Books IV–VI Ludger Hovestadt,2022-12-31 Abhandlung zur digitalen Architektur Hovestadts Traktat folgt strikt den Linien der bekannten Abhandlungen von Vitruv und Alberti, in der Annahme, dass wir uns heute wieder in einer ähnlichen Konstellation befinden. Vitruv und Alberti brachten zum Ausdruck, was Architektur in ihrer Epoche bedeutete: die römische Antike und die Renaissance. Hovestadt formuliert sie nun in den heutigen Begriffen der Physik, Mathematik, Technologie, Literatur und Philosophie neu. Die Bücher I bis III befassen sich mit der Rolle des Architekten und der Objektivität der

Architektur. Die Bücher IV bis VI thematisieren die Modalitäten des Sprechens und der Kodierung von Architektur: das Geheime, das Öffentliche und das Private. Die Bücher VII bis X widmen sich den eigentlichen digitalen Mechanismen: künstlicher Intelligenz, natürlicher Kommunikation, Gnomonik und kulturellem Erbe. Ein Architekturtraktat unserer Zeit in 10 Büchern Nach dem Vorbild von Vitruv und Alberti Erscheint in drei Bänden der Reihe Applied Virtuality Book Series, Bd. 19, 20 und 21

The Conscious Planet Neil M. Pine,2013-07-16 The writing of this book was both a spiritual and intellectual journey.It took more than ten years to complete while having to be revised andupdated constantly. Th is is no-holds-barred literature where the authorsays what he means and means what he says! He does not mintz his words.Th e Conscious Planet thinks outside the box and breaks all the rules oftraditional thinking. Sometimes this information can be brutally honest orpainfully real. Th is author is not trying to win any popularity contest. Hetells it like it really is and doesn't care what anyone thinks!Th e

Conscious Planet is what the government and big corporations whocontrol it don't want you to know! It is the truth about the truth andnothing but the truth, so help me !In the modern world, people only know what multinational corporationswant them to know, not what they should know! And it is this taintedknowledge which is creating a society of pathetic drones, who like poordoomed sheep, are too busy just trying to survive to see that the wool is beingpulled over their eyes while being led to slaughter! Because these corporateimperatives are being paid for at the expense of the future of mankind!Before you patronize any product, be conscious about what it's doing toyour health, to the earth, and how it will aff ect future generations.Skeptics have warned the author that this book will receive nominalsuccess, that it represents a small niche market, and not everyone wouldbe interested in such literature. And in retort to this assertion, it shouldbe acknowledged that yes, it is sadly true that not everyone would beinterested in this book because the information herein may not pertaindirectly to their life or general well being. So in understanding, who wouldbe interested in this book, let's narrow it down by eliminating the types ofindividual who would not directly benefi t:x1. People who are immortal:Yes, these people might not care about this book: heck, if youwere immortal, you might eat Twinkies and cheese-burgers allday long.2. People who have another planet to live on:Th is is true: why would they care if the world goes to hell in a handbasket?
