Wannsee House and the Holocaust Steven Lehrer, 2015-07-11 Although Hitler's extermination of the Jews was well underway by the end of 1941, it was at the Wannsee Conference of January 1942 that Reinhard Heydrich officially announced the Nazi's infamous final solution. This conference was held at a luxurious villa, and both house and conference have a fascinating history. This book traces that history from 1914--the year that saw the foundations laid for both the house and the Holocaust--to the present. Appendices provide a wealth of historical documents.

Vibrant Metropolis, Idyllic Nature Ernst Ludwig Kirchner, Kunsthau Zürich, 2017 Ernst Ludwig Kirchner's move from Dresden to Berlin in 1911 marked a turning point in his art. Under the influence of the most modern metropolis in Europe, during the years between 1912 and 1915 the artist created works whose exaggerated and condensed style could be regarded as a true metaphor for the attitude to life during the early years of the twentieth century. During this time of rapid change the capital of the German Empire promised progress and countless opportunities, but also danger and profound e

xistential fear. The city was not only the centre of industry, which continued to grow unchecked, but also of increasing motorised traffic and, with three million inhabitants, it was the biggest city of tenement blocks in Europe. But Berlin was also the metropolis of the arts, of hedonism, prostitution and accordingly of a sexuality that could be lived to the full as never before. Berlin vibrated with challenging energy and intellectual challenges. In this melting pot of opportunities and risks Kirchner created pictures of breathless, existential directness which he launched unerringly at the conventions of the Wilhelminian age. The main area of focus of the publication will lie on this dialectic and the resulting tension. It will reproduce Kirchner's greatest masterpieces, and in order to demonstrate the profound changes in his style, a representative selection of his early works from Dresden will also be shown alongside the paintings, drawings and prints from the time in Berlin.

"No One Else Has These Colors" Ernst Ludwig Kirchner, 2012 Ernst Ludwig Kirchner (1880-1938) dazzled prewar Germany with his electrifying color palette and impassioned, jagged brushwork. Kirchner depicted Berlin and the majestic mountainscapes of Davos with an intensity never before seen in German art, and when we think of his paintings it is this sense of expressive force that first comes to mind (after all, Kirchner's Die Brücke group made their name with the declaration that they would express what urges them to create, directly and without adulteration). It is perhaps for this reason that Kirchner is more rarely considered as the careful technician he was. Kirchner's Paintings: No One Else Has These Colors provides the first treatment of the artist's working process, his methods and techniques, with evaluations of his comments on color schemes and painting techniques and

scientific analyses of individual works.--Publisher description.

The Viking Age Angus A. Somerville,R. Andrew McDonald,2019-11-20 In this extensively revised third edition of *The Viking Age: A Reader*, Somerville and McDonald successfully bring the Vikings and their world to life for twenty-first-century students and instructors. The diversity of the Viking era is revealed through the remarkable range and variety of sources presented as well as the geographical and chronological coverage of the readings. The third edition has been reorganized into fifteen chapters. Many sources have been added, including material on gender and warrior women, and a completely new final chapter traces the continuing cultural influence of the Vikings to the present day. The use of visual material has been expanded, and updated maps illustrate historical developments throughout the Viking Age. The English translations of Norse texts, many of them new to this collection, are straightforward and easily accessible, while chapter introductions contextualize the readings.

The Rough Guide Book of Playlists Mark Ellingham, 2007 This second edition of the Rough Guide Book of Playlists contains more than 500 lists of which 50 are new to this edition. The lists are recommendations of ten songs (sometimes a couple more, sometimes a couple less), covering artists (Rufus Wainwright to Thelonius Monk, Al Green to Manu Chao, Glenn Gould to Julie Andrews), genres (Bebop Classics to Reggae Toasters to Punk Originals to Hot Club jazz), songs (10 best Dylan covers; 8 classic versions of Summertime; 10 love songs that don't cloy), quirks and silliness (Songs about Chickens and Insects; Who let the frogs out?; Big Pizza Pie crooners; Take this Job and Shove it!). There's even a literary edge with playlists like '10 songs raved about in Murakami novels'. Each of the Playlists has a nugget about the song (why you want it on your iPod), and a listings of where it's from (remember CDs?).

The Great Lakes Water Wars Peter Annin, 2009-08-25 The Great Lakes are the largest collection of fresh surface water on earth, and more than 40 million Americans and Canadians live in their basin. Will we divert water from the Great Lakes, causing them to end up like Central Asia's Aral Sea, which

has lost 90 percent of its surface area and 75 percent of its volume since 1960? Or will we come to see that unregulated water withdrawals are ultimately catastrophic? Peter Annin writes a fast-paced account of the people and stories behind these upcoming battles. Destined to be the definitive story for the general public as well as policymakers, *The Great Lakes Water Wars* is a balanced, comprehensive look behind the scenes at the conflicts and compromises that are the past-and future-of this unique resource.

The House on Paradise Street Sofka Zinovieff, 2013-01-01 In 2008 Antigone Perifanis returns to her old family home in Athens after 60 years in exile. She has come to attend the funeral of her only son, Nikitas, who was born in prison, and whom she has not seen since she left him as a baby. At the same time, Nikitas's English widow Maud – disturbed by her husband's strange behaviour in the days before his death – starts to investigate his complicated past. She soon finds herself reigniting a bitter family feud, and discovers a heartbreaking story of a young mother caught up in the political tides of the Greek Civil War, forced to make a terrible decision that will blight not only her life but that of future

generations...

Scottish Lighthouse Pioneers Paul A. Lynn,2017 This is a personal story about some of the most famous engineers Scotland has ever produced and places the lives and work of the world-famous Stevenson lighthouse engineers in their social and historical context. It draws on eye witness accounts from Sir Walter Scott and Robert Louis Stevenson.

Almost Hap Klopp,Brian Tarcy,2015-05 In Silicon Valley, people routinely dream of changing the world. Some do so. Many more almost do. Almost. It is such a Silicon Valley word. This is the story and lessons learned from 12 electric months in the life of a dreamy San Francisco startup that once thought it would be bought by a technology giant and also seemed on the verge of becoming a

nationally-known brand. Neither happened, and the lessons are poignant. Almost...the word hurts the soul. So much effort falling into oblivion. And it keeps happening again and again, this amazing effort that seems part of the DNA of Silicon Valley. Why? What is it there that makes it seem essential to swing for the fences? What is Silicon Valley really like? Here is a fascinating 12-month snapshot inside of one company that almost changed the world.
