Practical Ethics Peter Singer,2011-02-21 For thirty years, Peter Singer's Practical Ethics has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

Badluck Way Bryce Andrews,2014-01-07 “Much more than a coming-of-age story, Badluck Way is an important meditation on what it means to share space and breathe the same air as truly wild animals, and the necessary damage that can occur when boundaries are crossed” (Tom Groneberg, author of *The Secret Life of Cowboys*). In this gripping memoir of a young man, a wolf, their parallel lives and ultimate collision, Bryce Andrews describes life on the remote, windswept Sun Ranch in southwest Montana. The Sun’s twenty thousand acres of rangeland occupy a still-wild corner of southwest Montana—a high valley surrounded by mountain ranges and steep creeks with portentous names like Grizzly and Bad Luck. Just over the border from Yellowstone National Park, the Sun holds giant herds of cattle and elk amid many predators—bears, mountain lions, and wolves. In lyrical, haunting language, Andrews recounts marathon days and nights of building fences, riding, roping, and otherwise learning the hard business of caring for cattle, an initiation that changes him from an idealistic city kid into a skilled ranch hand. But when wolves suddenly begin killing the ranch’s cattle, Andrews has to shoulder a rifle, chase the pack, and do what he’d hoped he would never have to do. Called “an elegant memoir” by the Great Falls Tribune, Badluck Way is about transformation and complications, about living with dirty hands every day. It is about the hard choices that wake us at night and take a lifetime to reconcile. Above all, Badluck Way celebrates the breathtaking beauty of wilderness and the satisfaction of hard work on some of the harshest, most beautiful land in the world.

Ninth House Leigh Bardugo,2019-10-08 The best fantasy novel I’ve read in years, because it’s about real people... Impossible to put down. —Stephen King The smash New York Times bestseller from Leigh Bardugo, a mesmerizing tale of power, privilege, and dark magic set among the Ivy League elite. Goodreads Choice Award Winner Locus Finalist Galaxy “Alex” Stern is the most unlikely member of Yale’s freshman class. Raised in the Los Angeles hinterlands by a hippie mom, Alex dropped out of school early and into a world of shady drug-dealer boyfriends, dead-end jobs, and much, much worse. In fact, by age twenty, she is the sole survivor of a horrific, unsolved multiple homicide. Some might say she’s thrown her life away. But at her hospital bed, Alex is offered a second chance: to attend one of the world’s most prestigious universities on a full ride. What’s the catch, and why her? Still searching for answers, Alex arrives in New Haven tasked by her mysterious benefactors with monitoring the activities of Yale’s secret societies. Their eight windowless “tombs” are the well-known haunts of the rich and powerful, from high-ranking politicians to Wall Street’s biggest players. But their occult activities are more sinister and more extraordinary than any paranoid imagination might conceive. They tamper with forbidden magic. They raise the dead. And, sometimes, they prey on the living. Don't miss the highly-anticipated sequel, *Hell Bent*.

Hacker, Hoaxer, Whistleblower, Spy Gabriella Coleman,2015-10-06 The ultimate book on the worldwide movement of hackers, pranksters, and activists collectively known as Anonymous—by the writer the Huffington Post says “knows all of Anonymous’ deepest, darkest secrets” “A work of anthropology that sometimes echoes a John le Carré novel.” —Wired Half a dozen years ago, anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption (before Anonymous shot to fame as a key player in the battles over WikiLeaks, the Arab Spring, and Occupy Wall Street). She ended up becoming so closely connected to Anonymous that the tricky story of her inside-outside status as Anon confidante, interpreter, and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book. The narrative brims with details unearthed from within a notoriously mysterious subculture, whose semi-legendary tricksters—such as Topyari, tflow, Anachaos, and Sabu—emerge as complex, diverse, politically and culturally sophisticated people. Propelled by years of chats and encounters with a multitude of hackers, including imprisoned activist Jeremy Hammond and the double agent who helped put him away, Hector Monsegur, Hacker, Hoaxer, Whistleblower, Spy is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age, including the history of “trolling,” the ethics and metaphysics of hacking, and the origins and manifold meanings of “the lulz.”

