Italy Before Rome Katherine McDonald, 2021-10-14 This book brings together sources translated from a wide variety of ancient languages to showcase the rich history of pre-Roman Italy, including its cultures, politics, trade, languages, writing systems, religious rituals, magical practices, and conflicts. This book allows readers to access diverse sources relating to the history and cultures of pre-Roman Italy. It gathers and translates sources

from both Greek and Latin literature and ancient inscriptions in multiple languages and gives commentary to highlight areas of particular interest. The thematic organisation of this sourcebook helps readers to make connections across languages and communities, and showcases the interconnectedness of ancient Italy. This book includes maps, a timeline, and guides to further reading, making it accessible to students and other readers who are new to this subject. *Italy Before Rome* is aimed at undergraduate and graduate students, including those who have not studied the ancient world before. It is also intended to be useful to researchers approaching this material for the first time, and to university and schoolteachers looking for an overview of early Italian sources.

Simpson Mania Steve Dale, Consumer guide, 1990 A brief look at the Simpsons, the latest craze in television viewing. Find out how the show developed and how it's produced, the similarities with other shows from the past, and brief summaries of many of the episodes.

The Simpsons Matt Groening, 1997-10-04 It's hard to believe that the Simpsons have been around for more than a decade. Today, *The Simpsons* is the longest-running animated series of all time (dethroning *The Flintstones* in February 1997), and an intrinsic part of pop culture. *The Simpsons Complete Guide to your Favourite Show* is a celebration of this family's phenomenal decade. Arranged by season, the book covers each episode of the television show, with the special episodes (the annual Halloween show, *Who Shot Mr.*

Burns? and Krusty Gets Kancelled) receiving eyeball-busting two-page spreads. In addition, special sidebars are sprinkled throughout, showing: Simpsons firsts Bart's chalkboard lines Top Homerisms An Itchy & Scratchy filmography A Springfield timeline Things the audience may have missed Highlighting the best of every show, The Simpsons is the ultimate celebration of the cartoon family that has kept the world in stitches. It is the ultimate must-have for all Simpsons aficionados.

The Simpsons and Society Steven Keslowitz, 2004 Explore the world of The Simpsons as it relates to contemporary society. Is Homer a good father? Is Bart really America's bad boy? Should Maggie remain quiet? Also included are essays pertaining to medical malpractice, media culture, American Exceptionalism, how The Simpsons matches up against other TV sitcoms, Descartes' Evil Genius argument, American industrialization, and more. If you're a Simpsons buff, this book is for you. Mmm...bookalicious...

Open Book Jessica Simpson, 2020-02-04 The #1 New York Times Bestseller Jessica reveals for the first time her inner monologue and most intimate struggles. Guided by the journals she's kept since age fifteen, and brimming with her unique humor and down-to-earth humanity, Open Book is as inspiring as it is entertaining. This was supposed to be a very different book. Five years ago, Jessica Simpson was approached to write a motivational guide to living your best life. She walked away from the offer, and nobody understood why. The truth is that she didn't want to lie. Jessica couldn't be authentic

with her readers if she wasn't fully honest with herself first. Now America's Sweetheart, preacher's daughter, pop phenomenon, reality tv pioneer, and the billion-dollar fashion mogul invites readers on a remarkable journey, examining a life that blessed her with the compassion to help others, but also burdened her with an almost crippling need to please. Open Book is Jessica Simpson using her voice, heart, soul, and humor to share things she's never shared before. First celebrated for her voice, she became one of the most talked-about women in the world, whether for music and fashion, her relationship struggles, or as a walking blonde joke. But now, instead of being talked about, Jessica is doing the talking. Her book shares the wisdom and inspirations she's learned and shows the real woman behind all the pop-culture clichés – "chicken or fish," "Daisy Duke," football jinx, "mom jeans," "sexual napalm..." and more. Open Book is an opportunity to laugh and cry with a close friend, one that will inspire you to live your best, most authentic life, now that she is finally living hers.

The Bart Book Matt Groening, 2004 The human condition, the meaning of life, the nature of the universe -- it's all here in the musings of one of recent history's greatest philosophers ... Bart Simpson!

The Simpsons and Their Mathematical Secrets Simon Singh, 2013-10-29 You may have watched hundreds of episodes of The Simpsons (and its sister show Futurama) without ever realising that they contain enough maths to form an entire university course. In The Simpsons and Their Mathematical Secrets,

Simon Singh explains how the brilliant writers, some of the mathematicians, have smuggled in mathematical jokes throughout the cartoon's twenty-five year history, exploring everything from Mersenne primes, from Euler's equation to the unsolved riddle of P vs. NP, from perfect numbers to narcissistic numbers, and much more. With wit, clarity and a true fan's zeal, Singh analyses such memorable episodes as 'Bart the Genius' and 'Homer3' to offer an entirely new insight into the most successful show in television history.

