Bo taped his first of two Comedy Central specials four days after his 18th birthday, making him the youngest to do so in the channel's history. Now Bo is a rising star in the comedy world, revered for his utterly original and intelligent voice. And, he can SIIIIIIIIING! In EGGHEAD, Bo brings his brand of brainy, emotional comedy to the page in the form of off-kilter poems, thoughts, and more. Teaming up with his longtime friend, artist, and illustrator Chance Bone, Bo takes on everything from death to farts in this weird book that will make you think, laugh and think, why did I just laugh?

California Concrete Tony Hawk,Peter Zellner,2019 Southern California is the birthplace of skateboard culture and, even though skateparks may be found worldwide today, it is where these parks continue to flourish as architects, engineers and skateboarders collaborate to refine their designs. The artist Amir Zaki grew up skateboarding, so he has an understanding of these spaces and, as someone who has spent years photographing the built and natural landscape of California, he has a deep appreciation of the large concrete structures not only as sculptural forms, but also as significant features of the contemporary landscape, belonging to a tradition of architecture and public art. To capture the images in this book, Zaki photographed in the early-morning light, climbing inside the bowls and pipes while there were no skaters around. Each photograph is a composite of dozens of shots taken with a digital camera mounted on a motorized tripod head. The resulting images are incredibly high resolution and can be printed at a large scale with no loss of detail. Their look is unusual in that Zaki's lens is somewhat telephoto, which has the effect of flattening space, yet the angle of view is often quite wide, which exaggerates spatial depth. The technology also allows Zaki to photograph certain areas from difficult positions that would otherwise be impossible to capture. Zaki makes the point that, by climbing deep inside these spaces, the visual experience is fundamentally different from viewing them from outside. In his text, Tony Hawk - one of world's best-known professional skateboarders - describes how Zaki's photographs of empty skateparks and open skies evoke memories of the idyllic freedom and the sense of potential that he felt when he first visited a skatepark as a child and saw skaters flying like birds in and out of the concrete pools and bowls. Hawk has skated in some of the parks featured in this book, and for him several of Zaki's images, taken from the skater's perspective, recall the experience of trying to learn a particular trick. A beautiful full pipe that looks like a barrelling wave may be, for Hawk and other seasoned skateboarders, a perfect example of function and form fitting together flawlessly in a well-designed skatepark. In his essay, the Los Angeles-based architect Peter Zellner offers a different perspective. Skateparks are made by excavating large open areas of land within city parks. The forms inside them may represent ocean waves, mountainous terrain and other features from nature, but they are permanently frozen in cement like Brutalist architecture. Every shape, line, transition, hip, tombstone, coping, stair, flow, tile, bowl, pipe, spine, rail, ledge, roll-in, kidney, clover, square and bank serves a specific purpose - to provide a challenging thrill and maximum pleasure for the rider. In this sense, skateparks epitomize function over form. In Zaki's mesmerizing photographs, however, these concrete landscapes suggest a more complex and integrated relationship with the history of design and architecture in Southern California.

The Lincoln Highway Amor Towles,2023-03-21 #1 NEW YORK TIMES BESTSELLER More than ONE MILLION copies sold A TODAY Show Read with Jenna Book Club Pick A New York Times Notable Book, and Chosen by Oprah Daily, Time, NPR, The Washington Post, Bill Gates and Barack Obama as a Best Book of the Year “Wise and wildly entertaining . . . permeated with light, wit, youth.” —The New York Times Book Review “A classic that we will read for years to come.” —Jenna Bush Hager, Read with Jenna book club “Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope.” —Bill Gates “A real joyride . . . elegantly constructed and compulsively readable.” —NPR The bestselling author of A Gentleman in Moscow and Rules of Civility and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction-to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. “Once again, I was wowed by Towles’s writing-especially because The Lincoln Highway is so different from A Gentleman in Moscow in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero’s journeys, including The Iliad, The Odyssey, Hamlet, Huckleberry Finn, and Of Mice and Men. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel.” – Bill Gates

You’re Paid What You’re Worth Jake Rosenfeld,2021-01-19 A myth-busting book challenges the idea that we’re paid according to objective criteria and places power and social conflict at the heart of economic analysis. Your pay depends on your productivity and occupation. If you earn roughly the same as others in your job, with the precise level determined by your performance, then you’re paid market value. And who can question something as objective and impersonal as the market? That, at least, is how many of us tend to think. But according to Jake Rosenfeld, we need to think again. Job performance and occupational characteristics do play a role in determining pay, but judgments of productivity and value are also highly subjective. What makes a lawyer more valuable than a teacher?

How do you measure the output of a police officer, a professor, or a reporter? Why, in the past few decades, did CEOs suddenly become hundreds of times more valuable than their employees? The answers lie not in objective criteria but in battles over interests and ideals. In this contest four dynamics are paramount: power, inertia, mimicry, and demands for equity. Power struggles legitimize pay for particular jobs, and organizational inertia makes that pay seem natural. Mimicry encourages employers to do what peers are doing. And workers are on the lookout for practices that seem unfair. Rosenfeld shows us how these dynamics play out in real-world settings, drawing on cutting-edge economics, original survey data, and a journalistic eye for compelling stories and revealing details. At a time when unions and bargaining power are declining and inequality is rising, *You're Paid What You're Worth* is a crucial resource for understanding that most basic of social questions: Who gets what and why?

