*Just Managing?* Mark O'Brien, Paul Kyprianou, 2017-05-29 The 'just about managing'. 'Hardworking families'. 'Alarm-clock Britain'. In recent years British political discourse has been filled with these slogans, as politicians claim to speak on behalf of families who are in work, but struggling to get by. This book allows us to hear from some of these families directly. At a time when the impact of austerity is more relevant than ever, *Just Managing?* cuts through the debates and sloganeering to give some of the real people behind the headlines and statistics a chance to tell their stories. It tracks the lives of thirty working families in Liverpool over one year, as they struggle to manage on incomes at or around the National Minimum Wage. Their accounts are placed within the economic and political context that has shaped their experiences and that of millions of other working families across the country. This book is required reading for anyone seeking to understand what life is like at the sharp end of 'austerity Britain'.

**Restaging the Past** Angela Bartie, Linda Fleming, Mark Freeman, Alexander Hutton, Paul Readman, 2020-08-17 *Restaging the Past* is the first edited collection devoted to the study of historical pageants in Britain, ranging from their Edwardian origins to the present day. Across Britain in the twentieth century, people succumbed to 'pageant fever'. Thousands dressed up in historical costumes and performed scenes from the history of the places where they lived, and hundreds of thousands more watched them. These pageants were one of the most significant aspects of popular engagement with the past between the 1900s and the 1970s: they took place in large cities, small towns and tiny villages, and engaged a whole range of different organised groups, including Women's Institutes, political parties, schools, churches and youth organisations. Pageants were community events, bringing large numbers of people together in a shared celebration and performance of the past; they also involved many prominent novelists, professional historians and other writers, as well as featuring repeatedly in popular and highbrow literature. Although the pageant tradition has largely died out, it deserves to be acknowledged as a key aspect of community history during a period of great social and political change. Indeed, as this book shows, some traces of 'pageant fever' remain in evidence today.

**New Britain** Tony Blair, 2004-04-09 *New Britain* presents Tony Blair on all the major debates of British public life: from nationalized health care to crime prevention, from the welfare state to monetary policy, from religion to family values, from individualism to isolationism, from taxation to trade unions, from NATO to Northern Ireland, from community rebirth to economic growth. After seventeen years of Conservative Party rule under Margaret Thatcher and John Major, a change in Great Britain's leadership appears imminent. In Blair's *Stakeholder Nation*, government works in partnership with private and voluntary sectors to harness the power of the market to serve the public interest. In *New Britain*, we read in Blair's own articulate words how to improve the standard of living of all Britain's families; how to base a new social order on merit, commitment, and inclusion; how to decentralize British institutions of political power; and how to expand Britain's leadership in foreign affairs.

*All Gates Open* Rob Young, Irmin Schmidt, 2018-05-01 *All Gates Open* presents the definitive story of arguably the most influential and revered avant-garde band of the late twentieth century: CAN. It consists of two books. In Book One, Rob Young gives us the full biography of a band that emerged at the vanguard of what would come to be called the Krautrock scene in late sixties Cologne. With Irmin Schmidt and Holger Czukay - two classically trained students of Stockhausen - at the heart of the band, CAN's studio and live performances burned an incendiary trail through the decade that followed: and left a legacy that is still reverberating today in hip hop, post rock, ambient, and countless other genres. Rob Young's account draws on unique interviews with all founding members of CAN, as well as their vocalists, friends and music industry associates. And he revisits the music, which is still deliriously innovative and unclassifiable more than four decades on. *All Gates Open* is a portrait of a group who worked with visionary intensity and belief, outside the system and inside their own inner space. Book Two, *Can Kiosk*, has been assembled by Irmin Schmidt, founding member and guiding spirit of the band, as a 'collage' - a technique long associated with CAN's approach to recording. There is an oral history of the band drawing on interviews that Irmin made with musicians who see CAN as an influence - such as Bobby Gillespie, Geoff Barrow, Daniel Miller, and many others. There are also interviews with artists and filmmakers like Wim Wenders and John Malkovich, where Schmidt reflects on more personal matters and his work with film. Extracts of Schmidt's notebook and diaries from 2013-14 are also reproduced as a reflection on the creative process, and the memories, dreams, and epiphanies it entails. *Can Kiosk* offers further perspectives on a band that have inspired several generations of musicians and filmmakers in the voices of the artists themselves. CAN were unique, and their legacy is articulated in two books in this volume with the depth, rigour, originality, and intensity associated with the band itself. It is illustrated throughout with previously unseen art, photographs, and ephemera from the band's archive.

**Uncreative Writing** Kenneth Goldsmith, 2011-09-20 Can techniques traditionally thought to be outside the scope of literature, including word processing, databasing, identity ciphering, and intensive programming, inspire the reinvention of writing? The Internet and the digital environment present writers with new challenges and opportunities to reconceive creativity, authorship, and their relationship to language. Confronted with an unprecedented amount of texts and language, writers have the opportunity to move beyond the creation of new texts and manage, parse, appropriate, and reconstruct those that already exist. In addition to explaining his concept of uncreative writing, which is also the name of his popular course at the University of Pennsylvania, Goldsmith reads the work of writers who have taken up this challenge. Examining a wide range of texts and techniques, including the use of Google searches to create poetry, the appropriation of courtroom testimony, and the possibility of robo-poetics, Goldsmith joins this recent work to practices that date back to the early twentieth century. Writers and artists such as Walter Benjamin, Gertrude Stein, James Joyce, and Andy Warhol embodied an ethos in which the construction or conception of a text was just as important as the resultant text itself. By extending this tradition into the digital realm, uncreative writing offers new ways of thinking about identity and the making of meaning.

