Leica Lens Compendium Erwin Puts, 2003-11-24 8 1/2 x 10 Since publication this title has proved to be very popular for both the serious lens user wishing to understand more about his lenses, as well as the Leica enthusiast considering which lens would be suitable to add to his outfit. Do you know your Coma from your Aberrations? If Yes, then part 2 of Erwin Puts' new book will be of considerable interest to you. Either way you may find this section easier to understand than you expect; the illustrations and diagrams do help. Part 1 goes into the optical history of E. Leitz, Wetzlar and the Leica Camera of Solms in detail with all the personalities involved. This section is well illustrated with some new pictures. The commercial demands are always battling with the perfectionists at Leica who created some of the world's most famous lenses. Part 2 is an optical digression explaining the lens and glass design features, problems and terms and the continual battle to ensure that Leica users end up with the highest possible standard of lens. Part 3 is the largest part of the book. Puts has tested Leica lenses from 1925 to date; each lens, in most cases with diagram, is detailed with its performances at the critical apertures.

Hong Kong Yesterday Mark Pinsukanjana, Bryan Yedinak, 2017-02-15 Hong Kong Yesterday presents a singular vision of this enigmatic city by award winning photographer, Fan Ho. Black and white images capturing life in mid-century Hong Kong range from quiet voyeuristic tableaux to chaotic crowds, most focusing on the city's inhabitants. Businessmen, families, dockworkers, alleys, markets and street scenes are all rendered in a style that is simultaneously abstract and humanistic. Fan Ho was born in Shanghai in 1937; he immigrated to Hong Kong as child and passed away in 2016.

Adrian Sauer Hb, 2020-12 Adrian Sauer (*1976) explores the nature of photography, occupying himself with the current state of the medium in pictures, self-written programs, texts, and installations. In his artistic work, he examines the functionality and pitfalls of photography and questions its big promise of being a reliable, objective reproduction of reality. His new book of works brings together ?photo works? of the past ten years and simultaneously provides insights into the migration to digital photography and the new possibilities for showing and seeing that arise from it. 00Exhibition: Oldenburger Kunstverein, Oldenburg, Germany (Opening: September 4, 2020).

Winterreise Luc Delahaye, 2003-05-01 The author, a photographer and storyteller, travels in winter across the dark landscape of Russia and looks into the private face of the country's moral and social crisis.

Wonderland Jason Eskenazi, 2008 Wonderland explores the hidden realities of life before and after the fall of the USSR. The story of Communism is the story of the 20th century. For many, the Soviet Union existed, like their childhood, as a fairy tale where many of the realities of life were hidden from plain view. When the Berlin Wall finally fell, so too did the illusion of that utopia. Wonderland is a photographic exploration that portrays both the reality beneath the veneer of a utopian USSR and the affirmation that hope that should never be abandoned.

Unposed Craig Semetko, 2022-09-20 Follow in the footsteps of Leica Camera Ambassador Craig Semetko's 10 year trek across the globe to capture the spontaneity, humor, and juxtaposition of the human experience. In the book's forward, iconic photographer Elliott Erwin writes, "Good photographs are tough enough to shoot. Really funny ones are even harder. Good and funny photographs observed in nature not arranged or manipulated but simply observed in real time with amazing consistency, constitute a minor miracle now presented in Mr. Semetko's book...In my book, he is the

essential photographer. That is, the one who sees what others could not have seen.” Inspired by Cartier-Bresson, Robert Frank, and Elliott Erwitt, Craig Semetko is a collector of the spontaneous moment. With an uncanny knack for using Leica Cameras to capture the beautiful and unexpected that surrounds us all, Semetko offers a striking collection of imagery shot during 10 years of traveling around the world, from Edinburgh to Amsterdam, France to Los Angeles, Hanoi to Bangkok, and beyond. This visual celebration records the first decade of the twenty-first century across all walks of life. Semetko documents the muted beauty of regular people simply living their lives, and captures the humor found in the offbeat and eccentric contrasts all around us. Unposed is a memorable exploration of an era shot by a skilled photographer, dubbed by Esquire magazine as “a noble torchbearer” of the Leica Camera legacy.

Fan Ho - A Hong Kong Memoir Fan Ho, 2019-05-30 Fan Ho: A Hong Kong Memoir, completes the trilogy Fan Ho began with Hong Kong Yesterday and The Living Theatre. In his previous monographs, viewers were introduced to Hong Kong during the 1950s and 1960s. Through his brilliant eye for light, composition, and his patience for the 'decisive moment,' Fan Ho created striking images that continue to resonate through the decades. Fan Ho: A Hong Kong Memoir revisits this lost era with a combination of never before seen images and introduces new montaged photographs.