Planet Simpson Chris Turner, 2004

'The Simpsons'' Main Cast Members ,

The Little Guide to The Simpsons Orange Hippo!, 2023-08-08 The Simpsons, Matt Groening's animated sitcom, is arguably the greatest show in TV history. To its critics, the dysfunctional family embodies the decline of wholesome values. To its fans, the show provides a window into America's soul, with each new season seeing the Simpsons spiral into ever-increasing levels of craziness, reflecting the nation's blurring of parody with reality. For more than 30 years, and across nearly 750 episodes, an entire generation has been shaped by some of the most influential and memorable characters on TV: Homer, the classic, middle-class anti-hero; Bart, the lovable brat eternally trapped inside the body of a 10-year-old who questions everything; Lisa, talented and gifted, the voice of reason prepared to stand up and make herself heard; and Marg, overworked and underappreciated, with endless amounts of forgiveness for Homer. It may only be a cartoon on the surface, but The Simpsons

resonates with viewers on a much deeper level. Offering charm, humor, and life lessons, it's perfect TV that has stood the test of time. Son, if you really want something in this life, you have to work for it. Now quiet! They're about to announce the lottery numbers. Homer Simpson In 1998, the 10 year-old Bart Simpson was named as one of the 'Most Influential People Of The Century' by TIME Magazine.

The Simpsons Secret Lydia Poulteney, James Hicks, 2021-09-28 Have You Ever Wondered How "The Simpsons" Predict the Future? "Did The Simpsons really, truly predict anything? I predict you'll have to purchase this book to get the true story." –Bill Oakley, Simpsons writer and producer #1 New Release in Animated Movies, Comedy Movies, and Comedy Television Then, The Simpsons Secret is the book for you. Delve into some of the biggest predictions that came true on the show, and just how the Simpsons predict the future. Simpson predictions from three-eyed fish to presidential elections. The Simpsons has been predicting major events with scary accuracy for over three decades. From Donald Trump's presidency to Disney buying 20th Century Fox (...years before it happened!). People just can't seem to get enough and are eager to know what they are going to predict next. This book goes behind the scenes of this adored cartoon series, and the family we've grown to love. Between Homer, Marge, Bart, Lisa, and the rest of the Simpsons family, the show has stolen our hearts, and also left us amazed at how often the Simpsons predict the future! So how do they do it? Is it a crystal ball? A fountain of knowledge?

Have the writers gained the ability to travel through time? As shocking as it may seem, the answer is actually a little simpler than that. The cartoon crew is not in a secret society that can see the future, nor have they mastered the art of time travel. In *The Simpsons Secret*, learn more about: How The Simpsons are able to predict so many major events How the show writers and producers come up with these ideas And so much more about your favorite old-school cartoon family If you enjoyed books like *Springfield Confidential*, *The Simpsons Family History*, *Friends Forever*, or *The Office*, you'll love *The Simpsons Secret*.

The Simpsons Family History Matt Groening, Matt Groening Productions, Inc., 2014-09-23 A history of the famous cartoon family unravels twenty-five years of Simpsons facts and fun from the TV show and presents them in a chronological format.

Big Bad Book of Bart Simpson, 2003 Bart Simpson is back with another big book of bust-a-gut belly laughs. Following the great success of *Big Book of Bart Simpson*, join Bart in this second installation of the Bart Comic Compilations as he defies authority, ducks school and, as Bartman, fights crime. From the Wild West to the sewers of Springfield, Bart Simpson will lead you on a merry chase in pursuit of hilarity. As for the rest of the kids in Springfield: Lisa Simpson shows off her investigative skills, Milhouse takes on the school bullies, and Ralph Wiggum gives you a day in his cock-eyed life.

Leaving Springfield John Alberti, 2004 Since its first appearance as a series of cartoon vignettes in 1987 and its debut as a weekly program in 1990, The Simpsons has had multiple, even contradictory, media identities. Although the show has featured biting political and social satire, which often proves fatal to mass public acceptance, The Simpsons entered fully into the mainstream, consistently earning high ratings from audiences and critics alike. *Leaving Springfield* addresses the success of The Simpsons as a corporate-manufactured show that openly and self-reflexively parodies the very consumer capitalism it simultaneously promotes. By exploring such topics as the impact of the show's satire on its diverse viewing public and the position of The Simpsons in sitcom and television animation history, the commentators develop insights into the ways parody intermixes with mass media to critique post modern society. In spite of the longevity and high cultural profile of the show, The Simpsons has so far attracted only scattered academic attention. *Leaving Springfield* will be of importance to both scholars of media and fans of the show interested in the function of satire in popular culture in general and television in particular.

Starfish Lisa Fipps, 2021-03-09 A Printz Honor winner! Ellie is tired of being fat-shamed and does something about it in this poignant debut novel-in-verse. Cover may vary. Ever since Ellie wore a whale swimsuit and made a big splash at her fifth birthday party, she's been bullied about her weight. To cope, she tries to live by the Fat Girl Rules—like no making waves, avoid

eating in public, and don't move so fast that your body jiggles. And she's found her safe space—her swimming pool—where she feels weightless in a fat-obsessed world. In the water, she can stretch herself out like a starfish and take up all the room she wants. It's also where she can get away from her pushy mom, who thinks criticizing Ellie's weight will motivate her to diet. Fortunately, Ellie has allies in her dad, her therapist, and her new neighbor, Catalina, who loves Ellie for who she is. With this support buoying her, Ellie might finally be able to cast aside the Fat Girl Rules and starfish in real life--by unapologetically being her own fabulous self.
