Tony Northrup's Adobe Photoshop Lightroom 5 Video Book: Training for Photographers Tony Northrup, 2014-11-26 Combining the benefits of video training and book learning, Tony Northrup's Lightroom 5 Video Book gives you over 12 hours of video and 250 pages of written content. When you can set aside the time, start the videos on a smartphone, tablet, or PC, and work alongside Tony & Chelsea in Lightroom. When you'd rather learn away from your PC, or you just want to quickly look something up, search the eBook or flip through the paperback book to find the information you need. Similar video training costs well over \$120 or more, or worse, requires you to pay a monthly membership fee that might cost you thousands. Similar books cost over twice this amount. You also get over 150 Lightroom presets, which usually cost more than \$100, and access to our private Lightroom group on Facebook so you can ask questions and get feedback. Tony covers every aspect of Lightroom in-depth, but structures his teaching so that both beginner and advanced photographers can learn as efficiently as possible. If you just want a quick start, you can simply watch the first video or read the first chapter and you'll be organizing and editing your pictures in less than an hour. If you want to know more about a specific feature, switch to that video or flip to that chapter in the ebook. If you want to know everything about Lightroom, watch the videos and read the book from start-to-finish.

**Living Earth Community: Multiple Ways of Being and Knowing** Sam Mickey,Mary Evelyn Tucker,John Grim,2020-05-18 Living Earth Community: Multiple Ways of Being and Knowing is a celebration of the diversity of ways in which humans can relate to the world around them, and an invitation to its readers to partake in planetary coexistence. Innovative, informative, and highly accessible, this interdisciplinary anthology of essays brings together scholars, writers and educators across the sciences and humanities, in a collaborative effort to illuminate the different ways of being in the world and the different kinds of knowledge they entail – from the ecological knowledge of Indigenous communities, to the scientific knowledge of a biologist and the embodied knowledge communicated through storytelling. This anthology examines the interplay between Nature and Culture in the setting of our current age of ecological crisis, stressing the importance of addressing

these ecological crises occurring around the planet through multiple perspectives. These perspectives are exemplified through diverse case studies – from the political and ethical implications of thinking with forests, to the capacity of storytelling to motivate action, to the worldview of the Indigenous Okanagan community in British Columbia. *Living Earth Community: Multiple Ways of Being and Knowing* synthesizes insights from across a range of academic fields, and highlights the potential for synergy between disciplinary approaches and inquiries. This anthology is essential reading not only for researchers and students, but for anyone interested in the ways in which humans interact with the community of life on Earth, especially during this current period of environmental emergency.

Never offline, always within reach, we now wield in our hands a magic wand of technological power we have only begun to grasp. But it raises new enigmas, too. Never more connected, we seem to be growing more distant. Never more efficient, we have never been more distracted. Drawing from the insights of numerous thinkers, published studies, and his own research, writer Tony Reinke identifies twelve potent ways our smartphones have changed us—for good and bad. Reinke calls us to cultivate wise thinking and healthy habits in the digital age, encouraging us to maximize the many blessings, to avoid the various pitfalls, and to wisely wield the most powerful gadget of human connection ever unleashed.

**Images of Projects** Mark Winter, Tony Szczepanek, 2017-03-02 In this very distinctive book, *Images of Projects* challenges how we think about projects in the most fundamental way: it rejects outright the idea of a one 'best way' to view all projects and also the idea of following a prescriptive approach. In contrast, *Images of Projects* seeks to encourage a more pragmatic and reflective approach, based on deliberately seeing projects from multiple perspectives, exploring the insights and implications which flow from these, and crafting appropriate action strategies in complex situations. Based on real examples and the authors' work over the last ten years, *Images of Projects* presents seven pragmatic images for making sense of the complex realities of projects. Illustrated using various models, these images are presented in ways that allow the reader to reflect upon their own mental models in relation to the different perspectives in this book.

What does it take to live a life of significance? When Indianapolis Colts coach Tony Dungy took home the trophy in Super Bowl XLI, fans around the world looked to him as the epitome of success. Athletic victory, professional excellence, fame and celebrity, awards and honors—he had it all. But even in that moment, he knew those achievements had little to do with his ultimate significance as a man. Coach Dungy still passionately believes that there is a different path to significance—a path characterized by attitudes, ambitions, and allegiances that are all too rare but uncommonly rewarding. In the New York Times best seller Uncommon, Dungy reveals secrets to achieving significance that he has learned from his remarkable parents, his athletic and coaching career, his mentors, and his walk with God.

*Bubble* Jordan Morris, Sarah Morgan, 2021-07-13 Based on the smash-hit audio serial, Bubble is a hilarious high-energy graphic novel with a satirical take on the “gig economy.” Built and maintained by corporate benevolence, the city of Fairhaven is a literal bubble of safety and order (and amazing coffee) in the midst of the Brush, a harsh alien wilderness ruled by monstrous Imps and rogue bands of humans. Humans like Morgan, who’s Brush-born and Bubble-raised and fully capable of fending off an Imp attack during her morning jog. She’s got a great routine going—she has a chill day job, she recreationally kills the occasional Imp, then she takes that Imp home for her roommate and BFF,

Annie, to transform into drugs as a side hustle. But cracks appear in her tidy life when one of those Imps nearly murders a delivery guy in her apartment, accidentally transforming him into a Brush-powered mutant in the process. And when Morgan's company launches Huntr, a gig economy app for Imp extermination, she finds herself press-ganged into kicking her stabby side job up to the next level as she battles a parade of monsters and monstrously Brush-turned citizens, from a living hipster beard to a book club hive mind.
