larry Sultan's pendant to his parents. Sultan returned home to Southern California periodically in the 1980s and the decade-long sequence moves between registers, combining contemporary photographs with film stills from home movies, fragments of conversation, Sultan's own writings and other memorabilia. The result is a narrative collage in which the boundary between the documentary and the staged becomes increasingly ambiguous. Simultaneously the distance usually maintained between the photographer and his subjects also slips in an exchange of dialogue and emotion that is unique to this work. Significantly increasing the page count of the original book, this MACK design of *Pictures From Home* clarifies the multiplicity of voices – both textual and pictorial – in order to afford a fresh perspective of this seminal body of work -- Provided by the publisher.

*How to Fail: Everything I've Ever Learned from Things Going Wrong* Elizabeth Day, 2020-07-17 Inspired by her hugely popular podcast, *How To Fail* is Elizabeth Day's brilliantly funny, painfully honest and insightful celebration of things going wrong. This is a book for anyone who has ever failed. Which means it's a book for everyone. If I have learned one thing from this shockingly beautiful venture called life, it is this: failure has taught me lessons I would never otherwise have understood. I have evolved more as a result of things going wrong than when everything seemed to be going right. Out of crisis has come clarity, and sometimes even catharsis. Part memoir, part manifesto, and including chapters on dating, work, sport, babies, families, anger and friendship, it is based on the simple premise that understanding why we fail ultimately makes us stronger. It's a book about learning from our mistakes and about not being afraid. Uplifting, inspiring and rich in stories from Elizabeth's own life, *How to Fail* reveals that failure is not what defines us; rather it is how we respond to it that shapes us as individuals. Because learning how to fail is actually learning how to succeed better. And everyone needs a bit of that.
