Fake Love Letters, Forged Telegrams, and Prison Escape Maps Annie Atkins,2020-02-26 A behind-the-scenes look at the extraordinary and meticulous design of graphic objects for film sets Although graphic props such as invitations, letters, tickets, and packaging are rarely seen close-up by a cinema audience, they are designed in painstaking detail. Dublin-based designer Annie Atkins invites readers into the creative process behind her intricately designed, rigorously researched, and visually stunning graphic props. These objects may be given just a fleeting moment of screen time, but their authenticity is vital and their role is crucial: to nudge both the actors on set and the audience just that much further into the fictional world of the film.

The People and Culture of the Inuit Raymond Bial,2015-12-15 North America has been shaped by many people, most importantly the Native Americans who were the first humans to call the continent home. Over thousands of years, numerous groups of Native Americans have settled throughout North America. Today, one of the most well-known and recognizable tribes is the Inuit. They have called the northern recesses of Canada home for many hundreds of years. Their culture, communities, and language have been well preserved and continue to fascinate people around the world. Despite their continued presence, they have endured difficulties and hardships. This is the story of the Inuit, how they became a nation, their influence on the world, and how they have evolved into the Inuit communities today.

Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. The Juggler of Notre Dame and the Medievalizing of Modernity Jan M. Ziolkowski,2018-10-31 This ambitious and vivid study in six volumes explores the journey of a single, electrifying story, from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries. The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery, but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt; he is saved when the statue, delighted by his skill, miraculously comes to life. Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth-century Paris, before its translation into English in Britain and the United States. The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations, and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today. In this volume Jan Ziolkowski follows the juggler of Notre Dame as he cavorts through new media, including radio, television, and film, becoming closely associated with Christmas and embedded in children's literature. Presented with great clarity and simplicity,

Ziolkowski's work is accessible to the general reader, while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies, medievalism, philology, literary history, art history, folklore, performance studies, and reception studies.

A Critical History of Health Films in Central and Eastern Europe and Beyond Victoria Shmidt, Karl Kaser, 2023-12-21 The burgeoning scholarship on Western health films stands in stark contrast to the vacuum in the historical conceptualization of Eastern European films. This book develops a nonlinear historical model that revises their unique role in the inception of national cinematography and establishing supranational health security. Readers witness the revelation of an unknown history concerning how the health films produced in Eastern European countries not only adopted Western patterns of propaganda but actively participated in its formation, especially with regard to those considered "others": Women and the populations of the periphery. The authors elaborate on the long "echo" of the discursive practices introduced by health films within public health propaganda, as well as the attempts to negate and deconstruct such practices by rebellious filmmakers. A wide range of methods, including the analysis of the sociological biographies of filmmakers, the historical reconstruction of public campaigns against diseases and an investigation into the production of health films, contextualizes these films along a multifaceted continuum stretching between the adaptation of global patterns and the cultivation of national authenticities. The book is aimed at those who study the history of film, the history of public health, Central and Eastern European countries and global history.