**Engines of Privilege** David Kynaston, Francis Green, 2019-02-07 A rigorous, compelling and balanced examination of the British public school system and the inequalities it entrenches. Private schools are institutions that children who are already privileged attend and have those privileges further entrenched, almost certainly for life, through a high-quality, richly-resourced education. *The Engines of Privilege* contends that in a society that mouths the virtues of equality of opportunity, of fairness and of social cohesion, the continuation of this educational apartheid amounts to an act of national self-harm that does all of us serious damage. Intrinsic to any vision of the future of Britain has to be the nature of our educational system. Yet the quality of conversation on

the issue of private education remains surprisingly sterile, patchy and highly subjective. Accessible, evidence-based and inclusive, *Engines of Privilege* aims to kick-start a long overdue national debate. Clear, vigorous prose is combined with forensic analysis to compelling effect, illuminating the painful contrast between the importance of private schools in British society and the near-absence of serious, policy-making debate, above all on the left.

Art & Visual Culture 1600-1850: Academy to Avant-Garde Emma Barker, 2013-09-05 An innovative exploration of art and visual culture. Through carefully chosen themes and topics rather than through a general survey, the volumes approach the process of looking at works of art in terms of their audiences, functions and cross-cultural contexts. While focused on painting, sculpture and architecture, it also explores a wide range of visual culture in a variety of media and methods. 1600-1850 Academy to Avant-Garde interrogates labels used in standard histories of the art of this period (Baroque, Rococo, Neo-Classicism and Romanticism) and examines both established and recent art-historical methodologies, including formalism, iconology, spectatorship and reception, identity and difference. Key topics include Baroque Rome, Dutch Painting of the Golden Age, Georgian London, the Paris Salon, and the impact of the discovery of the South Pacific. From their humble beginnings to international stardom, via the wilderness years, this is Zippy, George and Bungle's fascinating autobiography. Here, for the very first time, is the inside story of what really happened at the beginning, middle and end of their Rainbow.

Art of the Islands Michelle P. Brown, 2016 The Celtic, Pictish, Anglo-Saxon and Viking peoples who inhabited the British Isles and Ireland from late prehistory to the Norman Conquest left a rich visual heritage whose influence continues to be felt. This is the first book to present an illustrated overview of the early art of the British and Irish archipelago during one of the most formative periods in its history. It explores the interaction between its inhabitants, along with the formation of national and regional identities, through the lens of visual culture. Leading expert Michelle P. Brown explains the historical context within which key artworks of the period were made and used, ranging across works as diverse as the Book of Kells, the Tara Brooch, the Aberlemno Stones, the Lindisfarne Gospels, the Alfred Jewel and the Benedictional of St Ethelwold, and examines the ways in which their complex imagery can be interpreted. She also considers the impact of the art of this period upon the history of art in general, helping to inform both the Carolingian renaissance, the Romanesque and, from the late nineteenth century, the Arts and Crafts and Art Nouveau movements. Fusing history, art history, archaeology and literary studies, and fully illustrated throughout, this is a ground-breaking guide to a fascinating and complex period in which northern Europe journeyed from late Antiquity into the Middle Ages.

Margaret Thatcher Charles Moore, 2013-04-25 Not For Turning is the first volume of Charles Moore's authorized biography of Margaret Thatcher, the longest serving Prime Minister of the twentieth century and one of the most influential political figures of the postwar era. Charles Moore's biography of Margaret Thatcher, published after her death on 8 April 2013, immediately supercedes all earlier books written about her. At the moment when she becomes a historical figure, this book also makes her into a three dimensional one for the first time. It gives unparalleled insight into her early life and formation, especially through her extensive correspondence with her sister, which Moore is the first author to draw on. It recreates brilliantly the atmosphere of British politics as she was making her way, and takes her up to what was arguably the zenith of her power, victory in the Falklands. (This volume ends with the Falklands Dinner in Downing Street in November 1982.) Moore is clearly an admirer of his subject, but he does not shy away from criticising her or identifying weaknesses and mistakes where he feels it is justified. Based on unrestricted access to all Lady Thatcher's papers, unpublished interviews with her and all her major colleagues, this is the indispensable, fully rounded portrait of a towering figure of our times.

*Differences* Ignasi De Sola-Morales, 1997-01-07 Differences brings together ten essays written over the past decade by the distinguished Spanish architect and theorist Ignasi de Solà-Morales. Differences brings together ten essays written over the past decade by the distinguished Spanish architect and theorist Ignasi de Sola-Morales. Many of the essays have never previously been translated, and the author has provided a new introduction especially for this English edition. Contemplating the panorama of contemporary art and architecture, de Sola-Morales posits that there is no one way to describe today's practice; instead he concentrates on elucidating the present dynamic of contrast, diversity, and tension. In an unorthodox pairing, de Sola-Morales derives his inspiration from both phenomenology and Deleuzian poststructuralism. Combining these philosophical inheritances allows him to reinvokethe human subject without referring to classical humanism or announcing the death of the object. His retrospective review of the disciplines of art and architecture, particularly as they have developed since World War II, provokes him to design, draft, and ultimately build a description of Modernism's lineage of subjectivity. The result is a provocative construction of fluid topographies that articulate, rather than depict, the shaky ground on which our current artistic and architectural production rests. The essays: Sado-masochism: Criticism and Architectural Practice. Topographies of Contemporary Architecture. Mies van der Rohe and Minimalism. Architecture and Existentialism. Weak Architecture. From Autonomy to Untimeliness. Place: Permanence or Production. Difference and Limit: Individualism in Contemporary Architecture. High-Tech: Functionalism or Rhetoric. The Work of Architecture in the Age of Mechanical Reproduction.
