Joacim Rocklöv

Joan of Arc ,2013-01-01 This sourcebook collects together for the first time in English the major documents relating to the life and contemporary reputation of Joan of Arc. Also known as La Pucelle, she led a French Army against the English in 1429, arguably turning the course of the war in favour of the French king Charles VII. The fact that she achieved all of this when just a seventeen-year-old peasant girl highlights the magnitude of her achievements and also opens up other ways of looking at her story. For many, Joan represents the voice of ordinary people in the fifteenth century; the victims of high politics and warfare that devastated France. Her story ended tragically in 1431 when she was put on trial for heresy and sorcery by an ecclesiastical court and was burned at the stake. This book shows how the trial, which was organised by her enemies, provides an important window into late medieval attitudes towards religion and gender, as Joan was effectively persecuted by the established Church for her supposedly non-conformist views on spirituality and the role of women. Presented within a contextual and critical framework, this book encourages scholars and students to rethink this remarkable story. It will be invaluable reading for those working in the fields of medieval society and heresy, as well as the Hundred Years' War.

Let Me Hear You Whisper Paul Zindel,2012-10-01 From Pulitzer Prize-winning

author Paul Zindel comes this touching, humorous, and delightful play that earned wide recognition in its National Educational Television (NET) Network production. The action is set in the laboratory of the American Biological Association Development for the Advancement of Brain Analysis, where curious experiments involving various mammals are taking place. Helen, a newly engaged cleaning lady, is particularly drawn to a dolphin and is shocked when she learns that, having failed to talk as hoped for, it is slated for brain dissection. She makes a desperate attempt to rescue the dolphin from the scientists, incurring first their indignation and then, when the dolphin does indeed talk for Helen, their futile pleas that she change her mind about leaving and stay on to help them in their experiments. But the gentle Helen has had enough—both of Custodial Engineering and of schemes to change man's relationship to the other creatures with whom the world must be shared. Dark Mirror Diane Duane, 2012-12-11 One hundred years ago, four crewmembers of the U.S.S EnterpriseTM crossed the dimensional barrier and found a mirror image of their own universe, populated by nightmare duplicates of their shipmates. Barely able to escape with their lives, they returned, thankful that the accident which had brought them there could not be duplicated, or so they thought. But now the scientists of that empire have found a doorway into our universe. Their plan is to destroy from within, to replace a Federation

Starships with one of their own. Their victims are the crew of the U.S.S. Enterprise NCC-1701-D, who now find themselves engaged in combat against the most savage enemies they have ever encountered, themselves.

The Scar China Miéville, 2002-06-25 A mythmaker of the highest order, China Miéville has emblazoned the fantasy novel with fresh language, startling images, and stunning originality. Set in the same sprawling world of Miéville's Arthur C. Clarke Award-winning novel, *Perdido Street Station*, this latest epic introduces a whole new cast of intriguing characters and dazzling creations. Aboard a vast seafaring vessel, a band of prisoners and slaves, their bodies remade into grotesque biological oddities, is being transported to the fledgling colony of New Crobuzon. But the journey is not theirs alone. They are joined by a handful of travelers, each with a reason for fleeing the city. Among them is Bellis Coldwine, a renowned linguist whose services as an interpreter grant her passage—and escape from horrific punishment. For she is linked to Isaac Dan der Grimnebulin, the brilliant renegade scientist who has unwittingly unleashed a nightmare upon New Crobuzon. For Bellis, the plan is clear: live among the new frontiersmen of the colony until it is safe to return home. But when the ship is besieged by pirates on the Swollen Ocean, the senior officers are summarily executed. The surviving passengers are brought to Armada, a city constructed from the hulls of pirated ships, a floating, landless mass ruled by the bizarre duality called the Lovers. On Armada, everyone is given work, and even Remades live as equals to humans,

Cactae, and Cray. Yet no one may ever leave. Lonely and embittered in her captivity, Bellis knows that to show dissent is a death sentence. Instead, she must furtively seek information about Armada's agenda. The answer lies in the dark, amorphous shapes that float undetected miles below the waters—terrifying entities with a singular, chilling mission. . . . China Miéville is a writer for a new era—and *The Scar* is a luminous, brilliantly imagined novel that is nothing short of spectacular. BONUS: This edition contains an excerpt from China Miéville's *Embassytown*.

Prosth Plus Piers Anthony, 1986-06-15 What's keeping you from your grand tour of the universe? Are you afraid of being caught out in the vastness of space with a painful cavity and no one capable of fixing it? Well fear not--the galaxy is simply teeming with dentists! For Dr. Dillingham, dentist of Earth, it was the shock of his life--captured by aliens, forced to fix a strange cavity in an even stranger mouth; then whisked off to deep space. But luckily for the good dentist, Dillingham discovered that he liked zooming about the galaxy, solving unprecedented problems and making new and decidedly different acquaintances. And when he was offered the chance to apply to the Galactic University of Dentistry as Earth's first (and only) applicant, Dillingham had a choice to make: go back to his safe little world of bored housewives and miles of braces, or make a mark for mankind among the teeth of the stars. It was really no choice at all.
