Race and Football in America Dawn Knight, 2019-07-01 As the first African American player to be drafted by the NFL and the first African American to play quarterback, George Taliaferro was a trailblazer whose athletic prowess earned him accolades throughout his football career. Instrumental in leading Indiana University to an undefeated season and undisputed Big Ten championship in 1945, Taliaferro was a star when many major universities had no black players on their rosters and others were stacking black players behind white starters. George Taliaferro would later rack up impressive statistics while playing professionally for the New York Yanks, Dallas Texans, Baltimore Colts, and Philadelphia Eagles. His athletic prowess did little to prevent him from facing segregation and discrimination on a daily basis, but his popularity as an athlete also gave him a platform. Playing professionally gave Taliaferro more opportunity to use football to fight oppression and to interact with other important trailblazers, like Joe Louis, Nat King Cole, Muhammad Ali, and Congressman John Lewis. *Race and Football in America* tells Taliaferro's story and profiles the experiences of other athletes of color who were recognized for their athleticism yet oppressed for their skin color, as they fought (and continue to fight) for equal rights and opportunities. Together these stories provide an insightful portrait of race in America.

Owning the Olympics Monroe Price, Daniel Dayan, 2009-12-10 A major contribution to the study of global events in times of global media. *Owning the Olympics* tests the possibilities and limits of the concept of 'media events' by analyzing the mega-event of the information age: the Beijing Olympics. . . . A good read from cover to cover. —Guobin Yang, Associate Professor, Asian/Middle Eastern Cultures & Sociology, Barnard College, Columbia University From the moment they were announced, the

Beijing Games were a major media event and the focus of intense scrutiny and speculation. In contrast to earlier such events, however, the Beijing Games are also unfolding in a newly volatile global media environment that is no longer monopolized by broadcast media. The dramatic expansion of media outlets and the growth of mobile communications technology have changed the nature of media events, making it significantly more difficult to regulate them or control their meaning. This volatility is reflected in the multiple, well-publicized controversies characterizing the run-up to Beijing 2008. According to many Western commentators, the People's Republic of China seized the Olympics as an opportunity to reinvent itself as the New China---a global leader in economics, technology, and environmental issues, with an improving human-rights record. But China's maneuverings have also been hotly contested by diverse global voices, including prominent human-rights advocates, all seeking to displace the official story of the Games. Bringing together a distinguished group of scholars from Chinese studies, human rights, media studies, law, and other fields, *Owning the Olympics* reveals how multiple entities---including the Chinese Communist Party itself---seek to influence and control the narratives through which the Beijing Games will be understood. *digitalculturebooks* is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society, culture, and scholarly communication. Colleges that Change Lives Loren Pope, 1996 The distinctive group of forty colleges profiled here is a well-kept secret in a status industry. They outdo the Ivies and research universities in producing winners. And they work their magic on the B and C students as well as on the A students. Loren Pope, director of the College Placement Bureau, provides essential information on schools that he has chosen for their proven ability to develop potential, values, initiative, and risk-taking in a wide range of students. Inside you'll find evaluations of each school's program and personality to help you decide if it's a community that's right for you; interviews with students that offer an insider's perspective on each college; professors' and deans' viewpoints on their school, their students, and their mission; and information on what happens to the graduates and what they think of their college experience. Loren Pope encourages you to be a hard-nosed consumer when visiting a college, advises how to evaluate a school in terms of your own needs and strengths, and shows how the college experience can enrich the rest of your life.

As If By Design Edward A. Wasserman, 2021-07-22 The eureka moment is a myth. It is an altogether naïve and fanciful account of human progress. Innovations emerge from a much less mysterious combination of historical, circumstantial, and accidental influences. This book explores the origin and evolution of several important behavioral innovations including the high five, the Heimlich maneuver, the butterfly stroke, the moonwalk, and the Iowa caucus. Such creations' striking suitability to the situation and the moment appear ingeniously designed with foresight. However, more often than not, they actually arise 'as if by design.' Based on investigations into the histories of a wide range of innovations, Edward A. Wasserman reveals the nature of behavioral creativity. What surfaces is a fascinating web of causation involving three main factors: context, consequence, and coincidence. Focusing on the process rather than the product of innovation elevates behavior to the very center of the creative human endeavor.

No Wind Judd Garrett, 2020-09 You can come back to your memorable places, but you can never go back to the time that made those places memorable. Jake Pearson, an introspective kid who takes life more seriously than most, longs for the simpler times of his youth while striving for a life beyond his reach. As he grows from a boy to a man, Jake struggles to fit in, be it baseball, school, friendship, and relationships. Shadowed by the eternal eye of judgement, Jake searches for a larger meaning to his life, and pursues dreams greater than his abilities. His life choices alternately reward him and torment him. And through it all, the ocean watches, and waits.

An American Sunrise: Poems Joy Harjo, 2019-08-13 A stunning new volume from the first Native American Poet Laureate of the United States, informed by her tribal history and connection to

the land. In the early 1800s, the Mvskoke people were forcibly removed from their original lands east of the Mississippi to Indian Territory, which is now part of Oklahoma. Two hundred years later, Joy Harjo returns to her family's lands and opens a dialogue with history. In *An American Sunrise*, Harjo finds blessings in the abundance of her homeland and confronts the site where her people, and other indigenous families, essentially disappeared. From her memory of her mother's death, to her beginnings in the native rights movement, to the fresh road with her beloved, Harjo's personal life intertwines with tribal histories to create a space for renewed beginnings. Her poems sing of beauty and survival, illuminating a spirituality that connects her to her ancestors and thrums with the quiet anger of living in the ruins of injustice. A descendent of storytellers and "one of our finest—and most complicated—poets" (Los Angeles Review of Books), Joy Harjo continues her legacy with this latest powerful collection.

The History of Cheerleading Doris Valliant, 2003 Is

Cheerleading a sport? The debate rages. One thing is for certain: the first sideline yell has evolved into a complex mix of cheers, dance, and athletics that can require the gymnastic skills of a Mary Lou Retton and the dancing moves of a Broadway show girl. This book explores this evolution.
