Why We Get Sick Benjamin Bikman,2020-07-21 A scientist reveals the groundbreaking evidence linking many major diseases, including cancer, diabetes, and Alzheimer's disease, to a common root cause—insulin resistance—and shares an easy, effective plan to reverse and prevent it. We are sick. Around the world, we struggle with diseases that were once considered rare. Cancer, heart disease, Alzheimer's disease, and diabetes affect millions each year; many people are also struggling with hypertension, weight gain, fatty liver, dementia, low testosterone, menstrual irregularities and infertility, and more. We treat the symptoms, not realizing that all of these diseases and disorders have something in common. Each of them is caused or made worse by a condition known as insulin resistance. And you might have it. Odds are you do—over half of all adults in the United States are insulin resistant, with most other countries either worse or not far behind. In *Why We Get Sick*, internationally renowned scientist and pathophysiology professor Benjamin Bikman explores why insulin resistance has become so prevalent and why it matters. Unless we recognize it and take steps to reverse the trend, major chronic diseases will be even more widespread. But reversing insulin resistance is possible, and Bikman offers an evidence-based plan to stop and prevent it, with helpful food lists, meal suggestions, easy exercise principles, and more. Full of surprising research and practical advice, *Why We Get Sick* will help you to take control of your health.

A Common Treasury Gerrard Winstanley,2011-03-14 At the end of the English Civil War, Gerrard Winstanley and his comrades, known as Diggers, went to St. George's Hill, to farm the common land and to distribute the food for free amongst themselves. Winstanley's extraordinary writings from this period have remained a huge influence for many on the Left and are cited as some of the earliest examples of communist thought. Legendary voice of the Left Tony Benn examines Winstanley's work and argues that, as we face an ever greater enclosure of the commons, he can still inspire us to turn our world upside down.

And I Alone Escaped to Tell You Sylvia Hamilton,2014 The settlement of African peoples in Nova Scotia is a richly layered story encompassing many waves of settlement and diverse circumstances-from captives to 'freedom runners' who sailed north from the United States with hopes of establishing a new life. The poems in *And I Alone Escaped to Tell You* endeavour to give these historical events a human voice, blending documentary material, memory, experience and imagination to evoke the lives of these early Black Nova Scotians and of the generations that followed. This collection is a moving meditation on the place of African-descended people in the Canadian story and on the threads connecting all of us to the African diaspora. Finalist for the 2015 Gerald Lampert Memorial Award for Poetry.

Sun Bear Matthew Zapruder,2014-04-11 The fourth collection from the celebrated American poet and editor, Matthew Zapruder. Matthew Zapruder's poems begin in the faint inkling, in the bloom of thought, and then unfold into wide-reaching meditations on what it means to live in the contemporary moment, among plastic, statistics, and diet soda. Written in a direct, conversational style, the poems in *Sun Bear* display full-force why Zapruder is one of the most popular poets in America. From "I Drink Bronze Light": Great American summer lakes right now I am flying above you

through a rare cloudless transparent sky back to the city where it is always cold even in summer the round hole I press my face against shows only a blue expanse with white sails below speckled exactly the way the Aegean would have been three thousand years ago if one could have seen it from above maybe riding in the dark claw of a god who didn't care. . . .

Why Poetry Matthew Zapruder,2017-08-15 An impassioned call for a return to reading poetry and an incisive argument for poetry's accessibility to all readers, by critically acclaimed poet Matthew Zapruder In Why Poetry, award-winning poet Matthew Zapruder takes on what it is that poetry—and poetry alone—can do. Zapruder argues that the way we have been taught to read poetry is the very thing that prevents us from enjoying it. In lively, lilting prose, he shows us how that misunderstanding interferes with our direct experience of poetry and creates the sense of confusion or inadequacy that many of us feel when faced with it. Zapruder explores what poems are, and how we can read them, so that we can, as Whitman wrote, “possess the origin of all poems,” without the aid of any teacher or expert. Most important, he asks how reading poetry can help us to lead our lives with greater meaning and purpose. Anchored in poetic analysis and steered through Zapruder's personal experience of coming to the form, Why Poetry is engaging and conversational, even as it makes a passionate argument for the necessity of poetry in an age when information is constantly being mistaken for knowledge. While he provides a simple reading method for approaching poems and illuminates concepts like associative movement, metaphor, and negative capability, Zapruder explicitly confronts the obstacles that readers face when they encounter poetry to show us that poetry can be read, and enjoyed, by anyone.
