Functional Training and Beyond Adam Sinicki,2021-01-19 Train Like a Superhero

"I recommend this book to all personal trainers, training geeks, and people who just want to learn about different training methods and philosophies." —JC Santana, author of *Functional Training #1* New Release in Weight Training Body and Brain Training

Designed to Unlock Your Amazing Hidden Potential Inactive and stressful lifestyles. Many of us have forgotten how to move correctly. We live with muscular imbalances, constant pain, and low energy. Adam Sinicki is on a mission to change this. He is best known for his YouTube channel "The Bioneer", where he provides expertise on functional training, brain training, productivity, flow states, and more. Become better than just functional. Currently popular functional training is exercise as rehabilitation. It aims to restore normal, healthy strength and mobility using compound and multi-faceted movements. In *Functional Training and Beyond*, Adam reveals how we can become "better than just functional." We can improve not only our physical performance but also our mental state. We can train so that we move better, think more clearly, feel energetic, and even live more efficiently. An entirely new way to train. Up until now working out has been defined as having one of two goals—get bigger or get leaner. But why are those the only goals? What if there was a third, practical, healthy and exciting way to train our body as well as our mind? *Functional Training and Beyond* shows us how we can train our brains just like our bodies, and how to incorporate this into a comprehensive, well-rounded program. In *Functional Training and Beyond*:

- Enjoy the unique benefits of new ways to train your body and your mind
- Learn how to train for greater mobility, less pain, improved mood, and increased energy
- Explore the fun of training with kettlebells, calisthenics, clubbells, street workouts, animal moves, handstands, rope climbs, isometrics, and more

Fans of books such as *Overcoming Gravity*, *You Are Your Own Gym*, *The World's Fittest Book*, *New Functional Training for Sports*, or *Calisthenics for Beginners* will discover a new and better way to train both their bodies and minds in *Functional Training and Beyond*.

Unseeing Empire Bakirathi Mani,2020-10-26 In *Unseeing Empire* Bakirathi Mani examines how empire continues to haunt South Asian American visual cultures. Weaving close readings of fine art together with archival research and ethnographic fieldwork at museums and galleries across South Asia and North America, Mani outlines the visual and affective relationships between South Asian diasporic artists, their photographic work, and their viewers. She notes that the desire for South Asian Americans to see visual representations of themselves is rooted in the use of photography as a form of colonial documentation and surveillance. She examines fine art photography by South Asian diasporic artists who employ aesthetic strategies such as duplication and alteration that run counter to viewers' demands for greater visibility. These works fail to deliver on viewers' desires to see themselves, producing instead feelings of alienation, estrangement, and loss. These feelings, Mani contends, allow viewers to question their own visibility as South Asian Americans in U.S. public culture and to reflect on their desires to be represented.

Beautiful Bodies Uroš Mati?,2022-03-15 This book explores the role of material culture in the formation of corporeal aesthetics and beauty ideals in different past societies and thus contributes to the cultural relativization of bodily aesthetics and related gender norms. The volume does not explore beauty for the sake of beauty, but extensively explores how it serves to form and keep gender norms in place. The concept of beauty has been a topic of interest for some time, yet it is only in recent times that archaeologists

have begun to approach beauty as a culturally contingent and socially constructed phenomenon. Although archaeologists and ancient historians extensively dealt with gender, they dealt less with it in relation to beauty. The contributions in this volume deal with different intersections of gender and corporeal aesthetics by turning to rich archaeological, textual and iconographic data from ancient Sumer, Aegean Bronze Age, ancient Egypt, ancient Athens, Roman provinces, the Viking world and the Qajar Iran. Beauty thus moves away from a curiosity and surface of the body to an analytic concept for a better understanding of past and present societies.
