Wiz IV Shante F. Green, 2018-11-30 Shiloh fell in love with being queen before she fell in love with King Levi himself. Then, as his responsibilities fell to her, she quickly became disenchanted. Queenship didn't measure up to her expectations. She stayed though, in hopes things would turn around. This royal couple from O.Z.'s T5 territory is only a part of the problem in this fourth installment of the W.I.Z series. Then there's King Kai'ron and Queen Leigha, who love their princess, Ahndu. Yet it is their child who ultimately pays the price for her parents' choices. Here on Optimum Zoe, relationships are broken, and new ones formed as an unexpected hero and heroine battle against the evil that threatens to destroy all that is good in their world. Shiloh's Song is more than good fiction or a love story; it's a lesson in Christian relationship wisdom, God's love, and His ability to heal broken hearts. Author Shante F Green does not disappoint her readers in this fourth W.I.Z. installment. She has crafted a delightful allegory, along with a Part II where she reveals the deeper meaning of Shiloh's Song. Readers will reflect deeply and prayerfully on this powerful story-and on each story in the W.I.Z series.

The Rogue King Aldrea Alien, 2015-10-21 Outside is dangerous. Such is the warning Koral has heard for twelve years. Born a product of genetic manipulation, he knows little else of the

world beyond the steel walls of his home. When fate gives him the choice between certain death and the unknown, there's no question in what he must choose. But he's about to find out the sands he must brave are full of more than mere monsters. Providing the desert doesn't kill him first. This is a world ruled by instinct, where innocence is drowned in blood. Here, men are offered up to the great Serpent God, Lorric, only to emerge as the most feared killers on the planet: The Rogues. With the god's sights set on turning Koral into a legend, he must sacrifice himself to survive and be reborn as... The Rogue King.

Bone Song John Meaney, 2015-10-15 Lieutenant Donal Connor has been given the most bizarre of new cases. Four famous stage performers have died in recent months, three of them in state capitals within Transifica, the fourth in far Zurinam. And now the idolised diva Maria deLivnova is coming to Tristopolis. Donal's boss is determined that nothing like this is ever to happen in his city. Connor is to have anything he needs, as long as the diva lives. And so begins a dark investigation through a world where corpses give up their psychic energy in the massive necroflux generators which power the city, where gargoyles talk, where wraiths work in slavery, a world of the dead where corruption is alive. This is an extraordinary SF novel set in an alternate universe quite unlike any imagined in SF before; a universe where magic and the supernatural and the undead are given a scientific rationale and horrifyingly plausible rationale. The novel's setting, Tristopolis, is the ultimate noir city; an immense baroque creation of haunted stone skyscrapers, black metal and city-wide catacombs. Its hero Donal Connor is immensely likeable and easy to identify with. Even once he's dead.

Android at Arms Andre Norton, 2015-12-01 When Andas Kastor awakens in an alien land, he must figure out if he's the true emperor of his home world or an evil double. In a stark, arid wasteland, a man awakens from a frozen state. As he stares out his narrow slit of a window, he has no memory of how he got

there—or why. All he knows is his name: Andas Kastor, Imperial Prince of Inyanga. But instead of the luxurious trappings of his royal palace, he's in a hellish, storm-lashed place punctuated by howling winds and shattering streaks of lightning. And he's not alone. In this uninhabited world, he meets five other survivors, also of noble birth. They include the scaled, emerald-haired Elys of Posedonia and clawed, fanged Lord Yolyos of Sargol. They all speak the same Basic language, as befits those from neighboring spheres. Were they abducted, spirited to this alien planet, and held in mind-lock while evil doppelgangers ruled in their places? After a daring escape, Andas returns to Inyanga—only to discover that decades have passed and another sits on his throne. Now, hunted across barriers of time, Andas must fight external and internal enemies to save his civilization and uncover the truth about his identity.

The Voyage of the Space Beagle A. E. van Vogt, 2008-07-08
An episodic novel filled with surprises and provocative ideas, this is the story of a great exploration ship sent out into the unknown reaches of space on a long mission of discovery. They encounter several terrifying alien species, including the Ix, who lay their eggs in human bodies, which then devour the humans from within when they hatch. Reissue of a classic.

Into the Looking Glass John Ringo, 2005-06-01 WORST TWO OUT OF THREE When a 60 kiloton nuclear explosion destroys the University of Central Florida, terrorism is the first suspect. But terrorists don't generally leave doorways to another world in their wake. Or, rather, a generator of doorways to multiple other worlds. With time of the essence, the Secretary of Defense scrounges up the nearest physicist with a high level security clearance. With doctorates in everything from nuclear physics to electrical engineering, William Weaver, PhD, is the egghead's egghead. On the other hand, with skills in everything from mountain biking to screaming electric guitar, he's also fast enough and tough enough to survive when the alien gates start

