Kim Henson

Cortina Graham Robson,2014-07-21 In the 1960s the Cortina was an entirely new type of British car, light yet strong, cheap to buy yet roomy. It established a new class of car - the 'Cortina Class' - and Ford's rivals had to rush to compete. Not only was the Cortina the first, it was the best, too; a fascinating, ever-evolving project around which Ford-Europe's planning always revolved. Here, for the first time in a book, are all the facts, figures, images and legends of the Cortina story. With over 180 colour and black and white photos this is the fascinating story of a incredibly successful car.

Ford Escort and Cortina Mk I and Mk II Kim Henson,2003 Ford Cortina and Escort Mk I and Mk II models brought family motoring to millions of people from the early 1960s. These Fords were straightforward, easy to drive and simple to maintain, and their popularity has been sustained largely because of this. Their basic simplicity of design and inherent ruggedness means that they are ideal candidates for DIY restoration. The booming owners's club movement and the continuing availability of spare parts ensures that these cars will have a strong following for many years to come.
