Humans in Outer Space - Interdisciplinary Perspectives Ulrike Landfester,Nina-Louisa Remuss,Kai-Uwe Schrogl,Jean-Claude Worms,2010-11-04 Following the first comprehensive transdisciplinary dialogue on humans in outer space which resulted in Humans in Outer Space - Interdisciplinary Odysseys, the European Science Foundation (ESF), the European Space Agency (ESA), and the European Space Policy Institute (ESPI) have continued and deepened this transdisciplinary dialogue, which can now be found in Humans in Outer Space - Interdisciplinary Perspectives. For the grim reality was that some deadly outer-space power had usurped control of the great artificial moon. A lovely woman had disappeared; passengers were being fleeced and enslaved; and, using fantastic disguises, imposters were using the Station for their own mysterious ends. Pursued by unearthly monsters and hunted with super-scientific cunning, Corrison struggles to unmask the mystery. For upon his success depended his life, his love and the future of Earth itself.

Star Trek: Deep Space Nine: The Never Ending Sacrifice Una McCormack, 2009-08-25 Continuing the post-television Deep Space Nine saga, this original novel shows the fall of the Cardassian empire as seen through the eyes of a young man with a foot in two worlds. Rugal is an orphaned Cardassian who has been raised by the people his race once conquered, the Bajorans. Reluctantly repatriated to Cardassia as a teenager, Rugal becomes the living witness to the downfall of the proud people to whom he was born, first by the invading Klingons, then during the Cardassians' unholy pact with the Dominion—a partnership that culminated in a near-genocide. Through it all, Rugal's singular perspective illuminates the choices that brought the Cardassians to their ruin...even as he learns that the Cardassian soul is not as easy to understand as he imagined.

Devil in the Sky Greg Cox, John Gregory Betancourt, 2000-09-22 The Hortas of Janus VI are the greatest miners in the galaxy, capable of burning through solid rock the way humanoids move through air. Recruited to help rebuild Bajor's devastated mining industry, the Hortas could provide new hope for the planet's struggling economy. But when Cardassian raiders abduct the Mother Horta, Commander Sisko finds himself stuck with twenty Horta eggs -- and then the eggs begin to hatch... While Major Kira leads a desperate rescue mission deep into Cardassian space, Commander Sisko faces a ravaging mass of newborn Hortas -- uncontrollable, indestructible, and eager to consume Deep Space Nine™ itself!

The Big Game Sandy Schofield,2000-05-23 When Quark holds a poker tournament on Deep Space Nine™ someone from almost every sentient race -- Klingons, Cardassians, Romulans, Vulcans, Ferengi -- shows up for what is sure to be the highest-stakes game of all time. But when one player is killed, the stakes get higher than even these big-money players had counted on. With the station rocked by subspace waves that threaten its destruction, Commander Sisko and Security Chief Odo must hunt down the killer in time to save the players, a killer who has information that can save those onboard Deep Space Nine from the invisible enemy they do not even know they face, a killer who holds all the cards...

Typhon Pact: Raise the Dawn David R. George III,2012-06-26 The second novel in a two-part Typhon Pact adventure set in the universe of Star Trek: The Next Generation. After the disastrous events in the Bajoran system, Captain Benjamin Sisko must confront the consequences of the recent choices he has made in his life. At the same time, the United Federation of Planets and its Khitomer Accords allies have come to the brink of war with the Typhon Pact. While factions within the Pact unsuccessfully used the recent gestures of goodwill—the opening of borders and a joint Federation-Romulan exploratory mission—to develop quantum-slipstream drive, they have not given up their goals. Employing a broad range of assets, from Romulus to Cardassia, from Ab-Tzenketh to Bajor, they embark on a dangerous new plan to acquire the technology they need to take control of the Alpha and Beta Quadrants. While UFP President Bacco and Romulan Praetor Kamemor work feverishly to reestablish peace, Captains Sisko, Jean-Luc Picard, and Ro Laren stand on the front lines of the conflict...even as a new danger threatens the Bajoran wormhole as it once more becomes a flashpoint of galactic history.

Humans in Outer Space - Interdisciplinary Odysseys Luca Codignola-Bo,Kai-Uwe Schrogl,2009-06-18 Humans and space When faced with the issue of space exploration, one generally has an idea of the fields of study and disciplines that are involved: technology, physics and chemistry, robotics, astronomy and planetary science, space biology and medicine, disciplines which are usually referred to as the "sciences". In recent discussions, the human element of space exploration has attracted more and more the interest of the space sciences. As a consequence, adjacent disciplines have gained in relevance in space exploration and space research, in times when human space rights are almost part of everyday life. These disciplines include psychology and sociology, but also history, philosophy, anthropology, cultural studies, political sciences and law. The contribution of knowledge in these fields plays an important role in achieving the next generation of space exploration, where humans will resume exploring the Moon and, eventually, Mars, and where space tourism is beginning to be developed. With regard to technology, one might soon be prepared for this. Much less is this the case with space exploration by humans, rather than by robots. Robotic explorations to other planets across the solar system have developed in the past 50 years, since the beginning of the "space age" with the presence of humans in nearby space and the landing on the Moon. Space exploration is now not only focused on technological achievements, as its development also has social, cultural and economic impacts. This makes human space exploration a topic to address in a cross-disciplinary manner.
