Pop Goes Korea Mark James Russell, 2012-10-20 Mr. Russell's book is the first by a non-Korean to explain the rise of Korea's entertainment industries....the book could hardly be more approachable.—Wall Street Journal “For a country that traditionally received culture, especially from China but also from Japan and the United States, South Korea finds itself at a turning point in its new role as exporter.”—The New York Times From kim chee to kim chic! South Korea came from nowhere in the 1990s to become one of the biggest producers of pop content (movies, music, comic books, TV dramas, online gaming) in Asia—and the West. Why? Who's behind it? Mark James Russell tells an exciting tale of rapid growth and wild success marked by an uncanny knack for moving just one step ahead of changing technologies (such as music downloads and Internet comics) that have created new consumer markets around the world. Among the media pioneers profiled in this book is film director Kang Je-gyu, maker of Korea's first blockbuster film *Shiri*; Lee Su-man, who went from folk singer to computer programmer to creator of Korea's biggest music label; and Nelson Shin, who rose from North Korea to the top of the

animation business. Full of fresh analysis, engaging reportage, and insightful insider anecdotes, *Pop Goes Korea* explores the hallyu (the Korean Wave) hitting the world's shores in the new century. Mark James Russell has been living in Korea since 1996. His articles about Korean and Asian cultures have appeared in *Newsweek*, *The New York Times*, *International Herald-Tribune*, and many other publications. He is currently the Korea/Japan Bureau Chief for *Asian Movie Week* magazine.

Postcolonial Astrology Alice Sparkly Kat, 2021-05-18 Tapping into the political power of magic and astrology for social, community, and personal transformation. In a cross-cultural approach to understanding astrology as a magical language, Alice Sparkly Kat unmasks the political power of astrology, showing how it can be channeled as a force for collective healing and liberation. Too often, magic and astrology are divorced from their potency and cultural contexts: co-opted by neoliberalism, used as a force of oppression, or distilled beyond recognition into applications that belie their individual and collective power. By looking at the symbolic and etymological histories of the sun, moon, Saturn, Venus, Mercury, Mars, and Jupiter, we can trace and understand the politics of magic--and challenge our own practices, interrogate

our truths, and reshape our institutions to build better frameworks for communities of care. Fearless, radical, and fresh, Sparkly Kat's Postcolonial Astrology ushers in a new wave of astrology revival, refusing to apologize for its magickism and connecting its power to the spirituality and politics we need now. Intersectional, inclusive, and geared towards queer and POC communities, it uses our historical and collective constructs of the planets, sun, and moon to re-chart our subconscious history, redefine the body in the world, and assert our politics of the personal, in astrology and all things.
