Monsters Vs Aliens - Colouring Activity ,2009-03-02 Monsters don't exist, right? If they did, they'd be locked up in some secret government location so the general population wouldn't know of their existence. But what if monsters do exist ... and they aren't evil, or even particularly scary? What if they're funny ... and smart ... and what if they might just be the key to man's survival? When a meteorite crashes in California on Susan Murphy's (Reese Witherspoon) wedding day, Susan is struck by a dose of otherworldly quantonium, her bridal glow becomes decidedly green, and she suddenly swells to a gargantuan 49 feet-11 inches tall. The Feds swoop in and whisk her away from husband-to-be Derek (Paul Rudd) to a government concealment agency where they dub her Ginormica and leave her to bemoan her losses and spend the rest of her days with strange creatures like B.O.B., the brainless blob (Seth Rogen), mad professor Dr. Cockroach (Hugh Laurie), the half-fish and half-ape Missing Link (Will Arnett), and the overly huge and strangely silent grub Insectosaurus. Next, Gallaxhar (Rainn Wilson), ruler of an alien civilization, sends a huge robot to attack Modesto, Calif., to recover the quantonium released by the fallen meteorite. Under the ineffective leadership of President Hathaway (Stephen Colbert), the government embraces General W.R. Monger's (Kiefer Sutherland) suggestion to pit the imprisoned monsters against the robot in exchange for their freedom. The monsters are no match for the robot until Susan begins to really believe in her own abilities and embrace the power of her friendship with the other monsters. B.O.B is absolutely hilarious with his consistent propensity for misunderstanding, indiscriminate digestion of anything and everything in his path, and witless adoration of his fellow monsters. The crazy exploits of Dr. Cockroach inspire lots of laughter, Insectosaurus proves his worth in the end, and Ginormica serves as the glue that holds the whole film together. The InTru 3-D format is highly effective and if you like animation; visual, verbal, and action comedy; references to past science-fiction films; and lovable monsters; you'll enjoy Monsters vs. Aliens.

It Came from Bob's Basement Bob Burns,John Michlig,2000-12 Known to give up precious living space to display a full-size creature from the Black Lagoon or a pair of Frankenstein's clod-hoppers, Bob Burns is the patron saint of special effects for B movies. His storied basement houses the largest private collection of props, models, sketches, storyboards, and other bits of nostalgic debris from a century's worth of films. It Came from Bob's Basement is a colorful journey through the vivid and campy world of fantastic cinema and a true tribute to a man who has dedicated his life to the preservation of incredible movie artifactsfrom the original King Kong's metallic skeleton to the life-size Alien Queen. Including insider stories from the sets of favorites like The She Creature, It Conquered the World, and Plan Nine from Outer Space, Bob Burns brings fellow fantasy buffs up close with props and artwork from the greatest (and most outrageous) sci-fi films of all time. A story told with genuinely irresistible enthusiasm, Bob's Basement honors the beloved cult classics that have shaped movie history.