Leica An Illustrated History James L. Lager, 1994-10-30 Covers virtually all of the lenses produced by Leitz from the introduction of the Leica 1 Anastigmat in 1925 and the long awaited screw mount lenses, through the M and R optics, to the latest developments

Street Photography Now Sophie Howarth, Stephen McLaren, 2011 'Street Photography Now' celebrates the work of 46 image-makers from across the globe. Included are such luminaries as Magnum grandmasters Gilden, Parr and Webb, as well as an international posse of emerging photographers. Four essays and quotes from interviews with the photographers are included--

Hiroshi Sugimoto Hiroshi Sugimoto, 2019 For more than 30 years, Hiroshi Sugimoto has traveled the world photographing its seas, producing an extended meditation on the passage of time and the natural history of the earth reduced to its most basic, primordial substances: water and air. Always capturing the sea at a moment of absolute tranquility, Sugimoto has composed all the photographs identically, with the horizon line precisely bifurcating each image. The repetition of this strict format reveals the uniqueness of each meeting of sea and sky, with the horizon never appearing exactly the same way twice. The photographs are romantic yet absolutely rigorous, apparently universal but exceedingly specific.

The Great LIFE Photographers The Editors of LIFE, 2010-10-21 The Great LIFE Photographers is the most comprehensive anthology of LIFE photography ever published, featuring the best work of every staff photographer who worked for the famous magazine, and that of a handful of others who shot for LIFE. It was always the photographers who made LIFE great, and this is the most vivid and exciting portrait of those men and women that has ever been produced. The book offers more than 100 portfolios including those of Alfred Eisenstaedt, Margaret Bourke-White, Carl Mydans, Gordon Parks, W. Eugene Smith, Robert Capa, Ralph Morse, Nina Leen, Harry Benson, Philippe Halsman, and Joe McNally, whose work for LIFE in the aftermath of September 11 was in the finest tradition of the magazine. Each portfolio includes a short biography, offering an intimate look at the people behind the lens. Here are the defining moments of the 20th century, including MacArthur wading ashore by Mydans, Capa's D-Day landing at Omaha Beach and, of course, Eisenstaedt's sailor kissing the nurse. Here are the first pictures taken from inside the womb and the first taken from outer space. Here are powerful scenes from Tiananmen Square and from the American South during the Civil Rights movement. LIFE helped make icons of Sophia Loren and Marilyn Monroe, the Beatles and Michael Jackson, and those indelible photographs are here too. This attractive new paperback edition is an affordable way to own some of the most memorable photographs ever made, stunningly reproduced in black and white and full color.

A Year in Photography Magnum Photos, 2015-09 Now available again in a stunning new format, this generously illustrated book for lovers of photography includes 365 images from the greatest photojournalists of today and yesterday. Founded by Henri Cartier-Bresson, Magnum Photos is the

iconic international photographic cooperative whose members have captured the major historical events of their times, as well as private and intimate moments. A year's worth of these images is offered in this visually stunning book that features full page reproductions organized to reflect what CartierBresson himself declared a community of thought, a shared human quality, a curiosity about what is going on in the world, a respect for what is going on and a desire to transcribe it visually. Nearly 70 photographers are represented with five to six images each, and the current Magnum members have selected the photographs that they consider to best represent their own output. Running more than 700 pages, this book includes images that make history both individual and universal.

My Life with the Leica Walther Benser,2006-11-15 Personalities around the Leica such as Ernst Leitz II, Oskar Barnack, Henri Dumur, Paul Wolff, Heinrich Stockler and Julius Behnke come to life again through Walther Benser's tales and recollections presented to us in a new light. The Leica lecture tours, started by Anton Baumann, soon became Benser's specialty with which he achieved world-wide recognition. He took his shows not only around Germany but also into neighboring countries even after he war had begun. As a result of his photographic activity he eventually became a war reporter. Then came the battle for survival, both during and after the war - and the Leica always played an important and often decisive role. Finally he resumed his lecture tours, earning great success across the continents, both for his own pictures and for the Leica. He then started his own business, which finally grew into a large color-picture agency. These are the stages in Walter Benser's life with the Leica, periods he lived through and helped to mold with every camera model, from the Leica I to the M6.
