Objects: USA 2020 Glenn Adamson, 2020-10-27

Objects: USA 2020 hails a new generation of artist-craftspeople by revisiting a groundbreaking event that redefined American art. In 1969, an exhibition opened at the Smithsonian Institution that redefined American art. Objects: USA united a cohort of artists inventing new approaches to art-making by way of craft media. Subsequently touring to twenty-two museums across the country, where it was viewed by over half a million Americans, and then to eleven cities in Europe, the exhibition canonized such artists as Anni Albers, Sheila Hicks, Wharton Esherick, Wendell Castle, and George Nakashima, and introduced others who would go on to achieve widespread art-world acclaim, including Dale Chihuly, Michele Oka Doner, J. B. Blunk, and Ron Nagle. Objects: USA 2020 revisits this revolutionary exhibition and its accompanying catalog--which has become a bible of sorts to curators, gallerists, dealers, craftspeople, and artists--by pairing fifty participants from the original exhibition with fifty contemporary artists representing the next generation of practitioners to use--and upend--the traditional methods and materials of craft to create new forms of art. Published to coincide with an exhibition of the same title at the renowned gallery R & Company, and featuring essays by some of the foremost authorities on craft at the intersection of art, including Glenn Adamson, curator and former director of the Museum of Arts & Design; James Zemaitis, curator and former head of twentieth-century design at Sotheby's; and Lena

Vigna, curator of exhibitions at the Racine Art Museum; an interview with Paul J. Smith, the cocurator of Objects: USA; archival photographs of the original exhibition and important historical works; and lush full-color images of contemporary works, Objects: USA 2020 is an essential art historical reference that traces how craft was elevated to the status of museum-quality art, and sets its trajectory forward.

Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the

lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

School for Extraterrestrial Girls #1 Jeremy Whitley,2020-08-04 Tara Smith's parents are super

strict with all their rules and routines, and Tara is a dutiful daughter. Rule #1: No friends her own age. Rule #2: keep her bracelet on, or else. But when she breaks her routine—and then loses her bracelet—she's in trouble. Now outed as an extraterrestrial after wielding fire and losing her humanoid form, Tara is captured by the government. She's given two options: get shipped far away where she won't be a danger to anyone or stay on Earth and join a school for other extraterrestrial girls like her. Things at the school aren't easy—especially for the girl whose only friends were textbooks. But Tara's goal to learn how to control her powers is soon sidelined by the discovery that the people she's called Mom and Dad all these years aren't her parents. With her not-parents still out there, Tara must rely on others for the first time to figure out who she really is before she's kidnapped a second time.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as

America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
