The Japanese Battleship Ise Carlo Cestra, 2018-01-23 Ise (whose name comes from an ancient Japanese province on Honshu, now part of Mie Prefecture) was the lead ship of the two-vessel Ise-class battleships of the Imperial Japanese Navy, which saw combat service during the Pacific War. Ise was laid down as battleship 5 at the Kawasaki Heavy Industries shipyard in Kobe on 10 May 1915, launched on 12 November 1916, completed on 15 December 1917, and assigned to the Kure Naval District. Completed too late for service in World War I, Ise patrolled off the Siberian coast and in northern waters in support of Japan's Siberian Intervention against the Bolshevik Red Army. From the mid-1920s through the late 1930s, Ise patrolled mostly off of the China coast. On 12 April 1922, she hosted a delegation which included Prince of Wales, the future King Edward VIII of the United Kingdom, and the future Lord Mountbatten. Ise-class battleships were fascinating ships and their story began in 1906 with the completion of HMS Dreadnought. The appearance of the all-big-gun turbine-powered Dreadnought rendered all existing battleships obsolete overnight, and in response the rest of the world's navies initiated massive construction programs. The world's major navies had gained an insurmountable lead in the number of dreadnoughts in service or under construction. Recognizing the futility of trying to compete in sheer numbers, the Japanese Navy adopted a quality before quantity approach, building fewer ships each of much greater capability than foreign designs. In 1911 the

Japanese government passed the Emergency Naval Expansion bill which authorized the building of four battlecruisers and one battleship. The battleship was to be designed and built in Japan; this ship became the Fuso. There were a number of foreign designs to take into consideration when it came time to decide the main armament for the new ships. Britain Royal Navy's Orion class was armed with the 13.5 in. gun; the US Wyoming class with 12-12 in. guns; and the succeeding New York class with 10-14 in. weapons. Japan decided to leap over the competition and fit the new ships with the 14 in. gun so Fuso-class would carry 12-14 in. weapons. Armament was not the only area where the Japanese battleship was intended to be superior to foreign designs: it was also to be at least 2 knots faster. Fuso was laid down on 11 March 1912 and she was the first battleship built in Japan using Japanese manufactured materials and weapons. Three sister ships were authorized, one of them laid down in November 1913, but financial difficulties prevented the laying down of the next two ships until 1915, which allowed time for some design improvements. The forecastle deck was shortened, the amidships turrets were grouped together and placed aft of the second funnel and the hull length was increased by 10 ft. to give more machinery space. The changes resulted in the two ships becoming known as the Improved Fuso or Ise class.

China's Evolving Surface Fleet Peter Dutton, Ryan D. Martinson, 2017 Over the past fifteen years, the People's Liberation Army Navy's (PLAN's) missile fast-attack craft and amphibious fleets have been significantly modernized.

While these two types of vessels have not increased in numbers, their capabilities have increased exponentially. This publication examines the People's Liberation Army's (PLA's) doctrine and training strategy in order to analyze present and predict future missions by these military vessels. China's deterrence posture is improved greatly by these ships and boats, which aid coastal water defense, and threaten Taiwanese attempts to gain independence. In addition, these two fleets improve China's long-range sealift capabilities, and help with the PLA's traditional, and new, nontraditional security practices. These fleets allow the PLAN to continue offshore operations, and begin blue-water, or far-seas operations, helping the United States to predict the future nature of Chinese maritime missions. Japan's Potential Contributions in an East China Sea Contingency Jeffrey W. Hornung, 2021-02-28 The author explores what roles Japan could and would play

Digital Material Marianne van den Boomen, 2009 This is a compelling study of the often controversial role and meaning of the new media and digital cultures in contemporary society. Three decades of societal and cultural alignment of new media yielded to a host of innovations, trials, and problems, accompanied by versatile popular and academic discourse. New Media Studies crystallized internationally into an established academic discipline, which begs the question: where do we stand now; which new issues have emerged now that new media are taken for granted, and which riddles remain unsolved; and, is contemporary digital culture indeed all about 'you', or do we still not really understand the digital machinery and how it constitutes us as 'you'. From desktop metaphors to Web 2.0 ecosystems, from touch screens to blogging to e-learning, from role-playing games to Cybergoth music to wireless dreams, this timely volume offers a showcase of the most up-to-date research in the field from what may be called a 'digital-materialist' perspective.

Zen in English Literature and Oriental Classics R. H. Blyth, 2016-06-12 It was R.H Blyth's belief that all that is good in European literature and culture is simply and solely that which is in accordance with the Spirit of Zen. He thereafter applied himself to the task of searching the writings of East and West in an attempt to discover that Spirit. *Zen in English Literature and Oriental Classics* embraces the classical literature of China and Japan and the whole extent of English literature, with numerous quotations not only from English but also from French, German, Italian, and Spanish writing. Don Quixote has a chapter all to himself, and the author considers him possibly the purest example in all of world literature of a man who lives by Zen. In English, the Zen attitude toward life is found most consistently in Shakespeare, Wordsworth, Dickens, and Stevenson. This book is

essential reading for anyone interested in Zen, haiku, or indeed English literature. R.H. Blyth was born in London in 1898 and studied English literature at London University. He traveled extensively in the East before moving first to Korea and then Japan and teaching English at several universities. Blyth eventually became the English tutor to the Crown Prince of Japan. He also studied Zen Buddhism under Kayama Taigi Roshi. Blyth was interned during the war years, and it was during this time that he wrote his first book, *Zen in English Literature*. He went on to write numerous other books on Zen, haiku, senryu, and humor. Blyth was a man whose sensibility took root in two disparate cultures and found a harmony that he beautifully and effectively communicated in his writing.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an

American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Into the Darkness Harry Turtledove, 2000-04-15 In this epic novel Harry Turtledove tells the story of an enormous cast of characters: soldiers and generals, washerwomen and scholars, peasants and diplomats. For all the world, highborn and low, is being plunged by world war...into the darkness. When the Duke of Bari suddenly dies, the neighboring nation of Algarve, long seething over its defeat a generation ago in the Six Years' War, sees its chance to bring Bari into the fold...an action which the other countries surrounding Algarve cannot, by treaty, tolerate. As nation after nation declares war, a chain of treaties are invoked, ultimately bringing almost all the Powers of Derlavai into a war of unprecedented destructiveness. For modern magic is deadlier than in ears past. Trained flocks of dragons rain explosive fire down on defenseless cities. Massed infantry race from place to

place along a network of ley-lines. Rival powers harness sea leviathans to help sabotage one another's ships. The lights are going out all across Derlavai, and will not come back on in this lifetime. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