disgorging demons. As a snap decision, he appears to be the perfect choice, smart, tough and capable. Now if he could only patch things up with his girlfriend, get his boss off his back and get his cellphone bill paid. Oh, yeah, and figure out why the heck these gates keep opening. Okay, so sometimes he's got priority issues. As the gates spread and evil aliens spread with them, it is up to Weaver and SEAL Command Master Chief Miller to find a way to stop the proliferation and close the hostile gates. The problem being that the only way they can see to save the earth is destroy it. Then there's not going to be any more girlfriends or cellphones or bosses . . . Hmmm... Okay, two out of three of those are bad. They're really, really bad. Bad on toast. Bad like the Pacific is watery. Every day a Monday, bad. One and a half at the very least. Worst two out of three. Gotta prioritize. Guess Weaver and Miller are just gonna have to save the world. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Cat Karina Michael G. Coney, 2012-06-18 Few true humans remain on the future Earth, where caimen, shrugleggers, and felinas dominate. The peoples are descendents of crocodiles, alien races, and jaguars, and they are much different than the humans - they are products of genetic experiments, created to perform specific functions. Some work in the swampy lands, others are the strong burden-bearers, but none are as beautiful as the felines - not even the humans. And no one is worthy enough to win over the most attractive felina, Karina. She is a rare beauty of great prowess, with a tempting sculpted physique that could lure anyone to her.

Urn Burial Robert Westall, 2023-01-17 Life is simple where Ralph lives, up in the Pennines. It's peaceful. Ordinary. Until one day, when out with the sheep, he finds something strange, too strange to be from Earth. The alien grave holds secrets of the past, but also draws Ralph into the middle of an epic war between two alien races, taking place among the stars above his head. Has

he thrown his planet into a battle it can't possibly fight? This war has raged for centuries, but perhaps Ralph could hold the key to ending it once and for all.

Uhura's Song Janet Kagan, 2000-09-22 Years ago, Lt. Uhura befriended a diplomat from Eeiau, the land of graceful, cat-like beings. The two women exchanged songs and promised never to reveal their secret—but now, those songs may be the only hope to save the planets from a deadly epidemic. The U.S.S. Enterprise™ is orbiting Eeiau in a desperate race to save the inhabitants before a deadly plague destroys them. Uhura's secret songs may hold the key to a cure—but the clues are veiled in layers of mystery and the inhabitants of Eeiau aren't what they seem. But the plague is killing humans, threatening other planets—and Kirk must crack the code before the Starship Enterprise succumbs!

Look to Windward Iain Banks, 2002 Eight hundred years after the most horrific battle of the Idiran war, light from its world-destroying detonations is about to reach the Masaq Orbital, home to the Culture. Major Quilan has supposedly come to take the exiled Composer Ziller back to their war-ravaged home world, Chel. But despite the major's civilized veneer, his true mission may be the death and destruction of an entire civilization.

Puss in Boots, 1962

Abarat Clive Barker, 2011-08-30 A journey beyond imagination is about to unfold. . . . It begins in the most boring place in the world: Chickentown, USA. There lives Candy Quackenbush, her heart bursting for some clue as to what her future might hold. When the answer comes, it's not one she expects. Welcome to the Abarat, a vast archipelago where every island is a different hour of the day. Candy has a place in this extraordinary land: She is here to help save the Abarat from the dark forces that are stirring at its heart—forces older than Time itself, and more evil than anything Candy has ever encountered. She's a strange heroine, she knows. But this is a strange world. And in the Abarat, all things are possible.

Year of Intelligent Tigers Jonathan Blum, Kate Orman, 2001 An Eight Doctor novel. The Doctor has been staying on the planet Hitchemus for the last few months. This planet has two distinctive features - humans have a reputation for composing and playing a wide range of music while its tiger population is showing signs of intelligence.

Doona Anne McCaffrey, Jody Lynn Nye, 2004-02-03 For the first time in one volume—two complete novels set on the remarkable world of Doona, by two of the most acclaimed literary imaginations. More than twenty-five years ago, the first humans came to the unspoiled planet of Doona. They ignored one important fact: They were not alone. Doona was the home of the catlike alien race of Hrrubans. And so began an experiment in cohabitation that lasted for a quarter of a century. Their contract is now up for renewal. Now, the wild planet they tamed, the home they fought for, and the delicate alliance they share could be destroyed forever as a new threat looms. The Gringgs are not the first alien visitors to the planet, but they are the first to offer friendship—and a proposal for a prosperous future. But not everyone trusts the new guests. Not everyone believes in their motives. And as a battle of diplomatic unrest ensues, Doona once again falls under the dark shadow of uncertainty—and self-destruction. “An excellent read.”—Locus “[McCaffrey and Nye] blend their skills effectively to produce a brisk, well-told...tale. Fans of either author, or both, will have fun.”—Booklist

Forerunner Foray Andre Norton, 1973 When a highly skilled sensitive comes into contact with a strange green stone, she finds herself trapped in the past in the identity of another person.

Free Traders take on trading contracts on remote and recently discovered planets, which can be dangerous and unpredictable. The process goes slowly till the Salariki discover that the Solar Queen is carrying catnip and other plants from Terra that are unknown on Sargol. The traders exchange what little of the plants they have for the rare and valuable Koros stones and collect a native red-colored wood to exchange at home. A few days after leaving the planet, several members of the crew suffer from attacks, which start with severe headaches and end in a semi-coma state.