Gaza Conflict 2021 Jonathan Schanzer, 2021-11-10 The May 2021 conflict between Israel and the terrorist group Hamas generated headlines around the world. However, much of the reporting ignored the history, funding, political dynamics, and other key components of the story. Hamas initiates conflict every few years. But the reporting rarely improves. Social media has only further clouded the picture. Hamas is rarely held responsible for its use of human shields, blindly firing rockets at civilian areas in Israel, or diverting aid that should benefit the people of Gaza. The Islamic Republic of Iran, a state sponsor of terrorism, has been the primary patron of Hamas since the group's inception in the late 1980s. Hamas has received additional assistance over the years from Qatar, Turkey and Malaysia. These countries are fomenting conflict, while others, such as Egypt, the United Arab Emirates and Bahrain, have tried to minimize it. Gaza is therefore ground zero in a struggle for the future stability of the Middle East. The Biden administration has important choices to make. Its intent to re-enter the Iran nuclear deal could have significant consequences, given that sanctions relief to Iran will likely yield a financial boon for Hamas, along with other Iranian proxies. The Biden administration must also come to terms with The Squad, a small but loud faction of the Democratic Party that seeks to undermine the US-Israel relationship.

What Unions No Longer Do Jake Rosenfeld, 2014-02-10 From workers' wages to presidential elections, labor unions once exerted tremendous clout in American life. In the immediate post-World War II era, one in three workers belonged to a union. The fraction now is close to one in five, and just one in ten in the private sector. The only thing big about Big Labor today is the scope of its problems. While many studies have explained the causes of this decline, *What Unions No Longer Do* shows the broad repercussions of labor's collapse for the American economy and polity. Organized labor was not just a minor player during the middle decades of the twentieth century, Jake Rosenfeld asserts. For generations it was the core institution fighting for economic and political equality in the United States. Unions leveraged their bargaining power to deliver benefits to workers while shaping cultural understandings of fairness in the workplace. *What Unions No Longer Do* details the consequences of labor's decline, including poorer working conditions, less economic assimilation for immigrants, and wage stagnation among African-Americans. In short, unions are no longer instrumental in combating inequality in our economy and our politics, resulting in a sharp decline in the prospects of American workers and their families.

The Graduation of Jake Moon Barbara Park, 2000-09 Fourteen-year-old Jake recalls how he has spent the last four years of his life watching his grandfather descend slowly but surely into the horrors of Alzheimer's disease.

The Passenger Pigeon Errol Fuller, 2014-09-15 A haunting, beautifully illustrated memorial to this iconic extinct bird At the start of the nineteenth century, Passenger Pigeons were perhaps the most abundant birds on the planet, numbering literally in the billions. The flocks were so large and so dense that they blackened the skies, even blotting out the sun for days at a stretch. Yet by the end of the century, the most common bird in North America had vanished from the wild. In 1914, the last known representative of her species, Martha, died in a cage at the Cincinnati Zoo. This stunningly illustrated book tells the astonishing story of North America's Passenger Pigeon, a bird species that—like the Tyrannosaur, the Mammoth, and the Dodo—has become one of the great icons of extinction. Errol Fuller describes how these fast, agile, and handsomely plumaged birds were immortalized by the ornithologist and painter John James Audubon, and captured the imagination of writers such as James Fenimore Cooper, Henry David Thoreau, and Mark Twain. He shows how widespread deforestation, the demand for cheap and plentiful pigeon meat, and the indiscriminate killing of Passenger Pigeons for sport led to their catastrophic decline. Fuller provides an evocative memorial to a bird species that was once so important to the ecology of North America, and reminds us of just how fragile the natural world can be. Published in the centennial year of Martha's death, *The Passenger Pigeon* features rare archival images as well as haunting photos of live birds.

Immortal, Updated Edition Steven R. Ward, 2014-01-08 *Immortal*, now in an updated paperback edition, is the only single-volume English-language survey of Iran's military history. CIA analyst Steven R. Ward shows that Iran's soldiers, from the famed "Immortals" of ancient Persia to today's Revolutionary Guard, have demonstrated through the centuries that they should not be underestimated. This history also provides background on the nationalist, tribal, and religious heritages of the country to help readers better understand Iran and its security outlook. Drawing on a wide range of sources including declassified documents, the author gives primary focus to the modern era to relate the buildup of the military under the last Shah, its collapse during the Islamic revolution, its fortunes in the Iran-Iraq War, and its rise from the ashes to help Iran become once again a major regional military power.

Without Honour Rob Tripp, 2013-03-05 On the morning of June 30, 2009, police in Kingston, Ontario, made a ghastly

discovery: four females dead in a car submerged in a shallow canal. Sisters Zainab Shafia, 19, Sahar Shafia, 17, Geeti Shafia, 13, along with Rona Mohammad Amir, 50, floated almost serenely inside the car, seemingly the victims of a terrible accident. That morning, Mohammad Shafia, his wife Tooba and their son, Hamed, arrived at the Kingston police station to report the four missing. In a sweeping covert investigation that spanned three continents, police uncovered layers of lies in the Shafias’ story and developed a horrifying theory: Zainab, Sahar, Geeti and Rona had been the victims of a meticulously plotted family murder–Canada’s first mass honour killing. In Without Honour, award-winning journalist Rob Tripp draws on three years of exhaustive research and exclusive interviews to make sense of a senseless crime in a way no other writer could. Tripp was the first journalist on the scene as the news broke and the only reporter to attend every day of court sessions, through to the convictions of Shafia, Tooba and Hamed on four counts each of first-degree murder. The Shafias are appealing. In this gripping and compassionate account, Tripp reveals the heartbreaking and stunning truth about these crimes fuelled by what Ontario Superior Court Judge Robert Maranger called a “twisted notion of honour,” and about the desperate lives of four women who died in the pursuit of freedom.
