Impact Cratering G. R. Osinski,E. Pierazzo,2012-12-26 Impact cratering is arguably the most ubiquitous geological process in the Solar System. It has played an important role in Earth's history, shaping the geological landscape, affecting the evolution of life, and generating economic resources. However, it was only in the latter half of the 20th century that the importance of impact cratering as a geological process was recognized and only during the past couple of decades that the study of meteorite impact structures has moved into the mainstream. This book seeks to fill a critical gap in the literature by providing an overview text covering broad aspects of the impact cratering process and aimed at graduate students, professionals and researchers alike. It introduces readers to the threat and nature of impactors, the impact cratering process, the products, and the effects – both destructive and beneficial. A series of chapters on the various techniques used to study impact craters provide a foundation for anyone studying impact craters for the first time.

Starport (Graphic Novel) George R. R. Martin,2019-03-12 Law & Order meets Men in Black in this graphic novel adaptation of an unproduced TV pilot script by the author of A Game of Thrones—a never-before-seen story brought to life for the first time! SECOND CITY. FIRST CONTACT. Ten years ago, representatives from an interstellar collective of 314 alien species landed on Earth, inviting us to become number 315. Now, after seemingly endless delays, the Starport in Chicago is operational, a destination for diplomats, merchants, and tourists alike. Inside, visitors are governed by intergalactic treaty. Outside, the streets belong to Chicago's finest. Charlie Baker, newly promoted to the squad that oversees the Starport district, is eager to put to practical use his enthusiasm for all things extraterrestrial; he just never expected to arrive on his first day in the back of a police cruiser. Lieutenant Bobbi Kelleher is married to the job, which often puts her in conflict with Lyhanne Nhar-Lys, security champion of Starport and one of the galaxy's fiercest warriors. Undercover with a gang of anti-alien extremists, Detective Aaron Stein has no problem mixing business with pleasure—until he stumbles upon evidence of a plot to assassinate a controversial trade envoy with a cache of stolen ray guns. Now the Chicago PD must stop these nutjobs before they piss off the entire universe. Based on a TV pilot script written by George R. R. Martin in 1994 and adapted and illustrated by Hugo Award–nominated artist Raya Golden, this bold and brilliant graphic novel adaptation at last brings Martin's singular vision to rollicking life. With all the intrigue, ingenuity, and atmosphere that made A Game of Thrones a worldwide phenomenon, Starport launches a new chapter in the career of a sci-fi/fantasy superstar.

Rosie Revere, Engineer Andrea Beaty, 2013-09-03 New York Times Bestseller Rosie may seem quiet during the day, but at night she's a brilliant inventor of gizmos and gadgets who dreams of becoming a great engineer. When her great-great-aunt Rose (Rosie the Riveter) comes for a visit and mentions her one unfinished goal—to fly—Rosie sets to work building a contraption to make her aunt's dream come true. But when her contraption doesn't fly but rather hovers for a moment and then crashes, Rosie deems the invention a failure. On the contrary, Aunt Rose insists that Rosie's contraption was a raging success: you can only truly fail, she explains, if you quit. From the powerhouse author-illustrator team of Iggy Peck, Architect comes Rosie Revere, Engineer, another charming, witty picture book about believing in yourself and pursuing your passion. Ada Twist, Scientist, the companion picture book featuring the next kid from Iggy Peck's class, is available in September 2016.!--?xml:namespace prefix = o ns = urn:schemas-microsoft-com:office:office /-- Praise for Rosie Revere, Engineer Comically detailed mixed-media illustrations that keep the mood light and emphasize Rosie's creativity at every turn.—Publishers Weekly The detritus of Rosie's collections is fascinating, from broken dolls and stuffed animals to nails, tools, pencils, old lamps and possibly an erector set. And cheddar-cheese spray. —Kirkus Reviews This celebration of creativity and perseverance is told through rhyming text, which gives momentum and steady pacing to a story, consistent with the celebration of its heroine, Rosie. She's an imaginative thinker who hides her light under a bushel (well, really, the bed) after being laughed at for one of her inventions. —Booklist Award 2013 Parents' Choice Award - GOLD 2014 Amelia Bloomer Project List Read Boston's Best Read Aloud Book

Active and Programmable Networks David Hutchison, Spyros Denazis, Laurent Lefevre, Gary J. Minden, 2009-04-07 This volume contains the proceedings of the 7th International Working Conference on Active and Programmable Networks (IWAN 2005) that was held during November 21–23, 2005, in Sophia Antipolis, Cote d'Azur, France, jointly organized by Hitachi Europe and INRIA. IWAN 2005 took place against a backdrop of questions about the viability and - necessity of a conference that deals with an area perceived by many as having run its full course. The Organizing Committee, during the preparations of the conference, took these concerns seriously and reflected them in the theme of this year's event, entitled "Re-incarnating Active Networking Research," and expanding the scope of past calls for papers into topics that have emerged from active and programmable networks. The result was a success because we received 72 submissions, a number that - ceeded our expectations and in fact is one of the highest in the history of the conf- ence. The distinguished Technical Program Committee set high standards for the final program; each one of the submitted papers received three peer reviews with detailed comments and suggestions for the authors. In total, 13 papers were accepted for the main program sessions with 9 papers accepted unconditionally and the remaining 4 papers being conditionally accepted with shepherding by selected Program Committee members.
