*Mughal Painter of Flora and Fauna Ustād Maṣūf Som* Prakash Verma, 1999 This volume follows *Mughal Painters and their Work-A Biographical Survey and Comprehensive Catalogue* (Oxford University Press, New Delhi, 1994), the first comprehensive book of reference on the work of nearly 200 Mughal painters; and has been conceived to provide readers much information on the Mughal painting through the contribution of individual master painters. Need not say ample information is available about the artists of the Mughal atelier (sixteenth-seventeenth centuries). Yet, to date, except for some articles on a few painters, no book has been published on individual artist. Ustad Mansur, a keen observer of nature endowed with almost Euclidean intellect, deserved a more detailed study to re-evaluate his merit as an artist whose achievement in naturalistic portraiture of a large number of species from the world of flora and fauna has remained unsurpassed till today. Our attempt is to enter into the very creative process of this great Mughal painter; to relive in his times and environment, in order to discover real Mansur. The whole panorama of Mansur's portraits of birds, animals and flowers set in marvellously and uniquely laid background represents, in his true spirit and characteristics, the very quintessence of nature's endless variety of creation and beauty. Part I provides historical and artistic context in which Ustad Mansur worked. Information about him has been gleaned from original texts (principally Persian historical sources), supplemented by the evidence of artist's own work. Part II comprises the plate section of representative eighteen miniatures that illustrate our painter's style and his specialisation in painting. The appendix further enhances the value of this work since it provides correct rendering of contemporary inscriptions and determines genuine signatures and contemporary ascriptions. The volume is richly illustrated with a large number of black-and-white and colour illustrations. These illustrate the art and style of Ustad Mansur Nadir u'l 'Asr (Unequaled of the Age), the most illustrious naturalist painter of India. It will naturally be of interest to students of art and natural history. It is also recommended to persons curious to know about the Mughal times. It is hoped that other volumes on individual Mughal painters will follow' and monographs on their lives and work with a critical valuation will be available.

*Lost on the Prairie* MaryLou Driedger, 2021-05-25 Shortlisted, 2021 Manitoba Book Awards, Eileen McTavish Sykes Award for Best First Book Nominated, Manitoba Young Readers Choice Awards 2023, Sundogs Award Set between Kansas and Saskatchewan in 1907, this middle-grade novel follows a young boy who gets separated from his family en route to Canada and must find his way alone across the immense prairie landscape. Following the sudden death of his eldest brother, twelve-year-old Peter is chosen by his father to travel by train from Kansas to Saskatchewan to help set up the new family homestead. But when Peter's boxcar becomes uncoupled from the rest of the train somewhere in South Dakota, he finds himself lost and alone on the vast prairie. For a sheltered boy who has only read about adventures in books, Peter is both thrilled and terrified by the journey ahead. Along the way, he faces real dangers, from poisonous snakes to barn fires; meets people from all walks of life, including famous author Mark Twain; and grows more resourceful, courageous, and self-reliant as he makes his way across the Midwest to the Canadian border, eventually reaching his new home in Drake, Saskatchewan. The journey expands Peter's view of the world and shows him that the bonds of family and community, regardless of background, are universal and filled with love. **Original Grin** Ron English,2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

**Fifty Years of Illustration** Lawrence Zeegan,Caroline Roberts,2014-10-28 This book charts contemporary illustration's rich history: from the rampant idealism of the 1960s to the bleak realism of the 1970s, and from the over-blown consumerism of the 1980s to the digital explosion of the 1990s, followed by the increasing diversification of illustration in the early twenty-first century. The book explores the contexts in which the discipline

has operated and looks historically, sociologically, politically, and culturally at the key factors at play across each decade, while artworks by key illustrators bring the decade to life. Contemporary illustration's impact and influence on design and popular culture are investigated through introductory essays and profiles of leading practitioners, illustrated with examples of the finest work.