The Traitor God Cameron Johnston,2018-06-05 A city threatened by unimaginable horrors must trust their most hated outcast—or lose everything—in this crushing epic fantasy debut After ten years on the run, dodging daemons and debt, reviled magician Edrin Walker returns home to avenge the brutal murder of his friend. Lynas had uncovered a terrible secret, something that threatened to devour the entire city. He tried to warn the Arcanum, the sorcerers who rule the city . . . He failed. Lynas was skinned alive and Walker felt every cut. Now, nothing will stop him from finding the murderer. Magi, mortals, daemons, and even the gods—Walker will burn them all if he has to. After all, it wouldn’t be the first time he’s killed a god.

The Waterfront Journals David Wojnarowicz,1997 Before his death from AIDS in 1992, David Wojnarowicz became known in the 1980s as an outspoken AIDS activist, anticensorship advocate, artist, and writer. Written as short monologues, each of these powerful, early works of autobiographical fiction is spoken in the voice of a character he stumbles upon during travels throughout America.

The Mushroom at the End of the World Anna Lowenhaupt Tsing,2017-09-19 What a rare mushroom can teach us about sustaining life on a fragile planet Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, matsutake helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, matsutake offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of the World* presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.

Zodiac Robert Graysmith,2020-05-05 Robert Graysmith’s New York Times bestselling account of the desperate hunt for a serial killer and his own investigation of California’s unsolved Zodiac murders. A sexual sadist, the Zodiac killer took pleasure in torture and murder. His first victims were a teenage couple, stalked and shot dead in a lovers’ lane. After another slaying, he sent his first mocking note to authorities, promising he would kill more. The official tally of his victims was six. He claimed thirty-seven dead. The real toll may have reached fifty. Robert Graysmith was on staff at the San Francisco Chronicle in 1969 when Zodiac first struck, triggering in the resolute reporter an unrelenting obsession with seeing the hooded killer brought to justice. In this gripping account of Zodiac’s eleven-month reign of terror, Graysmith reveals hundreds of facts previously unreleased, including the complete text of the killer’s letters.

Artificial Hells Claire Bishop,2012-07-24 Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an audience to take part an artist can promote new emancipatory social relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato Thompson, to performance theorists such as Shannon Jackson. *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art, known in the US as social practice. Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary

artists such as Thomas Hirschhorn, Tania Bruguera, Paweł Althamer and Paul Chan. Since her controversial essay in Artforum in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In Artificial Hells, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. Artificial Hells calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.

Neon Prey John Sandford,2020-03-31 Lucas Davenport tracks a prolific serial killer in the newest nail-biter by #1 New York Times-bestselling author John Sandford. Clayton Deese looks like a small-time criminal, muscle for hire when his loan shark boss needs to teach someone a lesson. Now, seven months after a job that went south and landed him in jail, Deese has skipped out on bail, and the U.S. Marshals come looking for him. They don't much care about a low-level guy--it's his boss they want--but Deese might be their best chance to bring down the whole operation. Then, they step onto a dirt trail behind Deese's rural Louisiana cabin and find a jungle full of graves. Now Lucas Davenport is on the trail of a serial killer who has been operating for years without notice. His quarry is ruthless, and--as Davenport will come to find--full of surprises . . .

Love Goes to Buildings on Fire Will Hermes,2012-09-04 Chronicles five epochal years of music in the Big Apple against a backdrop of the period's high crime, limited government resources and low rents, tracing the formations of key sounds while evaluating the contributions of such artists as Willie Colón, Bruce Springsteen and Grandmaster Flash.

