Mao Zedong Louise Chipley Slavicek,2004-01-01 Mao supported the 1911 Revolution and became one of the founders of the Chinese Communist Party in 1921. Mao's rule over China from the establishment of the People's Republic of China in 1949 to his death in 1976 defined the Chinese nation in his lifetime.

Selected Works of Mao Zedong Mao Zedong,2014-04-28 Mao Zedong (December 26, 1893 - September 9, 1976), was a Chinese Communist revolutionary and the founding father of the People's Republic of China, which he governed as Chairman of the Communist Party of China from its establishment in 1949 until his death in 1976. His Marxist-Leninist theories, military strategies and political policies are collectively known as Maoism or Mao Zedong Thought. These are the Selected Works published by the Marx-Engels-Lenin Institute: -Analysis of the Classes in Chinese Society 13 -Report on an Investigation of the Peasant Movement in Hunan - Be Concerned with the Well-Being of the Masses, Pay Attention to Methods of Work -On Guerilla Warfare -On Practice -On Contradiction -Combat Liberalism -On Protracted War

Mao Zedong Delia Davin,2011-10-24 Mao Zedong, first chairman of the People's Republic of China, one of the founders of the Chinese Communist Party, and the architect of the Cultural Revolution, was active in Chinese politics for most of his eighty-two years, and became one of the most important revolutionary figures in the twentieth century. He spent the 1920s and 1930s struggling to build the Chinese Communist Party. After the establishment of the People's Republic, he strove to impose his vision of socialism on his impoverished country, convinced that if the power of the people could be harnessed, China could become an economically successful and egalitarian country. The Great Leap Forward which he initiated was, however, a disaster resulting in millions of deaths. Mao used the Cultural Revolution to re-impose his authority; his critics were persecuted and a personality cult was fostered. His 'Little Red Book' sold over 740 million copies. This book offers the reader a powerful insight into the life and work of this intriguing man.

How the “Red Star” Rose Ishikawa Yoshihiro,2022-01-30 The fact that Snow did not sneak into “red China” to gather information constituting the basis of his Red Start over China all alone is in many instances misunderstood even by scholars. Mao Zedong’s biography has been the subject of an international mountain of commentary in China and elsewhere. Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow’s (1905–1972) account in Red Star over China for the route Mao traveled from early childhood through his youth. How the “Red Star” Rose introduces the image of Mao and the biographical information made known to the world through the publication of Red Star, and with its publication the circumstances which they fundamentally undermined. Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being. He desires to help readers to reconsider the historicity of the generation of not only Mao’s image but of that of “historical materials.” ----- With a title that evokes Gao Hua’s seminal study of Mao Zedong’s rise in the Chinese Communist Party, Ishikawa Yoshihiro asks two critical questions—What did the world know of Mao before the publication of Edgar Snow’s Red Star over China? How did Red Star change that understanding? With the meticulous research, careful documentation, and fair-minded judgment that characterizes all of Ishikawa’s work, he shows how little even Moscow and the Communist International knew about Mao before 1936. This study is full of unexpected insights into the origins of early visual images of Mao, the background to Snow’s historic trip to northern Shaanxi, and the evolution of the classic study that he left. In a world where balanced judgment of the rise of Mao is increasingly difficult to find, Ishikawa’s scholarship stands out as a rare model of judicious balance. —Joseph W. Esherick, Emeritus Professor, Hwei-chih and Julia Hsiu Chair in Chinese Studies, University of California, San Diego This book is, first, an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century, a text that broke through a wall of intelligence blockade to give to the world, in an autobiographical voice and with a striking image, the debut of the revolutionary Mao while holed up in a mountain base area. It is, in addition, a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter. Ishikawa captures a moment of a past gearing up in anticipation of a future that never came. This book is a must-read for all with an interest in Mao, journalism, and the history of books. —Wen-hsin Yeh, Richard H. and Laurie C. Morrison Chair Professor in History, University of California, Berkeley Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow’s famous biography in 1936 and then how Snow’s images of Mao were translated, and transmuted, into Chinese, Russian and Japanese. Joshua Fogel’s careful translation brings this impeccable example of Japanese sinology to the English reading public. —Timothy Cheek, Professor and Louis Cha Chair in Chinese Research, University of British Columbia

Mao Zedong Maurice Meisner,2006-12-22 Revolutionary and ruler, Marxist and nationalist, liberator and despot, Mao Zedong takes a place among the iconic leaders of the twentieth century. In this book, Maurice Meisner offers a balanced portrait of the man who defined modern China. From his role as leader of a communist revolution in a war-torn and largely rural country to the disasters of the Great Leap Forward and the Cultural Revolution, the relationship between Mao's ideas and his political action is highly disputed. With unparalleled authority, Meisner shows how Mao's unique sinification of Marxism provides the key to looking at this extraordinary political career. The first part of the book is devoted to Mao's revolutionary leadership before 1949, in particular the influence of the liberal and anarchist ideas of the May Fourth era, his discovery of Marxism, Leninism and his conviction that peasants held the potential for revolution. In the second part, Meisner analyses Mao's early successes as a nationalist unifier and modernizer, the failure of his socialism and his eventual transformation into a tyrant.
