Wizard's Bane Rick Cook,1997-10-01 Q: How does a shanghaied computer geek conquer all the forces of Darkness and win the love of the most beautiful witch in the world? A: By transforming himself from a demon programmer into a programmer of demons! It all began when the wizards of the White League were under attack by their opponents of the Black League and one of their most powerful members cast a spell to bring forth a mighty wizard to aid their cause. What the spell delivered was master hacker Walter Wiz Zumwalt. The wizard who cast the spell was dead and nobody¾ not the elves, not the dwarves, not even the dragons¾could figure out what the shanghaied computer nerd was good for. But spells are a lot like computer programs, and, in spite of the Wiz's unprepossessing appearance, he was going to defeat the all-powerful Black League, win the love of a beautiful red-haired witch, and prove that when it comes to spells and sorcery, nobody but nobody can beat a Silicon Valley computer geek! At the publisher's request, this title is sold without DRM (Digital Rights Management).

What the Best College Teachers Do Ken Bain,2011-09-01 Winner of the Virginia and Warren Stone Prize awarded annually by Harvard University Press for an outstanding book on education and society What makes a great teacher great? Who are the professors students remember long after graduation? This book, the conclusion of a fifteen-year study of nearly one hundred college teachers in a wide variety of fields and universities, offers valuable answers for all educators. The short answer is—it's not what teachers do, it's what they understand. Lesson plans and lecture notes matter less than the special way teachers comprehend the subject and value human learning. Whether historians or physicists, in El Paso or St. Paul, the best teachers know their subjects inside and out—but they also know how to engage and challenge students and to provoke impassioned responses. Most of all, they believe two things fervently: that teaching matters and that students can learn.

Around the Writer's Block Rosanne Bane,2012-08-02 Discover the tricks that your brain uses to keep you from writing—and how to beat them. Do you: Want to write, but find it impossible to get started? Keep your schedules so full that you don't have any time to write? Wait until the last minute to write, even though you know you could do a better job if you gave yourself more time? Suddenly remember ten other things that you need to do whenever you sit down to write? Sabotage your own best efforts with lost files, missed deadlines, or excessive self-criticism? The good news is that you're not lazy, undisciplined, or lacking in willpower, talent or ambition. You just need to learn what's going on inside your brain, and harness the power of brain science to beat resistance and develop a productive writing habit. In *Around the Writer's Block*, Rosanne Bane-- a creativity coach and writing teacher for more than 20 years-- uses the most recent breakthroughs in brain science to help us understand, in simple, clear language, where writing resistance comes from: a fight-or-flight response hard-wired into our brain, which can make us desperate to flee the sources of our anxieties by any means possible. Bane's three-part plan, which has improved the productivity of thousands of writers, helps you develop new reliable writing habits, rewire the brain's responses to the anxiety of writing, and turn writing from a source of stress and anxiety into one of joy and personal growth.
