*Winslow Homer and the Camera* Frank H. Goodyear III, Dana E. Byrd, 2018-01-01 A revelatory exploration of Winslow Homer's engagement with photography, shedding new light on his celebrated paintings and works on paper. One of the greatest American painters of the 19th century, Winslow Homer (1836-1910) also maintained a deep engagement with photography throughout his career. Focusing on the important, yet often-overlooked, role that photography played in Homer's art, this volume exposes Homer's own experiments with the camera (he first bought one in 1882). It also explores how the medium of photography and the larger visual economy influenced his work as a painter, watercolorist, and printmaker at a moment when new print technologies inundated the public with images. Frank Goodyear and Dana Byrd demonstrate that photography offered Homer new ways of seeing and representing the world, from his early commercial engravings sourced from contemporary photographs to the complex relationship between his late-career paintings of life in the Bahamas, Florida, and Cuba and the emergent trend of tourist photography. The authors argue that Homer's understanding of the camera's ability to create an image that is simultaneously accurate and capable of deception was vitally important to his artistic practice in all media. Richly illustrated and full of exciting new discoveries, *Winslow Homer and the Camera* is a long-overdue examination of the ways in which photography shaped the vision of one of America's most original painters.

*Homer* Andrew Ford, 2019-03-15 Andrew Ford here addresses, in a manner both engaging and richly informed,

the perennial questions of what poetry is, how it came to be, and what it is for. Focusing on the critical moment in Western literature when the heroic tales of the Greek oral tradition began to be preserved in writing, he examines these questions in the light of Homeric poetry. Through fresh readings of the Iliad and the Odyssey, and referring to other early epics as well, Ford deepens our understanding of what poetry was at a time before written texts, before a developed sense of authorship, and before the existence of institutionalized criticism. Placing what is known about Homer's art in the wider context of Homer's world, Ford traces the effects of the oral tradition upon the development of the epic and addresses such issues as the sources of the poet's inspiration and the generic constraints upon epic composition. After exploring Homer's poetic vocabulary and his fictional and mythical representations of the art of singing, Ford reconstructs an idea of poetry much different from that put forth by previous interpreters. Arguing that Homer grounds his project in religious rather than literary or historical terms, he concludes that archaic poetry claims to give a uniquely transparent and immediate rendering of the past. *Homer: The Poetry of the Past* will be stimulating and enjoyable reading for anyone interested in the traditions of poetry, as well as for students and scholars in the fields of classics, literary theory and literary history, and intellectual history.

**The Stoa of Attalos II in Athens** Homer A.

Thompson,1992 Named after its donor, the King of Pergamon, the Stoa of Attalos was originally built around 150 B.C. Between 1953 and 1956 this long, columned, marble building was rebuilt by the American School of

Classical Studies to store and display finds from the Agora excavations. Using original materials and techniques, the modern builders learned much about the construction and purpose of the stoa, a ubiquitous classical building type. This heavily illustrated account presents some of their findings.

*The Construction of Whiteness* Stephen Middleton, David R. Roediger, Donald M. Shaffer, 2016-04-13 A CHOICE Outstanding Academic Title, 2017 This volume collects interdisciplinary essays that examine the crucial intersection between whiteness as a privileged racial category and the various material practices (social, cultural, political, and economic) that undergird white ideological influence in America. In truth, the need to examine whiteness as a problem has rarely been grasped outside academic circles. The ubiquity of whiteness--its pervasive quality as an ideal that is at once omnipresent and invisible--makes it the very epitome of the mainstream in America. And yet the undeniable relationship between whiteness and inequality in this country necessitates a thorough interrogation of its formation, its representation, and its reproduction. Essays here seek to do just that work. Editors and contributors interrogate whiteness as a social construct, revealing the underpinnings of narratives that foster white skin as an ideal of beauty, intelligence, and power. Contributors examine whiteness from several disciplinary perspectives, including history, communication, law, sociology, and literature. Its breadth and depth makes *The Construction of Whiteness* a refined introduction to the critical study of race for a new generation of scholars, undergraduates, and graduate students. Moreover, the interdisciplinary approach of the collection will appeal to scholars in African and African American studies, ethnic studies, cultural studies, legal studies, and more. This

collection delivers an important contribution to the field of whiteness studies in its multifaceted impact on American history and culture.

*The Homer Book* Matt Groening, 2005-10-18 The Homer Book is now being released in hardback, as part of the ongoing series: The Simpsons Library of Wisdom. Homer Simpson is a man's man, an 'Average Joe', a loving father and husband, and a devoted beer drinker. But do you know the 'real' Homer? Find out what's on Homer's mind, discover the mysteries of Homer's fridge, hang out in Homer's haunts; meet his friends and enemies; and spend a typical day with the lovable lout who will lift you out of your D'oh-ldrums. In The Simpsons Library of Wisdom, Matt Groening, the creator of 'The Simpsons', offers an ongoing series of portable and quotable books that will eliminate the need for all religions and philosophies, exalt man's role in the universe and make the world a better place ... sort of. No other television show in history has commented so freely and so humorously on modern times, and there seems to be no end in sight for the sharp satire and pointed parody that 'The Simpsons' serves up every night of the week all around the world.

Finkelberg,2019-12-02 This collection includes thirty scholarly essays on Homer and Greek epic poetry published by Margalit Finkelberg over the past three decades. The topics discussed reflect the author's research interests and represent the main directions of her contribution to Homeric studies: Homer's language and diction, archaic Greek epic tradition, Homer's world and values, transmission and reception of the Homeric poems. #### Winslow Homer and the Pictorial Press David

Tatham, 2003-04-01 Winslow Homer (1836-1910), arguably the best-known American artist of the nineteenth century, created three distinctly different bodies of work in the course of his long career: paintings, book illustrations, and illustrations for the pictorial press, the magazine-like illustrated journals of his day. A number of books and exhibition catalogues have dealt with his career as a painter, and historian David Tatham treated all of Homer's work as an illustrator of literature in his *Winslow Homer and the Illustrated Book*. Now, ten years later, Tatham has completed a full, scholarly account of Homer's work for pictorial magazines such as *Harper's Weekly*, *Appleton's Monthly*, and *Every Saturday*. Homer's work for pictorial magazines is substantial, to say the least. It amounts to

some 250 wood-engraved images published between 1857 and 1875. These wood engravings are collected assiduously and are exhibited frequently in museums. They differ from Homer's book illustrations in that they are independent from the texts; Homer chose and treated the great majority of his magazine subjects much as he did his paintings. They are, in essence, original works of graphic art. The illustrations reproduced here cover a remarkable range. They constitute the first substantial body of American art about the life of the city streets, the Thanksgiving and Christmas holidays, abolition, and the New Woman. They include compelling treatments of the Civil War, rural childhood, and wilderness. They also comprise an essential contribution to the study of one of the masters of American art.