The Family Nobody Wanted Helen Doss,2014-12-01 Doss's charming, touching, and at times hilarious chronicle tells how each of the children, representing white, Chinese, Japanese, Filipino, Korean, Mexican, and Native American backgrounds, came to her and husband Carl, a Methodist minister. She writes of the way the unwanted feeling was erased with devoted love and understanding and how the children united into one happy family. Her account reads like a novel, with scenes of hard times and triumphs described in vivid prose. The Family Nobody Wanted, which inspired two films, opened doors for other adoptive families and was a popular favorite among parents, young adults, and children for more than thirty years. Now this edition will introduce the classic to a new generation of readers. An epilogue by Helen Doss that updates the family's progress since 1954 will delight the book's loyal legion of fans around the world.

Waiting for the Apocalypse: A Memoir of Faith and Family Veronica Chater,2009-02-02 Growing up Catholic in a family where the reforms of Vatican II are seen as the work of Satan. It is 1972, and Veronica Chater's parents believe that Vatican II's liberalization has corrupted the Catholic Church, inviting the Holy Chastisement—an apocalypse prophesied by three shepherds in Fatima, Portugal. To spare his family this horror, Veronica's father quits the highway patrol, sells everything, and moves the family of eight from California to an isolated village near Fatima. But Portugal is no Catholic utopia, and the family schleps home penniless to join the nascent Catholic counterrevolution: attending the Latin Mass in truck garages and abandoned buildings, serving meals to religious soldiers, breeding a new member of the faithful every year. As Veronica comes of age on the fringes of the American Dream, she rebels against a fanaticism that forbids anything modern—clothes, movies, or music. This is the story, both sad and funny, of a family torn apart by religion and brought back together in spite of the injuries it inflicted on itself.

The Old Pike Thomas Brownfield Searight,1894

Life After Life Kate Atkinson,2013-04-02 What if you could live again and again, until you got it right? On a cold and snowy night in 1910, Ursula Todd is born to an English banker and his wife. She dies before she can draw her first breath. On that same cold and snowy night, Ursula Todd is born, lets out a lusty wail, and embarks upon a life that will be, to say the least, unusual. For as she grows, she also dies, repeatedly, in a variety of ways, while the young century marches on towards its second cataclysmic world war. Does Ursula's apparently infinite number of lives give her the power to save the world from its inevitable destiny? And if she can -- will she? Darkly comic, startlingly poignant, and utterly original: this is Kate Atkinson at her absolute best.

Social Relations in Our Southern States Daniel Hundley,2008-10

Under the Net Iris Murdoch,1977-10-27 Iris Murdoch's debut—a comic novel about work and love, wealth and fame Jake Donaghue, garrulous artist, meets Hugo Bellfounder, silent philosopher. Jake, hack writer and sponger, now penniless flat-hunter, seeks out an old girlfriend, Anna Quentin, and her glamorous actress sister, Sadie. He resumes acquaintance with the formidable Hugo, whose ‘philosophy’ he once presumptuously dared to interpret. These meetings involve Jake and his eccentric servant-companion, Finn, in a series of adventures that include the kidnapping of a film-star dog and a political riot on a film set of ancient Rome. Jake, fascinated, longs to learn Hugo’s secret. Perhaps Hugo’s secret is Hugo himself? Admonished, enlightened, Jake hopes at last to become a real writer.

A Psalm for the Wild-Built Becky Chambers,2021-07-13 Winner of the Hugo Award! In A Psalm for the Wild-Built, bestselling Becky Chambers's delightful new Monk and Robot series, gives us hope for the future. It's been centuries since the robots of Panga gained self-awareness and laid down their tools; centuries since they wandered, en masse, into the wilderness, never to be seen again; centuries since they faded into myth and urban legend. One day, the life of a tea monk is upended by the arrival of a robot, there to honor the old promise of checking in. The robot cannot go back until the question of what do people need? is answered. But the answer to that question depends on who you ask, and how. They're going to need to ask it a lot. Becky Chambers's new series asks: in a world where people have what they want, does having more matter? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
